Peruvian novelist, poet, and anthropologist José María Arguedas (1911–1969) was a highly conflicted figure. As a mestizo, both European and Quechua blood ran through his veins and into his cosmology and writing. Arguedas's Marxist influences and ethnographic work placed him in direct contact with the subalterns he would champion in his stories. His exposés of the conflicts between Indians and creoles, and workers and elites were severely criticized by his contemporaries, who sought homogeneity in the nation-building project of Peru. In Rethinking Community from Peru, Irina Alexandra Feldman examines the deep political connotations and current relevance of Arguedas's fiction to the Andean region. Looking principally to his most ambitious and controversial work, All the Bloods, Feldman analyzes Arguedas's conceptions of community, political subjectivity, sovereignty, juridical norm, popular actions, and revolutionary change. She deconstructs his particular use of language, a mix of Quechua and Spanish, as a vehicle to express the political dualities in the Andes. As Feldman shows, Arguedas's characters	

become ideological speakers and the narrator's voice is often absent, allowing for multiple viewpoints and a powerful realism. Feldman examines Arguedas's other novels to augment her theorizations, and grounds her analysis in a dialogue with political philosophers Walter Benjamin, Jean-Luc Nancy, Carl Schmitt, Jacques Derrida, Ernesto Laclau, and Álvaro García-Linera, among others. In the current political climate, Feldman views the promise of Arguedas's vision in light of Evo Morales's election and the Bolivian plurality project recognizing indigenous autonomy. She juxtaposes the Bolivian situation with that of Peru, where comparatively limited progress has been made towards constitutional recognition of the indigenous groups. As Feldman demonstrates, the prophetic relevance of Arguedas's constructs lie in their recognition of the sovereignty of all ethnic groups and their coexistence in the modern democratic nation-state, in a system of heterogeneity through autonomy—not homogeneity through suppression. Tragically for Arguedas, it was a philosophy he could not reconcile with the politics of his day, or from his position within Peruvian society.

The rulers of the overseas empires summoned the Society of Jesus to evangelize their new subjects in the 'New World' which Spain and Portugal shared; this book is about how two different missions, in China and Peru, evolved in the early modern world. From a European perspective, this book is about the way Christianity expanded in the early modern period, craving universalism. In China, Matteo Ricci was so impressed by the influence that the scholar-officials were able to exert on the Ming Emperor himself that he likened them to the philosopher-kings of Plato's Republic. The Jesuits in China were in the hands of the scholar-officials, with the Emperor at the apex, who had the power to decide whether they could stay or not. Meanwhile, in Peru, the Society of Jesus was required to impose Tridentine Catholicism by Philip II, independently of Rome, a task that entailed compliance with the colonial authorities' demands. This book explores how leading Jesuits, Matteo Ricci (1552-1610) in China and José de Acosta (1540-1600) in Peru, envisioned mission projects and reflected them on the catechisms they both composed, with a remarkable power of endurance. It offers a reflection on how the Jesuits conceived and assessed these mission spaces, in which their keen political acumen and a certain taste for power unfolded, playing key roles in envisioning new doctrinal directions and reflecting them in their doctrinal texts.

Jose Carlos Mariátegui was one of the leading South American social philosophers of the early twentieth century. He identified the future of Peru with the welfare of the Indian at a time when similar ideas were beginning to develop in Middle America and the Andean region. Generations of Peruvian and other Latin American social thinkers have been profoundly influenced by his writings. Seven Interpretive Essays on Peruvian Reality (Siete ensayos de interpretación de la realidad peruana), first published in 1928, is Mariátegui's major statement of his position and has gone into many editions, not only in Peru but also in other Latin American countries. The topics discussed in

the essays—economic evolution, the problem of the Indian, the land problem, public education, the religious factor, regionalism and centralism, and the literary process—are in many respects as relevant today as when the book was written. Mariátegui's thinking was strongly tinged with Marxism. Because contemporary sociology, anthropology, and economics have been influenced by Marxism much more in Latin America than in North America, it is important that North Americans become more aware of Mariátegui's position and accord it its proper historical significance. Jorge Basadre, the distinguished Peruvian historian, in an introduction written especially for this translation, provides an account of Mariátegui's life and describes the political and intellectual climate in which these essays were written.

Born in 1921, Manuel Llamojha Mitma became one of Peru's most creative and inspiring indigenous political activists. Now Peru Is Mine combines extensive oral history interviews with archival research to chronicle his struggles for indigenous land rights and political inclusion as well as his fight against anti-Indian racism. His compelling story—framed by Jaymie Patricia Heilman's historical contextualization—covers nearly eight decades, from the poverty of his youth and teaching himself to read, to becoming an internationally known activist. Llamojha also recounts his life's tragedies, such as being forced to flee his home and the disappearance of his son during the war between the Shining Path and the government. His life gives insight into many key developments in Peru's tumultuous twentieth-century history, among them urbanization, poverty, racism, agrarian reform, political organizing, the demise of the hacienda system, and the Shining Path. The centrality of his embrace of his campesino identity forces a rethinking of how indigenous identity works inside Peru, while the implications of his activism broaden our understanding of political mobilization in Cold War Latin America.
