CHAVEZ ALYSON

Enough Said NorthSouth (NY)

A historical account of the berdache--biological men who performed the offices and work of women, including sexual service--in Europe and America at the time of the Conquest. Trexler examines the sexual culture of both early modern Iberia and the native American world of that era. Annotation copyright by Book News, Inc., Portland, OR

Historia General del Piru Walter de Gruyter GmbH & Co KG

This publication presents works by more than seventy artists, including Michelangelo, Raphael, Correggio, Titian, Tintoretto, the Carracci, Poussin and Tiepolo. Their inclusion reflects the taste of the Spanish Royal Court, whose kings, queens, princes and courtiers avidly collected Italian art. Many of these works are at the heart of the Prado's collection. Featuring essays by internationally respected curators and writers, Italian Masterpieces from Spain's Royal Court is a panoramic volume that traces the astounding stylistic development of Italian art across three centuries. Traces fascinating story of Italian art across three centuries. Features essays by international respected curators. Quality reproductions of works that are at the heart of Prado's collection. Published to coincide with the exhibition Italian Masterpieces from Spain's Royal Court, Museo del Prado to be held at NGV International, 16 May - 31 August 2014

The Song of Achilles Routledge

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Management National Geographic Books

The #1 New York Times bestselling WORLDWIDE phenomenon Winner of the Goodreads Choice Award for Fiction | A Good Morning America Book Club Pick | Independent (London) Ten Best Books of the Year "A feel-good book guaranteed to lift your spirits."—The Washington Post The dazzling reader-favorite about the choices that go into a life well lived, from the acclaimed

author of *How To Stop Time* and *The Comfort Book*. Somewhere out beyond the edge of the universe there is a library that contains an infinite number of books, each one the story of another reality. One tells the story of your life as it is, along with another book for the other life you could have lived if you had made a different choice at any point in your life. While we all wonder how our lives might have been, what if you had the chance to go to the library and see for yourself? Would any of these other lives truly be better? In *The Midnight Library*, Matt Haig's enchanting blockbuster novel, Nora Seed finds herself faced with this decision. Faced with the possibility of changing her life for a new one, following a different career, undoing old breakups, realizing her dreams of becoming a glaciologist; she must search within herself as she travels through the Midnight Library to decide what is truly fulfilling in life, and what makes it worth living in the first place.

Forest Nursery Manual: Production of Bareroot Seedlings Duke University Press

A truly popular art form, the glamorous paintings of Mexican calendar girls have a long and fascinating history as advertisements, enticements, and emblems of Mexican cultural heritage and pride. The result of years of research, this playful and informative book reproduces more than 150 vibrantly colorful calendar images, plus archival photographs and other materials that illuminate their creation. A fully bilingual text gives an overview of the calendars' social and cultural history, along with biographies of the talented artists who created them. Also including a foreword by the renowned Mexican cultural critic Carlos Monsivis, *Mexican Calendar Girls* presents this popular and delightful art as never before.

Dino Yoga Fox Chapel Publishing

DIVThe first cultural history of post-1940s Mexico to relate issues of representation and meaning to questions of power; it includes essays on popular music, unions, TV, tourism, cinema, wrestling, and illustrated magazines./div

Martin Rivas FT Press

For three extraordinary seasons at Bayern Munich, Martin Perarnau was given total access around the German super club – to its players, its backroom staff, its board members and, above all, to its manager, Pep Guardiola. In the follow-up to his critically acclaimed account of Guardiola's first full season at Bayern, *Pep Confidential*, Perarnau now lifts the lid on the Catalan's whole tenure in Bavaria. *Pep Guardiola: The Evolution* takes the reader on a journey through three action packed seasons as Bayern smashed domestic records yet struggled to emulate that dominance in Europe, analysing Guardiola's management style through key moments on and off the field. Perarnau reveals how Guardiola improved as a manager at Bayern despite failing to land the ultimate prize in European football, examines his decision to leave Germany to take up the challenge at

Manchester City and how his managerial style will continue to evolve in the Premier League. This is more than the story of three seasons with one of the biggest clubs in the game. It is a portrait and analysis of a manager and the footballing philosophies that have beguiled the world.

Little Bobo Macmillan

Danny is a Superhero-in-Training learning about his most important superpower of all, "The Power to Choose." Written in a "Choose Your Own Story" style, your child will have a blast trying to reach all nine endings. And in the process, they will learn some of life's most important lessons.

A great way to introduce children to this mindful practice, this must-have yoga for kids book is perfect to take them away from their screens and experience all the benefits yoga has to offer!

Modern Cosmology Cornell University Press

This book addresses a central problem often ignored by students of twentieth-century Mexico: the breakdown of the old order during the first years of the revolutionary era. That process was more contested and gradual in Yucatan than in any other Mexican region, and this close examination of the Yucatan experience sheds light on an issue of particular relevance to students of Central America, South America's southern cone, and other postcolonial societies: the capacity of national oligarchies to "hang on" in the face of escalating social change, the outbreak of local rebellions, and the mobilization of multiclass coalitions. Latin American historiography has generally failed to integrate the study of popular movements and rebellions with examinations of the determined efforts of elite establishments to prevent, contain, crush, and, ultimately, ideologically appropriate such rebellions. Most often, these problems are treated separately. This volume seeks to redress this imbalance by probing a set of linkages that is central to the study of Mexico's modern past: the complex, reciprocal relationship between modes of contestation and structures and discourses of power.

Mexican Calendar Girls St. Martin's Press

After more than a century of research, an enormous body of scientific literature in the field of El Argar studies has been generated, comprising some 700 bibliographic items. No fully-updated synthesis of the literature is available at the moment; recent works deal only with specific characteristics of Argaric societies or some of the regions where their influence spread. The Archaeology of Bronze Age Iberia offers a much-needed, comprehensive overview of Argaric Bronze Age societies, based on state-of-the-art research. In addition to expounding on recent insights in such areas as Argaric origin and expansion, social practices, and socio-politics, the book offers reflections on current issues in the field, from questions concerning the genealogy of discourses on the subject, to matters related to professional practices. The book discusses the values and interests guiding the evolution of El Argar studies, while critically reexamining its history. Scholars and researchers in the fields of Prehistory and Archaeology will find this volume highly useful.

What Should Danny Do? Academic Press

A Caribbean resort specializing in faked cartel kidnappings is the site for Villoro's profound and satirical murder mystery. Amidst stagings of guerilla warfare, rumors of killer bees and encroaching cartel activity, recovering ex-rocker, Tony Góngora, attempts to solve the mystery of an American scuba-diver's murder. As he tries to piece together the events of the crime, Tony uncovers his own bizarre and illuminating memories: of a fatherless childhood spent in the high-risk company of his eccentric friend and the hotel's manager; playing gigs with The Velvet Underground; joining a Japanese pop group. Against the backdrop of a deteriorating climate, a fast-eroding beachfront, official corruption, cartel violence, and delusional Western escapism, Tony and an international cast of hotel staffers make and break alliances as the personal begins to echo the political, and artifice and reality start to blur. With his signature wit, originality, and dashes of dazzling social theory, Villoro has created a biting satire of tourism and a brilliant analogy for Mexico's unique position in global politics.

The End of Madness Simon and Schuster

A crucial component of the New Education reform movement, nature study was introduced to elementary schools throughout the English-speaking world in the late nineteenth and early twentieth centuries. Despite the undoubted enthusiasm with which educators regarded nature study, and the ambitious aims envisioned for teaching it, little scholarly attention has been paid to the subject and the legacy that nature study bequeathed to later curricular developments. Educational Reform and Environmental Concern explores the theories that supported nature study, as well as its definitions, aims, how it was introduced to curricula and its practice in the classroom, by focusing upon educational reform in the Australian state of New South Wales. This book explores nature study within the context of broader educational reform movements in a period characterised by a transnational exchange of ideas. It is the only book on nature study available to date that focuses on the history of the movement outside the USA, providing a much-needed alternative perspective. Kass considers nature study as it adapted and changed throughout the twentieth century, addressing the extent to which the nature study idea represented, responded to and even influenced concern about the natural environment. Educational Reform and Environmental Concern will appeal to researchers, academics and postgraduate students engaged in the study of educational and environmental history. Researchers with an interest in a transnational or imperial approach to the history of education will also benefit from the wealth of comparative material that Kass presents.

Post harvest biology and technology of citrus fruits is gaining importance as the therapeutic value of citrus fruits is realized and supported by the increase in health awareness among the general public. This book is the most comprehensive reference on citrus fruit biology, biotechnology and quality. Basic and applied scientific information is interwoven to serve the researcher, marketer, scientist, nutritionist, or dietician. With discussions of fruit morphology, anatomy, physiology and biochemistry and chapters on growth phases, maturity standards, grades and physical and mechanical characteristics of citrus trees, this book provides the foundation for understanding growth, harvest and post harvest aspects of these important plants. Insect-pests and diseases, irrigation, nutrition and rootstocks are also addressed. * Provides practical tips for post harvest management. * Includes all aspects of citrus fruit biology, technology and quality evaluation. * Discusses biotechnological applications and potential fresh citrus fruit quality improvement * Evaluates medicinal and therapeutic applications and recent clinical

findings * Exhaustive glossary included

Summer of Discontent, Seasons of Upheaval Springer Science & Business Media

The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.
