Plumer's Principles and  
Practice of Infusion  
Therapy Lippincott  
Williams & Wilkins  
An official publication  
of the Infusion Nurses

Society, Core  
Curriculum for Infusion  
Nursing, 5th Edition,  
provides  
comprehensive  
preparation for the  
Certified Registered  
Nurse Infusion (CRNI®)  
exam from the global  
authority on infusion  
nursing and helps you  
deliver optimal care in

any practice setting. The convenient outline format streamlines review and ensures fast access to essential information across the core content areas of Technology and Clinical Application; Fluid and Electrolyte Balance; Pharmacology, Infection Prevention and Control; and Transfusion Therapy, Antineoplastic Biologic Therapy, and Parenteral Nutrition.

Plumer's Principles and Practice of Intravenous Therapy Sigma Theta Tau

The manual of choice...perfect for class, clinical, and practice! The perfect resource for any setting where infusion therapy skills are required! Its popular, self-paced approach makes it ideal for

classroom and clinical settings as it progresses from the basics to advanced techniques while incorporating theory into clinical application. A focus on evidence-based practice in a streamlined format continues to make this the manual of choice in a rapidly advancing field. "Thorough, comprehensive manual on IV therapeutics. Gorski, the author, is considered the final word in all matters of IV therapeutics. A great go-to guide for any nurse involved with infusions."—Andrea, Online Reviewer New & Updated Incorporates the 2021 Infusion Therapy Standards of Practice published by the Infusion Nurses Society (INS), new and revised guidelines from

the Centers for Disease Control (CDC) and World Health Organization (WHO) as well as the latest guidelines from the Association for the Advancement of Blood & Biotherapies (AABB) and the American Society of Parenteral and Enteral Nutrition (ASPEN) New Chapter! An Introduction to Biologic Infusion Therapies Updated! Follows the INS Core Curriculum for certification. Updated! Uses current literature to support evidence-based practice. Updated! Presents procedures and rationales as well as technology that reflect practice today. Presents “Thinking Critically” boxes, a case study feature. Integrates pediatric and geriatric content

throughout. Offers a wealth of additional resources for students online at FADavis.com Features well organized pedagogical tools, including...Learning Objectives, Nursing Fast Facts, Age-related and Cultural Considerations, Nursing Plans of Care, Home Care Issues, Patient Education, Key Points, and Review Questions. Makes must-know information easy to find with icons for key points of theory, nursing fast facts, INS standards of practice, relevant studies in evidence-based practice, nursing points of care, home care issues, patient education, and a media link to the online tools and resources. Presents detailed step-by-step procedures for

subcutaneous infusion of pain medication • peripherally inserted catheters (PICCs) • epidural pain medication administration • and patient controlled analgesic therapy. Includes competency skill checklists for evaluating procedures. Examines delivery of IV therapy in the home setting. Highlights critical content in "Nursing Fast Fact" boxes, Spotlights assessment and intervention guidelines in "Nursing Points-of-Care" boxes. Provides competency criteria for hospital policy and procedure development required by The Joint Commission.

**Lippincott Manual of Nursing Practice**

Elsevier Health Sciences

Confidently meet the demands of transitioning students into practice-ready nurses with *Medical-Surgical Nursing: Focus on Clinical Judgment, 3rd Edition*. Expertly curated by experienced clinician and nursing educator Dr. Linda Honan, this practical approach distills complex concepts down to need-to-know details through the perspective of practicing nurses, establishing a comprehensive foundation in medical-surgical nursing by way of the most commonly encountered conditions and situations. Extensive updates throughout this 3rd Edition broaden your students' perspectives, cultivate their clinical judgment, and prepare

them for success from the Next Generation NCLEX® to the day-to-day challenges of today's medical-surgical nursing practice.

**Roberts and Hedges' Clinical Procedures in Emergency Medicine E-Book**

Lippincott Williams & Wilkins

Lippincott's Nursing Procedures, 6e, is start-to-finish guide to more than 400 nursing procedures--from basic to advanced. This reference outlines every procedure, lists equipment, details each step, and includes rationales and cautions to ensure patient safety and positive outcomes. Concise, clear content targets key information needed to perform procedures safely and accurately at the

bedside. Tips, alerts, checklists, illustrations, and tables provide clarity and quick access to key procedural information. Organized

alphabetically for easy accessibility, the book includes basic and advanced procedures on key topics, such as: infection control, specimen collection, physical treatments, drug administration, IV therapy, hemodynamic monitoring, as well as procedures related to body systems such as chest tubes, peripheral nerve stimulation, and intra-abdominal pressure monitoring.

*Basic Pharmacology for Nurses*16 Jones &

Bartlett Learning

Wong's Essentials of Pediatric Nursing: Third South Asian Edition - E-Book

Vascular Nursing - E-

Book Elsevier Health Sciences

"The use of venous access devices (VADs) is central to the care that nurses provide to patients with cancer. Oncology nurses must base their practice on evidence-based research when available, but a lack of evidence has been a professional challenge for decades. With limited research to guide practice, ongoing controversies remain regarding optimal device management. Since 1989, the Oncology Nursing Society (ONS) has provided guidelines to establish a foundation for access device management. With this new text, ONS has identified practice standards, developed from a synthesis of evidence, critical

review, and analysis of aspects of access device management for which nursing is accountable. Access Device Standards of Practice for Oncology Nursing reviews the controversies in access device care, explores the range of devices currently available, details the advantages and disadvantages of each device to ensure optimal selection based on patient needs, and discusses the key legal ramifications concerning access devices and their management. With access device technology becoming more complex, this text is an essential resource for nurses practicing in a wide range of settings to ensure safe, effective care of patients with

VADs."--Publisher's description.

**Lippincott's Nursing Procedures** Lippincott Williams & Wilkins Roberts and Hedges' Clinical Procedures in Emergency Medicine continues its long tradition of being the most well-known and trusted procedures manual in emergency medicine. The newly revised 6th edition of this classic medical reference has been thoroughly updated with step-by-step Review, Procedure, and Ultrasound Boxes covering the latest equipment, devices, drug therapies, and techniques you need to know for effective practice of emergency medicine. You'll access complete and detailed guidance on exactly when, how, and why to perform all of today's

common and uncommon procedures and get the best results. Understand the ins and outs of every procedure you're likely to consider, such as how, why, when to, and when not to perform them, in addition to other emergency procedures that may be an option. Rapidly review the entire contents online, including brand-new videos of common and complex procedures, at Expert Consult. See entire procedures at a glance with the addition of new Procedure Boxes, which offer step-by-step visual instruction on over 250 emergency techniques. Ideal for point-of-care reference, these Procedure Boxes also serve as a comprehensive mini

atlas and are especially useful for less-encountered procedures or those that require complex equipment. Easily apply the latest emergency ultrasound techniques through new Ultrasound Boxes, all of which are expertly written and richly illustrated with photographs of the technique as well as screen captures of the US images. Master today's hottest new procedures including ultrasound for diagnosis of pneumothorax; loop abscess drainage; pediatric fluid resuscitation; and video-assisted intubation. Clearly and efficiently visualize all emergency procedures with a complete overhaul of figures, now nearly all in full

color; new diagnostic images representing multiple modalities; and online-only procedural videos demonstrating key techniques. Your purchase entitles you to access the web site until the next edition is published, or until the current edition is no longer offered for sale by Elsevier, whichever occurs first. Elsevier reserves the right to offer a suitable replacement product (such as a downloadable or CD-ROM-based electronic version) should access to the web site be discontinued.

Lippincott Nursing

Procedures F.A. Davis

This quick-reference handbook meets Infusion Nurses Society standards and provides the essential I.V. therapy facts that

nurses need for clinical work. Information is presented in an easy-to-scan bulleted format, with visually compelling illustrations of techniques and eye-catching symbols that highlight warning alerts. Separate chapters focus on peripheral and central venous I.V. therapy, including coverage on state-of-the-art vascular access devices, PICC lines, and a quick-scan guide to CV catheters. Close attention is given to the prevention and management of specific complications of peripheral and central venous therapy. Other chapters cover I.V. medication administration, transfusions, chemotherapy infusions, and

parenteral nutrition.

### **Core Curriculum for Infusion Nursing**

Lippincott Williams & Wilkins

-- The standards of both the Intravenous Nursing Society and the Centers for Disease Control are emphasized

throughout the manual; in addition, competency criteria will serve as a reference for hospital policy and procedure development required by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO)

-- The text keeps students up to date by thoroughly detailing step-by-step procedures for such new practices as subcutaneous infusion of pain medication, peripherally inserted

central catheters (PICCs), epidural pain medication administration, and patient-controlled analgesic therapy -- Contains pretest and post-test questions, chapter outlines, chapter objectives, chapter summaries, and chapter glossaries to help the user identify strengths as well as weaknesses; also includes worksheets in appropriate chapters to enhance learning -- Two new chapters added: Infection Control and Antineoplastic Therapy -- Competency criteria added to appropriate chapters -- Nursing Process Model added -- Patient teaching guidelines provided -- Newest INS standards included -- Easy-to-use chart comparing

various IV solutions  
*Nursing Interventions Classification (NIC) - E-Book* Elsevier Health Sciences  
 Awarded first place in the 2017 AJN Book of the Year Awards in the Child Health category. Known for its accuracy, evidence-based focus, and engaging writing style, Wong's *Essentials of Pediatric Nursing*, 10th Edition has been the #1 title in the pediatric nursing market since it first published in 1980! Thoroughly revised to equip you with the latest research and guidelines for treating children today, it encourages a whole-body approach by beginning with child development and health promotion to better understand the later chapters on specific health

problems. A new chapter featuring all systems cancers provides comprehensive information in one place. Nursing Care Plans now incorporate additional case studies to personalize interventions and promote critical thinking.

**Phillips' Man of I.V. Therapeutics** Elsevier Health Sciences  
Designed for the home care nurse, this pocket guide is a portable reference for home infusion therapy covering venous access devices and other infusion devices and pumps.

**I.V. Therapy Made Incredibly Easy!**  
Elsevier Health Sciences  
Cancer Nursing: Principles and Practice, Eighth Edition

continues as the gold standard in oncology nursing. With contributions from the foremost experts in the field, it has remained the definitive reference on the rapidly changing science and practice of oncology nursing for more than 25 years. Completely updated and revised to reflect the latest research and developments in the care of patients with cancer, the Eighth Edition includes new chapters on the biology of cancer, sleep disorders, and palliative care across the cancer continuum. The Eighth Edition also includes significant updates to the basic science chapters to reflect recent increases in scientific knowledge, especially relating to genes and cancer. Also

heavily revised are the sections devoted to the dynamics of cancer prevention, detection, and diagnosis, as well as treatment, oncologic emergencies, end of life care, and professional and legal issues for oncology nurses.

### *Cancer Nursing*

Springer

Basic Pharmacology for Nurses is a modern classic. Known for its impeccably accurate drug content and practical applications of the nursing process, this trusted text consistently emphasizes health promotion through monitoring and patient education. Introductory units ground your knowledge in the basic principles of pharmacology and medication administration, while

subsequent body-system units prepare you to apply the nursing process to every major disorder.

UNIQUE! Two-tiered application of the nursing process provides the general principles of care, along with specific nursing implications for each drug class or individual drug.

Meticulously accurate and updated drug content keeps the book in step with the latest FDA approvals, withdrawals, and changes in therapeutic uses. UNIQUE!

Introduction to Cardiovascular Disease and Metabolic Syndrome sets the stage for an understanding of the progression of cardiovascular disease and the pharmacologic treatment of that

progression. **UNIQUE!** Patient Teaching boxes equip you for health teaching related to medications. LPN Threads design presents information in an easy to understand and visually engaging manner. **NEW!** Increased emphasis on medication safety prepares you for a clinical environment that is more focused than ever on reducing drug errors. **NEW!** Updated and added coverage keeps you up to date with the latest information on genetics, pharmacogenomics, and racial/gender factors in drug actions. Pocket Guide to Home Infusion Therapy Elsevier Health Sciences  
The Ninth Edition of Plumer's Principles and Practice of Infusion

Therapy provides clear, concise coverage of basic and advanced infusion procedures. Rely on this new edition for the most current coverage of intravenous therapy function, procedures, standards, and equipment, along with practical new features and emphasis on safety considerations, as well as evidence-based practice. The book begins with an overview of IV therapy, including how to minimize risk and enhance performance, and then addresses assessment and monitoring; clinical decision making; patient specific therapies, and infusion therapy for children, the elderly, and across the continuum of care. **Elsevier's Clinical Skills Manual,**

## **Medical-Surgical Nursing, 1st Edition, E-Book**

Elsevier Health Sciences Infusion Nurses Society's most recognized publication, the newly revised Infusion Therapy Standards of Practice has long provided the framework that guides clinical practice. The Standards helps define and develop organizational infusion-based policies and procedures for all practice settings.

## *Maternal Child Nursing Care - E-Book*

Lippincott Williams & Wilkins Select nursing interventions with the book that standardizes nursing language! Nursing Interventions Classification (NIC), 8th Edition provides a research-based clinical tool to help you choose

appropriate interventions. It standardizes and defines the knowledge base for nursing practice as it communicates the nature of nursing. More than 610 nursing interventions are described — from general practice to all specialty areas. From an expert author team led by Cheryl Wagner, this book is an ideal tool for practicing nurses and nursing students, educators seeking to enhance nursing curricula, and nursing administrators seeking to improve patient care. It's the only comprehensive taxonomy of nursing-sensitive interventions available! 614 research-based nursing intervention labels — with 60 new to this edition — are included,

along with specific activities used to carry out interventions.

Specialty core interventions are provided for 57 specialties.

Descriptions of each intervention include a definition, a list of activities, a publication facts line, and references. NEW! 60 interventions are added to this edition, including several related to the care of patients with COVID considerations.

UPDATED!

Approximately 220 existing interventions have been revised.

**IV Therapy** F. A. Davis Company

NEW! Clinical Judgment in Nursing chapter introduces the concept of clinical judgment and the six NCSBN Clinical Judgment Measurement Model

Skills. NEW! Clinical judgment steps are integrated within the nursing process.

**Evidence-Based Practice in Action: Comprehensive Strategies, Tools, and Tips From University of Iowa Hospitals & Clinics, Second Edition**

Lippincott Williams & Wilkins

The newly revised fifth edition of this popular reference is a start-to-finish guide for more than 400 basic to advanced nursing procedures. It provides step-by-step instructions for each procedure and explains how to use and troubleshoot equipment.

*Fundamentals of Nursing E-Book*

Lippincott Williams & Wilkins

Provide quality nursing

care through each stage of child development! Wong's *Nursing Care of Infants and Children, 12th Edition* uses an easy-to-follow, family-centered approach to describe the care of children at each age and stage of development. The book begins with a discussion of the influences on and assessment of child health, then provides chapters on child health promotion and health problems — all organized by age groups and body systems. Up-to-date, evidence-based information helps you develop critical thinking skills along with the sensitivity needed to become a compassionate, caring pediatric nurse. Written by a team of

experts led by Marilyn J. Hockenberry, Wong's continues to be the leading text in pediatric nursing. Focus on family-centered care emphasizes the role and influence of the family in child health and illness with a separate chapter and Family-Centered Care boxes. Full-color drawings and photographs reflect the latest in nursing care. Nursing Care Guidelines boxes offer clear, step-by-step instructions for interventions in a variety of situations and conditions, and Nursing Care Plan boxes included expected patient outcomes and rationales for nursing interventions. Nursing Tips include helpful hints and practical,

clinical information. Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to improve the outcomes of nursing care. Atraumatic Care boxes contain techniques for care that manage pain, discomfort, or stress, along with approaches to promote self-esteem and prevent embarrassment. Emergency Treatment boxes serve as a quick reference for interventions in critical situations. Cultural Considerations and Cultural Competence content provides tips from clinical experts. Community and Home Health Considerations boxes address issues such as increasing immunization rates, decreasing smoking among teens, and

preventing lead poisoning. Drug Alerts highlight important drug-related information for safe, appropriate care. Nursing Alerts call out critical considerations such as key assessment data, risk factors, and danger signs that must be considered in providing care. Research Focus boxes emphasize research with concise reviews of important evidence.
