Taking a novel approach to the contradictory impulses of violence and care, illness and healing, this book radically shifts the way we think of the interrelations of institutions and experiences in a globalizing world. Living and Dying in the Contemporary World is not just another reader in medical anthropology but a true tour de force— a deep exploration of all that makes life unbearable and yet livable through the labor of ordinary people. This book comprises forty-four chapters by scholars whose ethnographic and historical work is conducted around the globe, including South Asia, East Asia, Latin America, Africa, the Middle East, Europe, and the United States. Bringing together the work of established scholars with the vibrant voices of younger scholars, Living and Dying in the Contemporary World will appeal to anthropologists, sociologists, health scientists, scholars of religion, and all who are curious about how to relate to the rapidly changing institutions and experiences in an ever more connected world. *Health Care Reforms in India - E-Book* Penguin Random House India Private Limited

The All India Institute of Medical Sciences (AIIMS) is iconic in the landscape of Indian healthcare. Established in the early years of independence, this enormous public teaching hospital rapidly gained fame for the high-quality treatment it offered at a nominal cost; at present, an average of ten thousand patients pass through the outpatient department each day. With its notorious medical program acceptance rate of less than 0.01%, AIIMS also sits at the apex of Indian medical education. To be trained as a doctor here is to be considered the best. In what way does this enduring reputation of excellence shape the institution's ethos? How does elite medical education sustain India's social hierarchies and the health inequalities entrenched within? In the first-ever ethnography of AIIMS, Anna Ruddock considers prestige as a byproduct of norms attached to ambition, aspiration, caste, and class in modern India, and illustrates how the institution's reputation affects its students' present experiences and future career choices. Ruddock untangles the threads of intellectual exceptionalism, social and power stratification, and health inequality that are woven into the health care taught and provided at AIIMS, asking what is lost when medicine is used not as a social equalizer but as a means to cultivate and maintain prestige.

Started in 1958, Sanathana Sarathi is a monthly magazine devoted to Sathya (Truth), Dharma (Righteousness), Shanti (Peace) and Prema (Love) - the four cardinal principles of Bhagawan Baba's philosophy. It is published from Prasanthi Nilayam (the Abode of Highest Peace) and acts as a mouthpiece of Baba's Ashram as it speaks of the important events that take place in His sacred

Abode, besides carrying Divine Messages conveyed through Divine Discourses of Bhagawan Sri Sathya Sai Baba. The word meaning of Sanathana Sarathi is the 'Eternal Charioteer'. It signifies the presence of the Lord in every being as the atma guiding their lives like a charioteer. It implies that he who places his life, the body being likened to a chariot, in an attitude of surrender in the hands of the Lord, will be taken care of by the Lord even as a charioteer would take the occupant of his chariot safely to its destination. The magazine is an instrument to disseminate spiritual knowledge for the moral, physical and mental uplift of humanity without any discrimination as the subject matter discussed therein is always of common interest and of universal appeal. The fifteen Vahinis - streams of sacredness - known as the Vahini Series comprising annotation and interpretation of the Upanishads and other scriptures, Itihasas like the Ramayana, the Bhagavatha and the Mahabharata, and authentic explanations on Dhyana, Dharma, Prema, etc., have been serially published in this magazine as and when they emanated from the Divine pen of Bhagawan Baba. This magazine is published in almost all Indian languages, English and Telugu from Prasanthi Nilayam and others from respective regions. Every year Sanathana Sarathi comes out with a special issue in November commemorating the Divine Birthday. The English and Telugu magazines are posted on the 10th and 23rd respectively, of every month, from Prasanthi Nilayam. This magazine has wide, ever increasing circulation in India as well as abroad, as the study of it brings the reader closer to the philosophy of the Avatar in simple understandable language THUS SPAKE SAI... Discoursing during the launch of Sanathana Sarathi... From this day, our Sanathana Sarathi will lead to victory the cohorts of truth - the Vedas, the Sastras and similar scriptures of all faiths, against the forces of the ego such as injustice, falsehood, immorality and cruelty. This is the reason why it has emerged. This Sarathi will fight in order to establish world prosperity. It is bound to sound the paeon of triumph when universal Ananda is achieved.

In the last decade, addressing the persistent problem of maternal, infant, young child and adolescent malnutrition in India has gained significant attention. With the well-established serious implications of malnutrition on mortality and morbidity; mental health and cognitive development; activity and productivity and overall economic development, today there is an unprecedented political commitment to improving the grave woman and child nutrition scenario in the country. POSHAN ABHIYAAN (Nutrition Mission) was launched in a Mission mode by the Honourable Prime Minister of India on March 8, 2018, followed by measures for an effective implementation of an integrated nutrition strategy through POSHAN 2.0 in 2022. The book with 15 chapters tracks the history of evolution of public nutrition policies and strategies, presents an update on the nutrition scenario, analyses the experiences and synthesises emerging lessons in the prevention and control of malnutrition. Additionally, the book includes chapters with details of each of the various government systems such as Health, ICDS, NRLM, PDS, Education/MDM, Water-Sanitation that provide lead in mainstreaming nutrition actions that directly or indirectly impact on accelerating the improvement of the nutrition situation of women, adolescents and children. The book is intended to be an indispensable reference for teachers and students of nutrition, community medicine, public health and development as well as professionals involved in the formulation and implementation of the nutrition policies and programmes. Print edition not for sale in South Asia (India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan)

In India, you can still find the kabaadiwala, the rag-and-bone man. He wanders from house to house buying old newspapers, broken utensils, plastic bottles—anything for which he can get a little cash. This custom persists and recreates itself alongside the new economies and ecologies of consumer capitalism. Waste of a Nation offers an anthropological and historical account of India's complex relationship with garbage. Countries around the world struggle to achieve sustainable futures. Assa Doron and Robin Jeffrey argue that in India the removal of waste and efforts to reuse it also lay waste to the lives of human beings. At the bottom of the pyramid, people who work with waste are injured and stigmatized as they deal with sewage, toxic chemicals, and rotting garbage. Terrifying events, such as atmospheric pollution and childhood stunting, that touch even the wealthy and powerful may lead to substantial changes in practices and attitudes toward sanitation. And innovative technology along with more effective local government may bring about limited improvements. But if a clean new India is to emerge as a model for other parts of the world, a "binding morality" that reaches beyond the current environmental crisis will be required. Empathy for marginalized underclasses—Dalits, poor Muslims, landless migrants—who live, almost invisibly, amid waste produced predominantly for the comfort of the better-off will be the critical element in India's relationship with waste. Solutions will arise at the intersection of the traditional and the cutting edge, policy and practice, science and spirituality.

"What the Communist Manifesto is to the capitalist world, Annihilation of Caste is to India." —Anand Teltumbde, author of The Persistence of Caste B.R. Ambedkar's Annihilation of Caste is one of the most important, yet neglected, works of political writing from India. Written in 1936, it is an audacious denunciation of Hinduism and its caste system. Ambedkar - a figure like W.E.B. Du Bois - offers a scholarly critique of Hindu scriptures, scriptures that sanction a rigidly hierarchical and iniquitous social system. The world's best-known Hindu, Mahatma Gandhi, responded publicly to the provocation. The hatchet was never buried. Arundhati Roy introduces this extensively annotated edition of Annihilation of Caste in "The Doctor and the Saint," examining the persistence of caste in modern India, and how the conflict between Ambedkar and Gandhi continues to resonate. Roy takes us to the beginning of Gandhi's political career in South Africa, where his views on race, caste and imperialism were shaped. She tracks Ambedkar's emergence as a major political figure in the national movement, and shows how his scholarship and intelligence illuminated a political struggle beset by sectarianism and obscurantism. Roy breathes new life into Ambedkar's anti-caste utopia,

and says that without a Dalit revolution, India will continue to be hobbled by systemic inequality. [Bharat 2017](#) Publications Division Ministry of Information & Broadcasting

The book assesses the development experience by reflecting on a number of aspects, such as growth in relation to employment, regional imbalances and rural-urban distribution. Further, it examines educational attainment and human capital formation issues in the context of the skill shortages the country is facing, and analyses social inequality, including gender, and evaluates a number of empowerment strategies. Lastly, it critically assesses the effectiveness of health services by examining case studies of on-going sanitation, family planning and reproductive health programmes. Presenting both quantitative and qualitative approaches, the papers utilise rare databases that are usually not available in the public domain to reflect on the country's development experience. The book revisits many development concerns, particularly inclusiveness aspects, through an in-depth analysis. It covers three major areas related to (a) employment, (b) education and skill and (c) social concerns and issues related to health services. The book will be an important resource not only for researchers but also for policy makers and those involved in capacity development in these areas.

An integrated picture of India's global vision, its foreign policy, and the negotiating practices that link the two. In recent decades, India has grown as a global power, and has been able to pursue its own goals in its own way. Negotiating for India's Global Role gives an insightful and integrated analysis of India's ability to manage its evolving role. Former ambassadors Teresita and Howard Schaffer shine a light on the country's strategic vision, foreign policy, and the negotiating behavior that links the two. The four concepts woven throughout the book offer an exploration of India today: its exceptionalism; nonalignment and the drive for "strategic autonomy;" determination to maintain regional primacy; and, more recently, its surging economy. With a specific focus on India's stellar negotiating practice, *Negotiating for India's Global Role* is a unique, comprehensive understanding of India as an emerging international power player, and the choices it will face between its classic view of strategic autonomy and the desirability of finding partners in the fast-evolving world.

This book presents an analysis of the foundations organised by the Birla family in India. Several generations were involved in the renovation and establishment of sanctuaries, temples and other sacral buildings. As a result, between 1933 and 1998, nineteen Birla Mandirs were established, mainly in northern and central India. All the temples have the capacity to surprise with their various decorative motifs, not seen in other places, which – apart from their aesthetic function – above all bear important symbolic content. Therefore, is it possible to treat the Birla Mandirs as a specific

medium – the carrier of a particular message that is not only religious, but with a significance that permeates other layers of social and political discourse. This message, as the authors of the book claim, have a bearing on the socio-political thought of India – supported by the creation and propagation of ideas related to identity and a national art. It also conveys the idea of hierarchical Hindu inclusivism which, although considering all religions as equal, treats Hinduism in a unique way – seeing within it the most perfect form of religion, giving man the opportunity to learn the highest truth. The book also examines whether the temples founded by the Birla family and the religious activities undertaken therein apply the concept of "inventing" tradition, and whether traditions created (or "modernised") in contemporary times are a way of enhancing the appeal of the message conveyed from temple to society. "The Vastness of Culture" is a series of publications presenting cultural studies and emphasizing the role of comparative research and analyses that reveal similarities, differences and intercultural influences. In our publications, cultures and civilizations are in a state of constant flux, engaging in dialogue, creating new understandings, competing for meaning under the influence of global content, without any clear boundaries, but with a vastness that forces questions to be raised.

Traditional valuation approaches are increasingly recognised as being insufficient to address the wicked valuation problems of the diverse peoples and groups that inhabit the globe from north, south, east to west. This book demonstrates the limitations of science and, in particular economics, as the foundation on which valuations are traditionally based. It demonstrates the importance of and provides justification for the personal, cultural values and norms which underpin our assessment of "value", and the fact that these vary across the world. In *Wicked Valuations* Michael McDermott develops a means of engaging with highly complex valuation problems. His autoethnography provides a lens to draw on knowledge and experience from his 40 years in land valuation in Africa and the Asia-Pacific, while documentary analysis is used to draw in the views of other valuation practitioners and scholars who are becoming increasingly aware of the need to develop ways to adapt land valuation processes to the complexity of our contemporary landscapes.
