Chaque jour, d'une manière ou d'une autre, vous faites partie d'une équipe. La question n'est donc pas : Voulez-vous participer à une entreprise collective ? mais plutôt : Parviendrez-vous à bien vous entendre avec les autres ? Ce livre vous permettra de répondre positivement à cette question. Tout le monde sait qu'il est bon de travailler en équipe ; c'est même essentiel ! Mais comment cela fonctionne-t-il ? Qu'est-ce qui permet à une équipe d'être gagnante ? Pourquoi certaines équipes font-elles des exploits et voient-elles leur vision se concrétiser alors que d'autres semblent végéter ? Quels sont les outils sur lesquels vous pouvez compter pour bâtir ou rebâtir une équipe ? Dans Les 17 lois infaillibles du travail en équipe, l'expert en leadership et auteur à succès au New-York Times, John C. Maxwell, partage les principes essentiels pour bâtir une équipe performante pour votre entreprise, votre famille, votre église ou votre association. Avec son style très pragmatique, Dr John C. Maxwell partage entre autre comment : • La loi du moral d'acier à inspirer un homme qui ne savait pas nager à disputer le triathlon le plus difficile au monde • La loi du tableau d'ensemble a poussé un ancien président à traverser le pays en bus, à dormir dans un sous-sol et à travailler de ses mains pendant une semaine • La loi du tableau de bord a permis à une entreprise web de faire fortune tandis que des milliers d'autres plateformes e-commerce ont fait faillite • La loi du prix à payer a obligé l'un des plus grands détaillants à fermer ses portes après 128 ans d'existence.

Voici le Tome II de l'Arbitrage International Commercial. Il y a quatre ans, à l'occasion du Congrès de Paris 1956 de l'Union Internationale des Avocats, que le premier volume a paru. Le Tome II sera offert par son rapporteur-général, notre confrère le Prof. Pieter Sanders, au Congrès de Bale, September 1960, et il ne sera pas, nous en sommes convaincus, le dernier dans la série de notre Manuel sur l'Arbitrage International Commercial. Il me semble que nous pouvons être reconnaissants à tous ceux qui ont bien voulu coopérer à la composition de ce Manuel, qui présente un intérêt primordial pour la pratique de l'arbitrage commercial international. Je veux rappeler que le premier volume nous offrait déjà une description du droit et de la pratique de l'arbitrage dans 16 pays de l'Europe de l'Ouest et aux Etats-Unis. Le deuxième volume y ajoute des contributions sur le droit et la pratique de l'arbitrage dans 5 pays de l'Amérique latine et 7 de l'Europe de l'Est. En vue de l'accroissement des relations économiques entre l'Europe de l'Ouest et de l'Est et entre l'Europe d'une part et les deux Amériques d'autre part, les deux volumes de notre Manuel présentent une source d'information inappréciable. Il apparaît de plus en plus que la O.U. se développe le commerce international, l'arbitrage suit. Pour la solution des conflits commerciaux internationaux l'arbitrage s'avère dans beau coup de cas comme la voie la plus indiquée.

This is a reprint of the revised and enlarged fourth edition originally published in 1903. Five new selections were added in this edition, thereby bringing it down to the end of the nineteenth century. In 1882 the president and fellows of Harvard elected Benjamin Rand to the Walker Fellowship which permitted him to travel and study abroad. He proceeded at once to Heidelberg where he studied under the celebrated philosopher Kuno Fischer. Before returning home he travelled much in Germany, Switzerland, Italy and France. Dr. Rand is the third man whom Harvard ever admitted to the degree of Ph.D. in the department of philosophy. His thesis presented for this degree was "Consciousness and Immortality." He made outstanding contributions in Philosophy and he was internationally known as a Philosopher.

This book contains some of the papers that were presented at the first meeting of the newly formed African Expert Study Group on International Criminal Law/ Groupe des Experts Africaines en Droit Pénal International held in September 2011 in Brussels, Belgium. The group was established under the auspices of the Multinational Development Policy Dialogue (hereinafter 'MDPD') and the Rule of Law programme of the German Konrad-Adenauer-Stiftung ('KAS') in 2010 modeled on the successful sister group in Latin America. This latter group was originally founded as an expert group to monitor the implementation of the Rome Statute of the International Criminal Court ('ICC') in Latin America within the framework of cooperation between KAS' regional Rule of Law Programme and the Department for Foreign and International Law of the Institute for Criminal Law and Criminal Justice of the Georg-August-Universität Göttingen in 2002. The newly formed African group consists of judicial experts with both academic and practical background from various parts of Sub-Saharan Africa. The importance of such a group for the African continent cannot be overestimated. Africa plays a vital role in international criminal law and justice, both as an active player at the ICC and at the regional and national level. As for the group's composition and outreach, the aim is to broaden regional representation and further consolidate membership. In 2012, the group will meet in Nairobi, Kenya to deal with topics surrounding the 'Potential for the domestic prosecution of international crimes in Africa.' Topics for future meetings abound given the multi-faceted African legal and political practice regarding international criminal justice in general and the ICC in particular. The group should in particular monitor the recent international or transnational criminal justice developments at the regional African level as well as relevant national developments. [Inheritance in Nineteenth-century French Culture](#) Martinus Nijhoff Publishers

The transmission of wealth between generations was not only a narrative commonplace in nineteenth-century France, but also a topic of considerable cultural anxiety and intense political debate. In this study, Andrew J. Counter draws on a wealth of previously unexplored material to show how the theme of inheritance in literature and beyond acquired ethical, historical and ideological connotations, and was vital to nineteenth-century French conceptions of the family and of the legacy of the Revolution. Weaving together fiction, drama, legal texts, historiographical thought and political writing, *Inheritance in Nineteenth-Century French Culture* teases out a complex leitmotiv that gives us a new understanding of nineteenth-century France's sense of its own place in history. It also proposes innovative readings of writers as familiar as Honoré de Balzac, George Sand, Guy de Maupassant and Emile Zola, while drawing attention to a range of neglected authors and works.

In accordance with Article 102 of the Charter and the relevant General Assembly Resolutions, every treaty and international agreement registered or filed and recorded with the Secretariat since 1946 is published in the United Nations Treaty Series. Comprehensive Indices covering 50-volume-lots are published separately. A Standing Order service is available for the Series and out-of-print volumes are available on microfiche.

The five elements - governmental authorities, public discourse, corporate and market interests, citizens' associations and international agencies - may help in figuring out the complex and challenging purpose of the research work presented in this volume which is nothing less than the history of the governance of cultural and natural heritage in eleven countries, from its outset to the present. Speaking about governance is challenging. The term has been vastly used and misused. But today, when the feverish popularity of the concept is probably in decline, we rest with one solid conviction at least: that social, economic, cultural and institutional processes are governed not only through government (be it national or local) with its legislative, administrative and jurisdictional mechanisms, but through a larger array of different actors and factors. These include schools and universities, citizens' associations, public opinion, economic corporations, non-governmental organizations, learned societies, unions, media, international agencies, clubs, consultants etc. In fact, the reader is going to meet quite a few of these actors in this publication; they are the unavoidable characters involved in the story the authors have set out to tell.

Lord Slynn of Hadley is one of the outstanding judges of his time. He has served as a High Court Judge, as an Advocate General and a Judge of the European Court of Justice, and he has been a Lord of Appeal for ten years. This *Liber Amicorum* bears testimony to the international reputation that he has achieved for his judgments and for his scholarship. In the many distinguished contributions, judges from international courts and from Supreme Courts and Constitutional Courts, together with academics from leading universities around the world, have taken the opportunity to celebrate the accomplishments of Lord Slynn's legal career thus far, and also to discuss areas of law where Lord Slynn can be expected to give important impulses to further development. 'Mr Gordon Slynn was outstanding. The best I have ever known. He will go far.' Lord Denning, Master of the Rolls, 1980. *Plato Journal* 17 IOS Press

"Theory of International Law at the Threshold of the 21st Century" is a remarkable book, and is destined to become a standard work, without which no International Law library will be complete. The essays contained in this volume are written by the foremost experts, and the topics have been chosen with the greatest care, to reflect the most pressing current problems facing the world community. The research and writing made available in this collection will be of enduring worth, and will be studied and quoted for decades to come. It follows in the finest traditions of the major collective works published by Martinus Nijhoff/Kluwer Law International. It is most appropriate that a remarkable book should be dedicated to a remarkable man, and the editor of the volume Professor Jerzy Makarczyk has ensured that the choice of writers, the choice of topics and the quality of the material do indeed honour one of the leading international lawyers of his generation: Professor Krzysztof Skubiszewski.

Although conscientious objection is a long-standing phenomenon, it has only recently become a major factor affecting armed forces and society. The only comprehensive, comparative scholarly study of conscientious objection to military service, this book examines the history of the practice in the Western world and state policies that have grown up in response to it. It shows how the contemporary refusal to bear arms is likely to be secular and widespread rather than religious and marginal, now including service people (as seen in the 1991 War in the Persian Gulf) as well as conscription resisters. No account of civil-military relations or peace movements in advanced industrial countries is complete without reference to conscientious objection, and this book will be the standard text on the subject.
