The Lost Saraswati Civilization HarperCollins

In the early 1920s, Jaydayal Goyandka and Hanuman Prasad Poddar, two Marwari businessmen-turned-spiritualists, set up the Gita Press and Kalyan magazine. As of early 2014, Gita Press had sold close to 72 million copies of the Gita, 70 million copies of Tulsidas's works and 19 million copies of scriptures like the Puranas and Upanishads. And while most other journals of the period, whether religious, literary or political, survive only in press archives, Kalyan now has a circulation of over 200,000, and its English counterpart, Kalyana-Kalpataru, of over 100,000. Gita

Press created an empire that spoke in a militant Hindu nationalist voice and imagined a quantifiable, reward-based piety. Almost every notable leader and prominent voice, including Mahatma Gandhi, was roped in to speak for the cause. Cow slaughter, Hindi as national language and the rejection of Hindustani, the Hindu Code Bill, the creation of Pakistan, India's secular Constitution: Kalyan and Kalyana-Kalpataru were the spokespersons of the Hindu position on these and other matters. Featuring an extraordinary cast of characters - buccaneering entrepreneurs and hustling editors, nationalist ideologues and religious fanatics - this is essential (and exciting) reading for our times.

This book offers a translation of the seven thousand verses of the second book of the medieval Hindu text, the Ganesa Purana, one of two Puranas dedicated to the important elephant-headed god. In this book the reader is given many narratives about Ganesa's ascent to earth in order to kill demonic figures who threaten to overthrow the correct world order. In addition, these narratives

contain myths about Ganesa's birth and family as well as some extended and quite humorous myths about ideal devotees of the god. The translation is preceded by a long introduction offering a geographical and historical context for the Ganesa Purana. Following the translation are very extensive notes which bring our points of philological interest, but focus mainly on the literary structure of the text and the methods used to present the many myths and narratives in a coherent and fully integrated manner.

Empire. Trade. Religion. Three crucial forces that have been almost equally responsible for shaping human civilization so far. Yet, the politics of empire has dominated history and popular discussion. Irrespective of the political upheavals, however, India has always been an open market-welcoming traders from far-off lands, promising them a fair bargain. Indian entrepreneurs since ages had developed their own sophisticated institutions and wide community-based networks. This open, liberal and robust 'bazaar economy' thrived unhindered till the advent of European trading companies, who brought with them the notions of monopoly and state controls. Business in India blossomed in tune with liberal religious thought and Indian intellectual tradition always fostered

the spirit of questioning. Laxminana is an account of how the country's open market and its liberal religious outlook have nurtured each other throughout the centuries. Told through a medley of stories, this is the saga of India's socioeconomic power that has characterized not only the country's vibrant pluralistic society but also much of global history. An untold narrative of India's geographies, products and pioneers this is an unforgettable album of heroes, who championed game-changing ideas at the intersection of faith and enterprise.

Lord Ganesha is the Favourite Deity of not only the Hindus but also of most people following other religious faiths. He is not only popular in India but also across the globe. The innumerable temples built for this Deity in every village, every town, every city, every state and every country all over the world is a testimony to the growing faith on this Lord amongst people. It's the traditional faith among the Hindu Community that Lord Ganesha also known as Vinayaka, Ganapati, Vighneshwara etc annihilates any and every obstacle and impediment that may block the path to success in One's endeavour. Hence it's common that Vinayaka is propitiated at the beginning of any Initiative, any auspicious Function or ceremony. Unlike other Deities of Hindu Faith, many aspects of Lord Ganapati including His physical appearance kindles intrigue in everyone. He has an abnormally huge human body but from head to neck he resembles an elephant. There are eighteen Mahapuranas and many Upa Puranas and Ganesha Purana is one among them.

The Lost Saraswati Civilization is an edited work of Deo Prakash Sharma and madhuri Sharma. Till today around 2668 Harappan and its associated sites have been reported in north-West south Asia in which 1100 sites are located on dry banks of river Saraswati and its tributaries. During 3rd millennium B.C. Hindon

was a tributary of river Saraswati and around 250 Harappan sites have been reported on the banks of river Hindon, mandi, Hulas, Alamgirpur, Sanuoli Toppal are important Harappan sites located on the bank of river Hindon which is now a tributary of Yamuna. We have excavated 208 Harappan sites. Ganweriwala is the largest (350 hectares) Harappan site located on dry bank of Saraswati (or Hakra) in Cholistan (Pakistan). Few excavated Harappan sites in Saraswati region are Desalpur, Dholavira, Kalibangan, Bhirrana, Barror, Dhalewan, Banawali, Kunal and Rakhigarhi. Saraswati or Hakra or Ghaggar was a holy river. From 6000 B.C. to 1800 B.C. Saraswati flowed from south of Siwalik through Himachal, Haryana, Punjab, Northern Rajasthan and finally was joining Desalpur in Arabian sea. Due to tectonic disturbance in the Siwalik, Saraswati river course moved steadily in the clockwise direction eventually flowing east-south east rather than south. The stream captured by the emerging Yamuna river compromised its water shed and river Saraswati began to dry up around 1800 B.C. Archeologists observed after analyzing literature and remote sensing images that river Saraswati flowed through Rajasthan desert. This lost river Saraswati was 1500 km. Long and between 3 to 12 km. Wide. This volume includes 27 papers.

Sanatan Hindu Dharma is like a huge tree. Different kinds of assumptions have, merged into it from time immemorial. As human population grew and time changed, beliefs and faiths changed as a result of continuous thinking of scholars and growing maturity in their ideas. As a consequence, the branches and sub-branches of Hindu religion also grew. Is there any

scientific basis of beliefs and faiths propagated in Hinduism? This question agitates the minds of intellectual readers again and again. Now, that time has come to an end, when you cited from the religious scriptures and said, “Baba vakya pramanam” (here is the statement from the author as evidence). Comprehensive thinking about religious beliefs has become the most essential call of the age today. First of all, the average reader has to understand what is science. The word ‘vigyan (science) is formed by prefixing ‘vi to ‘gyan’ (knowledge). ‘Vishishta gyanam iti vigyanam, ‘Vishesh gyanam iti vigyanam’, ‘Vishuddha gyanam iti vigyanam (Specific knowledge is science, Special knowledge is science, Pure knowledge is science), these definitions are clear in themselves. Science, in fact, is based upon cause and effect relationship. ‘Karya karan sarnbandh iti vigyanam’, ‘punah punah parikshanam prayoganch kritam’ (Science is cause and effect relationship. Experiment is made again and again). Where we

come to know the cause and effect relationship, then that knowledge automatically passes into the category of science. True knowledge of an object, based on facts, is a part of science itself. ‘Punah punah nirikshit gyanam iti vigyanam,’ When the results are the same on repeated observations, then those facts become science. Ancient Rishis-Munis (seers and saints) formed some rules and principles under the cover of religion to civilize humanity. They offered the charms of heaven and fears of hell, so that, men adopted them in their conduct. Today, in the age of computer, no one accepts heaven or hell, piety or sin, religion or irreligion. It is a transition period. Innumerable questions are cropping up in the minds of the intellectuals. To clarify the scientific basis of Hindu beliefs has become a need of the day.
