Needlework serves functional purposes, such as providing warmth, but has also communicated individual and social identity, spiritual beliefs, and aesthetic ideals throughout time and geography.

Needlework traditions are often associated with rituals and celebrations of life events. Often-overlooked by historians, practicing needlework and creating needlework objects provides insights to the history of everyday life. Needlework techniques traveled with merchants and explorers, creating a legacy of cross-cultural exchange. Some techniques are virtually universal and others are limited to a small geographical area. Settlers brought traditions which were sometimes re-invented as indigenous arts. This volume of approximately 75 entries is a comprehensive resource on techniques and cultural traditions for students, information professionals, and collectors.

In the highlands of Chiapas, Mexico, a large indigenous population lives in rural communities, many of which retain traditional forms of governance. In 1996, some 350 women of these communities formed a weavers' cooperative, which they called Jolom Mayaetik. Their goal was to join together to market textiles of high quality in both new and ancient designs. Weaving Chiapas offers a rare view of the daily lives, memories, and hopes of these rural Maya women as

they strive to retain their ancient customs while adapting to a rapidly changing world. Originally published in Spanish in 2007, this book captures firsthand the voices of these Maya artisans, whose experiences, including the challenges of living in a highly patriarchal culture, often escape the attention of mainstream scholarship. Based on interviews conducted with members of the Jolom Mayaetik cooperative, the accounts gathered in this volume provide an intimate view of women's life in the Chiapas highlands, known locally as Los Altos. We learn about their experiences of childhood, marriage, and childbirth; about subsistence farming and food traditions; and about the particular styles of clothing and even hairstyles that vary

from community to community. Restricted by custom from engaging in public occupations, Los Altos women are responsible for managing their households and caring for domestic animals. But many of them long for broader opportunities, and the Jolom Mayaetik cooperative represents a bold effort by its members to assume control over and build a wider market for their own work. This English-language edition features color photographs—published here for the first time—depicting many of the individual women and their stunning textiles. A new preface, chapter introductions, and a scholarly afterword frame the women’s narratives and place their accounts within cultural and historical context.

The rich textile traditions of Central and South America date back to pre-Hispanic Conquest times. This fascinating book looks at both the differences and the similarities between the weaving and textile techniques and traditions of the various Latin American countries, and explores the symbolic meanings of the designs woven into or imprinted onto the cloth. Topics covered include: · Design and production, including the different types of loom and weaving techniques and the various spinning and dyeing methods. · Fibres and threads, yarns and fabric sources. · Manipulated thread crafts, including knitting and crochet, plaiting, knotting and netting, and the Spanish Sol needle-laces. · Embroidery, both hand and machine, as well as the

chain-stitch embroidery worked in Peru, the politically inspired embroidery of Arpilleras, and the appliqué pictures of Chile, Peru and Guatemala. · Beadwork, both embroidered and strung. · Finishing, decorative edging and fringing. AUTHOR: For the last twenty years Angela Thompson has travelled the world in search of textiles to add to her collection. Angela has lectured on and tutored a variety of textile subjects in the UK, USA and Australia. She has written numerous articles for embroidery and textile magazines and published a series of textile related books including *The Embroiderers' and Quilters' Source Book* [2005]. She is a member of the Textile Society, The Spinners & Weavers Guild, The Embroiderers' Guild and The Lace Guild. 200 colour photos
