The Berenstain Bears' Dinosaur Dig Kids  
Can Press Ltd

Pre-readers will love exploring the planet in this fun, collectible board book series with a nonfiction twist. Featuring detailed, labelled illustrations and a gatefold summary at the end of each book to gently reinforce learning, these adventure-filled board books are perfect for adults to share with inquisitive youngsters. Join in the fossil-finding adventure in "Digging for Dinosaurs," to uncover a huge dinosaur fossil.

Digging Up Dinosaurs Teacher Created  
Materials

Dinosaurs from one to ten use construction equipment to dig, shovel, roll, and scrape as they build a fun surprise.

**The Big Dinosaur Dig** Bearport  
Publishing

It's a race against time for Josh Smith and his team to dig up fossilized dinosaur bones in the desert. What will they find?  
Book jacket.

*SuperCroc* Paw Prints

Dinosaurs are extinct now, but you can visit dinosaur skeletons in a museum. There you will meet Brachiosaurus, Stegosaurus, and Diplodocus and learn how they ruled the earth millions of years ago. You'll see dinosaurs with over 1,000 teeth, dinosaurs who could swim, meat-eaters and plant-eaters. And, of course,

you'll meet the king of all dinosaurs, the gigantic Tyrannosaurus rex.

*Figuring Out Fossils* Enslow Publishing, LLC  
Describes fossils, how to collect them, and what they reveal about dinosaurs and other creatures that inhabited the earth millions of years ago.

**Dinosaur Mountain** Lerner Digital™  
Audisee® eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience! Fossils give us a window to the past. Water, sediments, and pressure work together over time to preserve the shape of things that lived long ago. Studying these ancient plants and animals tells us more about our own existence. Have you ever searched for fossils?

Unearth some in this book.

**Dinosaur Bones** Harper Collins

Describes the discovery and excavation of the world's only complete Tyrannosaurus fossil in Montana, and what was learned from it.

Digging Up Dinosaurs Farcountry Explorer Book

How did those enormous dinosaur skeletons get inside the museum? Long ago, dinosaurs ruled the Earth. Then, suddenly, they died out. For thousands of years, no one knew these giant creatures had ever existed. Then people began finding fossils -- bones and teeth and footprints that had turned to stone. Today, teams of experts work together to dig dinosaur fossils out of the ground, bone by fragile bone. Then they put the skeletons together again inside museums, to look just like the dinosaurs of millions of years ago.

**Dinosaur Mountain** Lerner Digital ™

A fun introduction to prehistoric creatures that are not dinosaurs, and why! Everyone knows what a dinosaur is, right? Well, maybe not. Dinosaurs are actually just one type of extinct animal from prehistoric times. So, what sets them apart? Here,

readers are introduced to ten prehistoric animals. Each one looks like a dinosaur. But it's missing at least one key characteristic of all true dinosaurs. Animal by animal, each of those characteristics is added to a growing list, until, by the end of the book, readers know just what makes a dinosaur a dinosaur! A dinosaur by any other name is . . . not a dinosaur, of course!

**The Fossil Factory** Harper Perennial

The 1909 discovery of bones protruding from a sandstone mountain in Utah led to the unearthing of other remains and proved to be one of the greatest fossil discoveries of the century.

**My Visit to the Dinosaurs**

HarperFestival

Briefly introduces various types of dinosaurs, explaining how scientists find, preserve, and reassemble the giant dinosaur skeletons seen in museums.

Dino-Mike and the Living Fossils Enslow Publishing, LLC

Explains how the various orders and suborders of dinosaurs were similar and different in structure and appearance

Here We Go Digging for Dinosaur Bones StarWalk Kids Media

For all young would-be palaeontologists, this look at dinosaur skeletons and where and how they are found and excavated is ideal. Includes a Fossil Finder's Handbook and timeline for a dig. Lift the flaps and pull out to reveal a three foot wide 3D dinosaur.

*Paul Sereno* Capstone Classroom

How do we know what dinosaurs were like? Dinosaurs roamed the earth millions of years ago. Then suddenly they all died out. How do we know now what they looked like? How do we know that they really existed at all? Read and find out how scientists have proven the existence of dinosaurs by studying fossil remains. Each new fossil find helps them to ice together a picture of what the world was like millions of years ago.

Digging Up Dinosaurs Guided Reading 6-Pack Knopf Books for Young Readers

Many people go to museums to see dinosaur fossils. But visitors would never get to see these displays without the work of paleontologists. They locate fossils, dig them up, and send them to a lab to be cleaned and preserved. Museum curators decide how to best display huge dinosaur bones. Learn how scientists use

technology to bring these ancient fossils into the modern world! Created in collaboration with the Smithsonian Institution, this book builds students' literacy skills while fostering curiosity, creativity, and innovation. The hands-on STEAM challenge is ideal for makerspace activities, and guides students through every stage of the engineering design process. This book features: Real-world examples provide insight into how the engineering design process is used to solve real-world problems; Content that highlights every component of STEAM: science, technology, engineering, the arts, and math; Career advice from Smithsonian employees working in STEAM fields; Dynamic images and text features enhance the reading experience and build visual literacy. This 6-Pack includes six copies of this title and a lesson plan that addresses literacy and engineering objectives.

[A Little Bit of Dinosaur](#) Hachette Books  
Written for kids ages 8 to 12, [Digging Up Dinosaurs](#) is chock full of fun and fascinating information about fossils in Montana, Colorado, Utah, Wyoming, Idaho, North Dakota, and South Dakota. Horner

takes kids along on the dig, explaining step by step how fossils are formed, the best places to find them, what it takes to get them out of the ground, and what the fossils tell us about the dinosaurs that roamed the Rocky Mountain states and the Dakotas. We even get to look back in time at what the region looked like during the days of dinosaurs!

[I Explore Digging for Dinosaurs](#) Macmillan  
Dinosaurs roamed Earth between 230 million and 65 million years ago. That's not only long before the present day, but also long before Homo sapiens were around at all. Without fossils, we might not know anything about these fierce and interesting prehistoric animals. Young explorers will learn how fossils form, the different kinds of dinosaur fossils that scientists study, and just what we've learned from these cool fossil finds. Detailed photographs aid readers' understanding while fact boxes add more context to key science concepts.

**Dinosaurs Are Different** Arbordale Publishing

Many people go to museums to see dinosaur fossils. But visitors would never get to see these displays without the work

of paleontologists. They locate fossils, dig them up, and send them to a lab to be cleaned and preserved. Museum curators decide how to best display huge dinosaur bones. Learn how scientists use technology to bring these ancient fossils into the modern world! Created in collaboration with the Smithsonian Institution, this book builds students' literacy skills while fostering curiosity, creativity, and innovation. The hands-on STEAM challenge is ideal for makerspace activities, and guides students through every stage of the engineering design process. This book features: Real-world examples provide insight into how the engineering design process is used to solve real-world problems; Content that highlights every component of STEAM: science, technology, engineering, the arts, and math; Career advice from Smithsonian employees working in STEAM fields; Dynamic images and text features enhance the reading experience and build visual literacy. This 6-Pack includes six copies of this title and a lesson plan that specifically supports guided reading instruction.

[Dinosaur Bones](#) Simon and Schuster

"Dinosaurs and modern life collide in a very young picture book that clearly illustrates how big dinosaurs really were"--

**Digging Dinosaurs** Macmillan  
Briefly introduces various types of dinosaurs whose skeletons and

reconstructions are seen in museums and explains how scientists uncover, preserve, and study fossilized dinosaur bones.
