JASE HOOPER

Jusepe de Ribera 1591-1652 BRILL

Production designers discuss their craft, revealing the creative process which led to the look of their memorable films. Contributors include Dean Tavoularis of The Godfather Trilogy and Dante Ferretti on his work with Fellini and Scorsese.

The Late Etchings of Rembrandt Mondadori Electa

In this brilliant and widely acclaimed work, Peter Burke presents a social and cultural history of the Italian Renaissance. He discusses the social and political institutions which existed in Italy during the fifteenth and sixteenth centuries and he analyses the ways of thinking and seeing which characterized this period of extraordinary artistic creativity. Developing a distinctive sociological approach, Peter Burke is concerned with not only the finished works of Michelangelo, Raphael, Leonardo da Vinci and others, but also with the social background, patterns of recruitment and means of subsistence of this "cultural elite." He thus makes a major contribution to our understanding of the Italian Renaissance, and to our comprehension of the complex relations between culture and society. Peter Burke has thoroughly revised and updated the text for this new edition. The book is richly illustrated throughout. It will have a wide appeal among historians, sociologists and anyone interested in one of the most creative periods of European history.

Masterpieces of the J. Paul Getty Museum: European Sculpture Tamesis Books

Focusing on Mollino's furniture and interior design, this text also showcases his incredible passion for photography, providing a comprehensive overview of his creativity and versatile talents.

The Girl with the Crystal Eyes Springer

From the acclaimed, genre-bending Italian fabulist author, a posthumous collection of career-spanning stories previously unavailable in English. "Everybody telephones everybody at every possible moment, and nobody can speak to anybody . . . Distance has been the warp that supports the weft of every love story." —from *Numbers in the Dark* Written between 1943 and 1984, the stories in *Numbers in the Dark* span the career of one of fiction's modern masters: from Italo Calvino's earliest fables, to tales informed by life in World War II-era Italy, to the delightful experimentation that would define his later work. Here are speculative stories on life in the digital age, genre-bending wonders, and "impossible interviews" with the likes of Montezuma and a Neanderthal. Deftly translated by Tim Parks, *Numbers in the Dark* shows off Calvino's lifelong gift for subtle humor and shimmering philosophical insight. Praise for *Numbers in the Dark* "Numbers in the Dark is a glorious grab-bag . . . [with] enough gems from every phase in Calvino's career to make it feel indispensable." —Seattle Times "These stories reward the patient reader with wisdom, humor, and insight." —Library Journal "Calvino . . . is well-represented in this continually surprising collection Novelist Parks's superb translations capture Calvino's quirky, iconoclastic voice, helping to make this a worthy

addition to the Calvino shelf." —Publishers Weekly

The Italian Metamorphosis, 1943-1968 Oxford University Press, USA

This is the first English translation of *Vispera del gozo* -- a collection of short stories by Pedro Salinas (1891-1951), a writer best known for his poetry and involvement in the Spanish vanguard aesthetic movement of the 1920s and 1930s.

Crypta Balbi Getty Publications

Any assessment of Philip II's rule assumes the appearance of a paradox. In analysing the nature and impact of Philip II's rule and government, the author seeks to examine the extent of the changes in royal finance, the economic and social issues, the impact of religion -- both within Spain and throughout its Empire - - and the aims and motives behind the king's foreign policy.

Ethnology of Easter Island ABRAMS

This book examines the medieval legacy that influences life in Spanish-speaking North America to the present day. Focusing on the period from 1517?the expedition of Hernandez de Cordoba?to the middle of the seventeenth century, Weckmann describes how explorers, administrators, judges, and clergy introduced to the New World a culture that was essentially medieval. That the transplanted culture differentiated itself from that of Spain is due to the resistance of the indigenous cultures of Mexico.

A Bilingual Edition of Víspera Del Gozo State University of New York Press

This book examines Spain's reception of Russo-Soviet literature and its relationship with Nuevo Romanticismo through the lens of Bakhtin's theories on the novel.

The Medieval Heritage of Mexico Lettera ventidue Edizione

When Pupshaw and Pushpaw depart for the orgiastic delights of Poochytown, the forlorn Frank is thrown by a twist of fate into an unlikely friendship, propelling him down a long road of escapades and trials that ends in one of the most shocking acts ever depicted in the Frank canon.

Decorative Arts BRILL

The J. Paul Getty Museum's collection of European sculpture featured in this volume ranges in date from the late fifteenth century to the very early twentieth and includes a wide variety of media: marble, bronze, alabaster, terracotta, plaster, wood, ivory, and gold. The earliest sculpture represented is the mysterious Saint Cyricus by Francesco Laurana; the latest is a shield-like portrait of Medusa by the eccentric Italian sculptor Vincenzo Gemito. Among the more than forty works included in this handsomely illustrated volume are sculptures by Antico (Bust of a Young Man); Cellini (a Satyr designed for Fontainebleau); Giambologna (a Female Figure that may represent Venus); Bernini (Boy with a Dragon); and Carpeaux (Bust of Jean-Léon Gérôme). Well represented here is the Museum's splendid collection of Mannerist and early Baroque bronzes, including such masterpieces as Johann Gregor van der Schardt's Mercury and two superb works by Adriaen de Vries: Juggling Man and Rearing Horse. These works are indicative of the extraordinary quality of the J. Paul Getty Museum's collection of post-Classical European sculpture.

Minding the Law Fordham Univ Press

The Italian Metamorphosis, 1943-1968 is the first book to bring together all aspects of Italian visual culture from this fascinating period. Through seventeen scholarly essays and hundreds of lavish full-color and duotone reproductions, this volume captures the era's greatest achievements in the fields of painting, sculpture, artists' crafts, literature, photography, cinema, fashion, architecture, and design.

In *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century, with particular concern for the "Neapolitan marbles" and the circumstances of their dispersal.

150 of the Best Jazz Standards Ever Metropolitan Museum of Art

In this remarkable collaboration, one of the nation's leading civil rights lawyers joins forces with one of the world's foremost cultural psychologists to put American constitutional law into an American cultural context. By close readings of key Supreme Court opinions, they show how storytelling tactics and deeply rooted mythic structures shape the Court's decisions about race, family law, and the death penalty. *Minding the Law* explores crucial psychological processes involved in the work of lawyers and judges: deciding whether particular cases fit within a legal rule ("categorizing"), telling stories to justify one's claims or undercut those of an adversary ("narrative"), and tailoring one's language to be persuasive without appearing partisan ("rhetorics"). Because these processes are not unique to the law, courts' decisions cannot rest solely upon legal logic but must also depend vitally upon the underlying culture's storehouse of familiar tales of heroes and villains. But a culture's stock of stories is not changeless. Amsterdam and Bruner argue that culture itself is a dialectic constantly in progress, a conflict between the established canon and newly imagined "possible worlds." They illustrate the swings of this dialectic by a masterly analysis of the Supreme Court's race-discrimination decisions during the past century. A passionate plea for heightened consciousness about the way law is practiced and made, *Minding the Law* will be welcomed by a new generation concerned with renewing law's commitment to a humane justice.

Table of Contents: 1. Invitation to a Journey 2. On Categories 3. Categorizing at the Supreme Court *Missouri v. Jenkins* and *Michael H. v. Gerald D.* 4. On Narrative 5. Narratives at Court *Prigg v. Pennsylvania* and *Freeman v. Pitts* 6. On Rhetorics 7. The Rhetorics of Death *McCleskey v. Kemp* 8. On the Dialectic of Culture 9. Race, the Court, and America's Dialectic From *Plessy* through *Brown* to *Pitts* and *Jenkins* 10. Reflections on a Voyage Appendix: Analysis of Nouns and Verbs in the *Prigg*, *Pitts*, and *Brown* Opinions Notes Table of Cases Index

Reviews of this book: Amsterdam, a distinguished Supreme Court litigator, wanted to do more than share the fruits of his practical experience. He also wanted to...get students to think about thinking like a lawyer...To decode what he calls "law-think," he enlisted the aid of the venerable cognitive psychologist Jerome Bruner...[and] the collaboration has resulted in [this] unusual book. --James Ryerson, *Lingua Franca* Reviews of this book: It is hard to imagine a better time for the publication of *Minding the Law*, a brilliant dissection of the court's work by two eminent scholars, law professor Anthony G. Amsterdam and cultural anthropologist Jerome Bruner...Issue by issue, case by case, Amsterdam and Bruner make mincemeat of the court's handling of the most important constitutional issue of the modern era: how to eradicate the American legacy of race discrimination, especially against blacks. --Edward Lazarus, *Los Angeles Times* Book Review

Reviews of this book: This book is a gem...[Its thesis] is easily stated but remarkably unrecognized among a shockingly large

number of lawyers and law professors: law is a storytelling enterprise thoroughly entrenched in culture...Whereas critical legal theorists have talked among themselves for the past two decades, Amsterdam and Bruner seek to engage all of us in a dialogue. For that, they should be applauded. --Daniel R. Williams, *New York Law Journal* Reviews of this book: In *Minding the Law*, Anthony Amsterdam and Jerome Bruner show us how the Supreme Court creates the magic of inevitability. They are angry at what they see. Their book is premised on the conviction that many of the choices made in Supreme Court opinions 'lack any justification in the text'...Their method is to analyze the text of opinions and to show how the conclusions reached do not always follow from the logic of the argument. They also show how the Court casts its rhetoric like a spell, mesmerizing its audience, and making the highly contingent shine with the light of inevitability. --Mitchell Goodman, *News and Observer* (Raleigh, North Carolina) Reviews of this book: What do controversial Supreme Court decisions and classic age-old tales of adultery, villainy, and combat have in common? Everything--at least in the eyes of [Amsterdam and Bruner]. In this substantial study, which is equal parts dense and entertaining, the authors use theoretical discussions of literary technique and myths to expose what they see as the secret intentions of Supreme Court opinions...Studying how lawyers and judges employ the various literary devices at their disposal and noting the similarities between legal thinking and classic tactics of storytelling and persuasion, they believe, can have 'astonishing consciousness-retrieving effects'...The agile minds of Amsterdam and Bruner, clearly storehouses of knowledge on a range of subjects, allow an approach that might sound far-fetched occasionally but pays dividends in the form of gained perspective--and amusement. --Elisabeth Lasch-Quinn, *Washington Times* Reviews of this book: Stories and the way judges-intentionally or not-categorize and spin them, are as responsible for legal rulings as logic and precedent, Mr. Amsterdam and Mr. Bruner said. Their novel attempt to reach into the psyche of...members of the Supreme Court is part of a growing interest in a long-neglected and cryptic subject: the psychology of judicial decision-making. --Patricia Cohen, *New York Times* Most law professors teach by the 'case method,' or say they do. In this fascinating book, Anthony Amsterdam--a lawyer--and Jerome Bruner--a psychologist--expose how limited most case 'analysis' really is, as they show how much can be learned through the close reading of the phrases, sentences, and paragraphs that constitute an opinion (or other pieces of legal writing). Reading this book will undoubtedly make one a better lawyer, and teacher of lawyers. But the book's value and interest goes far beyond the legal profession, as it analyzes the way that rhetoric--in law, politics, and beyond--creates pictures and convictions in the minds of readers and listeners. --Sanford Levinson, author of *Constitutional Faith* Tony Amsterdam, the leader in the legal campaign against the death penalty, and Jerome Bruner, who has struggled for equal justice in education for forty years, have written a guide to demystifying legal reasoning. With clarity, wit, and immense learning, they reveal the semantic tricks lawyers and judges sometimes use--consciously and unconsciously--to justify the results they want to reach. --Jack Greenberg, Professor of Law, Columbia Law School

Spanish Reception of Russian Narratives, 1905-1939 Max Crime

One of Italy's greatest and most popular writers offers three witty, fantastical stories, each dominated by one of three senses--taste, hearing, or smell.

Knowledge and Skills in Translator Behavior Routledge Presents a selection of 150 jazz standards arranged for piano, voice, and guitar. This work includes the songs: *Ain't Misbehavin'*,

Don't Get Around Much Anymore, Fly Me To The Moon, God Bless' The Child, I'm Beginning To See The Light, My Funny Valentine, Satin Doll, Stella By Starlight, Witchcraft, Unforgettable, and more.

João Alvaro Rocha John Benjamins Publishing

This book represents an approach which is intended to give readers a general insight into what translators really do and to explain the concepts and tools of the trade, bearing in mind that translation cannot be reduced to simple principles that can easily be separated from each other and thus be handled in isolation. On the whole, the book is more process- than product-centred. Translation is seen as an activity with an intentional and a social dimension establishing links between a source-language community and a target-language community and therefore requiring a specific kind of communicative behavior based on the question "Who translates what, for whom and why?" To the extent that the underlying principles, assumptions, and conclusions are convincing to the reader, the practical implications of the book, last but not least in translation teaching, are obvious.

Numbers in the Dark Houghton Mifflin Harcourt

This impressive edited collection investigates the relationship between British Pop Art pioneer Eduardo Paolozzi and the philosopher Ludwig Wittgenstein. At this time, when Paolozzi's oeuvre is in the process of being rediscovered, his long-time fascination with Wittgenstein requires thorough exploration, as it discloses a deeper understanding of his artistic production, further helping to reassess the philosopher's actual impact on visual arts and its theory in the second half of the 20th century. With 13 diverse and comprehensive chapters, bringing together philosophers and art historians, this volume aims at retracing and pondering the influence of Wittgenstein on the idea of art in Paolozzi, thus giving an unprecedented insight into Wittgenstein's philosophy as employed by contemporary artists.

Fecit II University of Illinois Press

This book offers a comprehensive and unitary study of the philosophy of Francis Bacon, with special emphasis on the medical, ethical and political aspects of his thought. It presents

an original interpretation focused on the material conditions of nature and human life. In particular, coverage in the book is organized around the unifying theme of Bacon's notion of appetite, which is considered in its natural, ethical, medical and political meanings. The book redefines the notions of experience and experiment in Bacon's philosophy of nature, shows the important presence of Stoic themes in his work as well as provides an original discussion of the relationships between natural magic, prudence and political realism in his philosophy. Bringing together scholarly expertise from the history of philosophy, the history of science and the history of literature, this book presents readers with a rich and diverse contextualization of Bacon's philosophy.

Historical Mapping Harvard University Press

Nietzsche and the philosophy of language have been a well trafficked crossroads for a generation, but almost always as a checkpoint for post-modernism and its critics. This work takes a historical approach to Nietzsche's work on language, connecting it to his predecessors and contemporaries rather than his successors. Though Nietzsche invited identification with Zarathustra, the solitary wanderer ahead of his time, for most of his career he directly engaged the intellectual currents and scientific debates of his time. Emden situates Nietzsche's writings on language and rhetoric within their wider historical context. He demonstrates that Nietzsche is not as radical in his thinking as has been often supposed, and that a number of problems with Nietzsche disappear when Nietzsche's works are compared to works on the same subjects by writers of the 18th and 19th centuries. Further, the relevance of rhetoric and the history of rhetoric to philosophy and the history of philosophy is reasserted, in consonance with Nietzsche's own statements and practices. Important in this regard are the role of fictions, descriptions, and metaphor.

Francis Bacon on Motion and Power Scarecrow Press

This heavily illustrated study follows Alvaro Rocha's architectural career. It depicts over 30 projects from 1990 to 2001 that range from domestic dwellings to buildings like the Portuguese Institute of Telecommunications.
