Having established a good base for selling cars the MG Company changed the styling for the TD into a much more comfortable and modern vehicle. Again the sales exploded and in three years built nearly three times the number of TC the previous year. The extra boost give by the Mk II kept it going until the TF arrived. This had an even more drastic styling change and not only was it not appreciated, despite a larger engine being fitted, it did not keep up with the current vogue for all enveloping bodies. This only lasted two years until the radically different MGA appeared in 1955. This is a book of contemporary road tests, new model introductions, trials, racing record breaking, service data, technical & performance data. Models covered include:- TD, MkII, TD Record Breaker, Lester-MG, Cooper-MG, TF1250, TF1500, EX179.
