A handbook for travellers in southern Germany [by J. Murray. 1st, 2nd] 3rd, 5th, 7th-9th, 11th, 12th, 14th, 15th ed. [2 issues of the 7th ed. The 15th ed. is in 2pt.]. HarperCollins Publishers

The birth of rock 'n roll ignited a firestorm of controversy--one critic called it "musical riots put to a switchblade beat"--but if it generated much sound and fury, what, if anything, did it signify? As Glenn Altschuler reveals in *All Shook Up*, the rise of rock 'n roll--and the outraged reception to it--in fact can tell us a lot about the values of the United States in the 1950s, a decade that saw a great struggle for the control of popular culture. Altschuler shows, in particular, how rock's "switchblade beat" opened up wide fissures in American society along the fault-lines of family, sexuality, and race. For instance, the birth of rock coincided with the Civil Rights movement and brought "race music" into many white homes for the first time. Elvis freely credited blacks with originating the music he sang and some of the great early rockers were African American, most notably, Little Richard and Chuck Berry. In addition, rock celebrated romance and sex, rattled the reticent by pushing sexuality into the public arena, and mocked deferred gratification and the obsession with work of men in gray flannel suits. And it delighted in the separate world of the teenager and deepened the divide between the generations, helping teenagers differentiate themselves from others. Altschuler includes vivid biographical sketches of the great rock 'n rollers, including Elvis Presley, Fats Domino, Chuck Berry, Little Richard, Jerry Lee Lewis, and Buddy Holly--plus their white-bread doppelgangers such as Pat Boone. Rock 'n roll seemed to be everywhere during the decade, exhilarating, influential, and an outrage to those Americans intent on wishing away all forms of dissent and conflict. As vibrant as the music itself, *All Shook Up* reveals how rock 'n roll challenged and changed American culture and laid the foundation for the social upheaval of the sixties.

This book offers an illustrated encyclopedia that can be used as a reference work for the Civil War as well as for recreational reading.

The United Nations in Global Tax Coordination BRILL

Sergeant Rock evolves from a native, baseball-playing, church-going Christian and skinny college kid to a well-trained killing machine in Vietnam. Leaving California to take part in the Tet Offensive in 1968, he finds the culture shock between the two overwhelming. Thrust into war and killing, he finds his approach to life and death must change quickly, but he holds fast to his beliefs. Though he saves others, his attitude toward killing and death changes for the worse, while his approach toward life improves. Sergeant Rock is a much better person for the choices he makes. In the course of a single Tet Offensive battle, his company loses all but 13 men, as 126 soldiers die in two hours. His faith increases when he meets his guardian angel during the battle. Sergeant Rock pushes his squad to their limits because he knows that death may lie just beyond the next bush. He may be only 20, but he thinks like an old veteran. With the body count in his mind, he wonders if he can ever be around normal people again. He experiences many horrors and watches friend after friend die as heroes. The hardships his squad must face, such as going without fresh water or clothes for 57 days, being shot down in a chopper, and just trying to stay alive are overwhelming. How much can our minds take before they crack? Sergeant Rock believes divine intervention is the only reason he is alive to tell his story.

The United Nations in Global Tax Coordination fills the decade-long knowledge gap in international tax history concerning the UN Fiscal Commission, which functioned as the overarching fiscal authority during the early post-World War II economic order. With insights from political economy and international relations scholarship, this critical archival examination chronicles the tenacious activism by post-colonial developing countries to preserve source taxation rights, and by the UN Secretariat in championing the development of equitable tax rules. Such activism would ultimately lead developed countries to oust the UN as a forum for international tax norm setting. The book includes a revealing prehistory of the wartime work of the League of Nations that questions the

legitimacy of the Mexico Model, the first model tax convention between developed and developing countries. This expertly researched work is essential reading for understanding the roles of politics, states, secretariats and private actors in directing global tax coordination.

Historical Times Illustrated Encyclopedia of the Civil War Oxford University Press

Recognized as the primary American symphonist of the 20th century, Roger Sessions (1896-1985) is one of the leading representatives of high modernism. His stature among American composers rivals Charles Ives, Aaron Copland, and Elliott Carter. Sessions was awarded two Pulitzer prizes, election to the American Academy of Arts and Letters, winning the Brandeis Creative Arts Award, the Gold Medal of the American Academy, and a MacDowell Medal, in addition to 14 honorary doctorates.

Roger Sessions: A Biography brings together considerable previously unpublished archival material, such as letters, lectures, interviews, and articles, to shed light on the life and music of this major American composer. Andrea Olmstead, a teaching colleague of Sessions at Juilliard and the leading scholar on his music, has written a complete biography charting five touchstone areas through Sessions's eighty-eight years: music, religion, politics, money, and sexuality.
