Hema Malini Harper Collins

A concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Stalin, Mao, Hitler, Mussolini, and other dictators routinely doctored photographs so that the images aligned with their messages. They erased people who were there, added people who were not, and manipulated backgrounds. They knew if they changed the visual record, they could change history. Once, altering images required hours in the darkroom; today, it can be done with a keyboard and mouse. Because photographs are so easily faked, fake photos are everywhere—supermarket tabloids, fashion magazines, political ads, and social media. How can we tell if an image is real or false? In this volume in the MIT Press Essential Knowledge series, Hany Farid offers a concise and accessible guide to techniques for detecting doctored and fake images in photographs and digital media. Farid, an expert in photo forensics, has spent two decades developing techniques for authenticating digital images. These techniques model the entire image-creation process in order to find the digital disruption introduced by manipulation of the image. Each section of the book describes a different technique for analyzing an image, beginning with those requiring minimal technical expertise and advancing to those at intermediate and higher levels. There are techniques for, among other things, reverse image searches, metadata analysis, finding image imperfections introduced by JPEG compression, image cloning, tracing pixel patterns, and detecting images that are computer generated. In each section, Farid describes the techniques, explains when they should be applied, and offers examples of image analysis.

A pioneer of LGBTQ studies dares to suggest that gayness is a way of being that gay men must learn from one another to become who they are. The genius of gay culture resides in some of its most despised stereotypes—aestheticism, snobbery, melodrama, glamour, caricatures of women, and obsession with mothers—and in the social meaning of style.

Cat Person Penguin

A “eye-opening, gritty, and compelling” memoir by one of New York City’s last Times Square peep show girls (The Paris Review Online). In 2006, Gotham City Video was among the last of its kind where, breathing in a cocktail of Pine-Sol and Windex, a man paid \$40 to watch a girl strip naked behind glass. These fantasy lands, left over from the days when 42nd Street was the center of vice, eventually disappeared from the rapidly gentrifying city, their stories lost forever. Not those of tenderloin grinder, Sheila McCelar. Pulling back the curtain on the little-documented world of the peeps, her “ribald . . . memorable and highly relevant” (The Daily Beast) reflection is “both a eulogy and a paeon to the freaks and misfits who have long given their souls to the city” (Matthew Gallaway, author of The Metropolis Case). A late bloomer from small-town Michigan, Sheila arrived in New York as a struggling actress and soon found herself adrift. Borderline homeless, and crashing with friends, she finally got steady work that paid the rent—as a stripper along the triple-x stretch of Eighth Avenue. When Times Square seeped into her blood, she ended up staying much longer than she imagined. The story she tells is not just of her own coming-of-age, it’s a “sharp, sweetly personal . . . fascinating and honest” narrative of modern life on the fringes of society in New York City (Mark Jacobson, author of Pale Horse Rider).

One of the most enduring divas of Hindi cinema, a producer and director for films and television, dancer and choreographer par excellence, magazine editor, an active member of Parliament and now a singer, Hema Malini wears many hats with admirable ease. No other industry name comes close to matching the breadth of her achievements. In an industry where the male star has traditionally driven the commercial success of films, Hema was an exception, with her name alone sufficing to ensure a film's box-office glory. She was, arguably, India's first female superstar. Apart from starring in mainstream super-hits like Johnny Mera Naam, Jugnu, Andaz, Seeta Aur Geeta, Sholay and, more recently, Baghban, she received critical acclaim for her performances in Lal Patthar, Khushboo, Kinara, Meera, Ek Chadar Maili Si and Razia Sultan. But there is much more to her than just her Bollywood journey. From her efforts at reviving and sustaining classical dance to her graceful handling of her personal life and the controversies that have plagued her in her political avatar, from her relationships to her religious beliefs and her recent tryst with singing, Hema Malini: Beyond the Dream Girl covers it all. With detailed interviews and exclusive anecdotes from her family, friends and co-actors, this is an inside look at the remarkable life of one of our greatest cinema icons, someone who has truly lived life on her own terms.

With the candid quirkiness of Awkward Family Photos and the confessional intimacy of PostSecret, Ransom Riggs's Talking Pictures is a haunting collection of antique found photographs—with evocative inscriptions that bring these lost personal moments to life—from the author of the New York Times bestselling illustrated novel Miss Peregrine's Home for Peculiar Children. Each image in Talking Pictures reveals a singular, frozen moment in a person's life, be it joyful, quiet, or steeped in sorrow. Yet the book's unique depth comes from the writing accompanying each photo: as with the caption revealing how one seemingly random snapshot of a dancing couple captured the first dance of their 40-year marriage, each successive inscription shines like a flashbulb illuminating a photograph's particular context and lighting up our connection to the past.

Award-winning photographer Matt Black traveled over 100,000 miles to chronicle the reality of today's unseen and forgotten America. When Magnum photographer Matt Black began exploring his hometown in California's rural Central Valley—dubbed “the other California,” where one-third of the

population lives in poverty—he knew what his next project had to be. Black was inspired to create a vivid portrait of an unknown America, to photograph some of the poorest communities across the US. Traveling across forty-six states and Puerto Rico, Black visited designated “poverty areas,” places with a poverty rate above 20 percent, and found that poverty areas are so numerous that they're never more than a two-hour's drive apart, woven through the fabric of the country but cut off from “the land of opportunity.” American Geography is a visual record of this five-year, 100,000-mile road trip, which chronicles the vulnerable conditions faced by America's poor. This compelling compilation of black-and-white photographs is accompanied by Black's own travelogue—a collection of observations, overheard conversations in cafe's and public transportation, diner menus, bus timetables, historical facts, and snippets from daily news reports. A future classic of photography, this monograph is supported by an international touring exhibition and is a must-have for anyone with an interest in witnessing the reality of an America that's been excluded from the American Dream.
