The Annapolis Book of Seamanship Bloomsbury Publishing

The uplifting and unforgettable true story of a US Marine, the stray dog he met on an Afghan battlefield, and how they saved each other and now travel America together, "spreading the message of stubborn positivity." In 2010, Sergeant Craig Grossi was doing intelligence work for Marine RECON—the most elite fighters in the Corps—in a remote part of Afghanistan. While on patrol, he spotted a young dog "with a big goofy head and little legs" who didn't seem vicious or run in a pack like most strays they'd encountered. After eating a piece of beef jerky Craig offered—against military regulations—the dog began to follow him.

"Looks like you made a friend," another Marine yelled. Grossi heard, "Looks like a 'Fred.'" The name stuck, and a beautiful, life-changing friendship was forged. Fred not only stole Craig's heart; he won over the RECON fighters, who helped Craig smuggle the dog into heavily fortified

Camp Leatherneck in a duffel bag—risking jail and Fred’s life. With the help of a crew of DHL workers, a sympathetic vet, and a military dog handler, Fred eventually made it to Craig’s family in Virginia. Months later, when Craig returned to the U.S., it was Fred’s turn to save the wounded Marine from Post-Traumatic Stress. Today, Craig and Fred are touching lives nationwide, from a swampy campground in a Louisiana State Park to the streets of Portland, Oregon, and everywhere in between. A poignant and inspiring tale of hope, resilience, and optimism, with a timeless message at its heart—“it is not what happens to us that matters, but how we respond to it”—Craig & Fred is a shining example of the power of love to transform our hearts and our lives.

"Comprehensive, encyclopedic, and lucid, this book is a must for all practitioners of the healing arts who want to broaden their understanding. Readers interested in the role of herbs and foods in healing will also find much to learn here, as I have. . . . A fine work."—Annemarie Colbin, author of *Food and Healing* The promise and mystery of Chinese medicine has intrigued and fascinated Westerners ever since the "Bamboo Curtain" was lifted in the early 1970s.

Now, in *Between Heaven and Earth*, two of the foremost American educators and healers in the Chinese medical profession demystify this centuries-old approach to health. Harriet Beinfeld and Efrem Korngold, pioneers in the practice of acupuncture and herbal medicine in the United States for over eighteen years, explain the philosophy behind Chinese medicine, how it works and what it can do. Combining Eastern traditions with Western sensibilities in a unique blend that is relevant today, *Between Heaven and Earth* addresses three vital areas of Chinese medicine—theory, therapy, and types—to present a comprehensive, yet understandable guide to this ancient system. Whether you are a patient with an aggravating complaint or a curious intellectual seeker, *Between Heaven and Earth* opens the door to a vast storehouse of knowledge that bridges the gap between mind and body, theory and practice, professional and self-care, East and West. “Groundbreaking . . . Here at last is a complete and readable guide to Chinese medicine.”—San Francisco Chronicle
