What is understanding and how does it differ from knowledge? How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas,

thoughtful analysis, and tested approaches, this new edition of *Understanding by Design* offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

Teacher effectiveness and licensure in the United States continue to be scrutinized at the state and national levels. At present, 40 states plus the District of Columbia have adopted edTPA to inform initial teacher licensure and/or certification decisions (American Association of Colleges for Teacher Education, n.d.). edTPA is designed to measure novice teachers' readiness to teach their

content area, with a focus on student learning and principles from research and theory (SCALE, 2015). Composed of planning, instruction, and assessment tasks, edTPA portfolios seek to provide evidence of teacher candidate readiness in three areas: (1) intended teaching, (2) enacted teaching, and (3) the impact of teaching on student learning. Specifically, edTPA measures teacher candidates' ability to:

- develop knowledge of subject matter, content standards, and subject-specific pedagogy
- develop and apply knowledge of varied students' needs
- consider research and theory about how students learn
- reflect on and analyze evidence of the effects of instruction on student learning

(p. 1) Teacher candidates create extensive portfolios that include written commentaries explaining each task and video excerpts of a recorded teaching event. Teacher candidates must submit evidence to show their teaching prowess and pay \$300, at present, to Pearson Education for their portfolio to be evaluated by external reviewers. In this volume, researchers share their experiences working with edTPA in three areas of language learning: English Language Arts, English to Speakers of Other Languages, and World Languages. The volume provides empirical research in the areas of multicultural perspectives, pedagogical practices, and edTPA (in)compatibility. Findings are of interest to multiple stakeholders such as teacher candidates, mentor teachers, teacher preparation faculty members and program coordinators, and administrators.

Effective and practical coaching strategies for new educators plus valuable online coaching tools Many teachers are only observed one or two times per year on average—and, even among those who are observed, scarcely any are given feedback as to how they could improve. The bottom line is clear: teachers do not need to be evaluated so much as they need to be developed and coached. In *Get Better Faster: A 90-Day Plan for Coaching New Teachers*, Paul Bambrick-Santoyo shares instructive tools of how school leaders can effectively guide new teachers to success. Over the course of the book, he breaks down the most critical actions leaders and teachers must take to achieve exemplary results. Designed for coaches as well as beginning teachers, *Get Better Faster* is an integral coaching tool for any school leader eager to help their teachers succeed. *Get Better Faster* focuses on what's practical and actionable which makes the book's approach to coaching so effective. By practicing the concrete actions and micro-skills listed in *Get Better Faster*, teachers will markedly improve their ability to lead a class, producing a steady chain reaction of future teaching success. Though focused heavily

on the first 90 days of teacher development, it's possible to implement this work at any time. Junior and experienced teachers alike can benefit from the guidance of *Get Better Faster* while at the same time closing existing instructional gaps. Featuring valuable and practical online training tools available at <http://www.wiley.com/go/getbetterfaster>, *Get Better Faster* provides agendas, presentation slides, a coach's guide, handouts, planning templates, and 35 video clips of real teachers at work to help other educators apply the lessons learned in their own classrooms. *Get Better Faster* will teach you: The core principles of coaching: Go Granular; Plan, Practice, Follow Up, Repeat; Make Feedback More Frequent Top action steps to launch a teacher's development in an easy-to-read scope and sequence guide It also walks you through the four phases of skill building: Phase 1 (Pre-Teaching): Dress Rehearsal Phase 2: Instant Immersion Phase 3: Getting into Gear Phase 4: The Power of Discourse Perfect for new educators and those who supervise them, *Get Better Faster* will also earn a place in the libraries of veteran teachers and school administrators seeking a one-stop coaching resource.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That*

Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms. The Things They Carried Wadsworth Publishing Company The Creative Curriculum comes alive! This videotape-winner of the 1989 Silver Apple Award at the National Educational Film and Video Festival-demonstrates how teachers set the stage for learning by creating a dynamic well-organized environment. It shows children involved in seven of the interest areas in the The Creative Curriculum and explains how they learn in each area. Everyone conducts in-service training workshops for staff and parents or who teaches early childhood education courses will find the video an indispensable tool for explaining appropriate practice.

*Researching edTPA Promises and Problems* Teaching Resources Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing

curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

"A set of colorful, durable, easy-to-use cards with practical suggestions and activity ideas. The cards present 52 small- and large-group activities from the book of the same title in the Teacher's Idea Book Series. The activities are organized in five curriculum content areas: language, literacy and communication; mathematics; science and technology; creative arts (art and music); and physical development and health. Each activity includes step-by-step instructions and a chart to help teachers recognize and support preschoolers' learning of specific concepts and skills at early, middle, and later developmental levels."-- Publisher's website.

Effective inclusion in the classroom shouldn't be a burden; it should be the most rewarding aspect of a teacher's role. 'An excellent guide to changing approaches to inclusion and creating a culture where all children can flourish.' SEN Magazine In this innovative guide to supporting the most vulnerable students, experts Daniel Sobel and Sara Alston help primary and secondary teachers understand the barriers to children's learning. Emphasising the importance of meeting needs rather than focusing on diagnosis, they provide proven differentiation

methods that maximise learning for the whole class, while reducing stress and saving time for the teacher. Guiding teachers through all the different phases of a single lesson, from starters to plenaries, the unique format of *The Inclusive Classroom* will help bring inclusion to the forefront of any lesson plan. Each chapter contains simple, effective actions to differentiate and improve learning outcomes for students vulnerable to underachievement, including those traditionally labelled SEN, EAL, pupil premium, looked after and young carers. Also provided are back-up ideas for when things don't go to plan, real-life anecdotes from teachers, and instructions on how to rethink traditional diagnoses and instead prioritise strengths and participation needs.
