In this book, Hoover expounds and vigorously defends what has come to be called American exceptionalism: the set of beliefs and values that still makes America unique. He argues that America can make steady, sure progress if we preserve our individualism, preserve and stimulate the initiative of our people, insist on and maintain the safeguards to equality of opportunity, and honor service as a part of our national character.

American Government: In the United States, the government gets its power to govern from the people. We have a government of the people, by the people, and for the people. Citizens in

the United States shape their government and its policies, so they must learn about important public issues and get involved in their communities. Learning about American government helps you understand your rights and responsibilities and allows you to fully participate in the American political process. The Founders of this country decided that the United States should be a representative democracy. They wanted a nation ruled by laws, not by men. In a representative democracy, the people choose officials to make laws and represent their views and concerns in government. This book will help you understand the principles of American democracy, the U.S. system of government, and the important rights and responsibilities of U.S. citizenship. --

Cracking the AP World History Exam 2018, Premium Edition Princeton Review

For over four hundred years, the city of Geneva has been important in Western history. The character of this city--steady, serious, erudite, clannish, and proud--has remained virtually unchanged since Calvin's time, the heroic age when she first became famous. Professor Monter relates the "success story" of this fascinating city through a fresh synthesis of printed and archival sources. In the sixteenth century, Geneva succeeded in winning and maintaining her independence, a feat unique in Reformation Europe. Into

this special environment came Calvin--and his triumph was the result of a brilliant mind and an undeviating will being placed in the midst of the crude and confused surroundings of a revolutionary commune. Professor Monter explores the components of Geneva's and Calvin's fame in a number of ways. First, he outlines the history of the city from the early sixteenth century to Calvin's death in 1564, showing the tumultuous environment of the city where Calvin worked and the means by which local opposition to Calvin dissolved. He next describes the principal institutions and social groups of Calvin's Geneva: the established church, the civil government, and the foreign refugee communities. Finally, he assesses Calvin's legacy to Geneva and

discusses the workings of Calvinism after its founder's death. As a whole, Calvin's Geneva is a revealing portrait of a major city and an acute analysis of its effect on one of the most important men in the sixteenth century.

Where were Venetian blinds invented?

What color is the black box on a commercial airplane? Where did India ink originate? * Most of us know more than we think we know. We also think we know more than we actually do-because some of what we think we know simply "ain't so." We all harbor misconceptions

that are accepted not only because they are popular but also because they make sense. It makes sense to believe, for example, that German chocolate originated in Germany rather than the truth: that German chocolate is so named because it was created by Sam German. It seems logical to believe that Mercury is the hottest planet because of its proximity to the sun, or that buttermilk contains butter, that Danish pastry is from Denmark, and that the boat race America's Cup was named after the United States of America. In Sorry, Wrong Answer, Rod Evans takes readers on a tour of misleading trivia, debunking commonly held assumptions and sharing surprising "right" answers.
