The nearly nude, decomposing body of a beautiful young woman is found in a Bloomington, Minnesota park preserve area. Indications are that the girl has been raped and strangled while running in the park, but an autopsy and other evidence lead Bloomington police detective Druke to theorize that the killing was a case of mistaken identity, that the rape was staged to mislead investigators, and that the murder may have been committed by a professional killer, who might well still be stalking his real target. Druke also adroitly deduces that the real person who is earmarked for assassination is Druke's own headstrong daughter, Sydney, who is the victim's look-a-like. Someone, for some reason, has been killing all members of the Druke biological lineage, of which Sydney is the last. Druke must try to protect Sydney, discover the reason behind the conspiracy, and stop the assassin before Sydney is killed. More murders, clues, action and erotic romance lead or follow Sydney and/or Druke to places like Swarthmore College, Pennsylvania; San Onofre, California; Bloomington's mega Mall of America; England, France, Germany; and ultimately to Rome and the very private apartments of the Vatican, where the conspiracy finally comes to light.

"The rhythmic, onomatopoeic text dances across exuberant watercolors with lots of movement. This celebration of a child's agency in choosing a means of artistic expression strikes just the right note." --Kirkus "A delightful offering for reading aloud, especially during music-themed storytimes." --School Library Journal From New York Times bestselling author Chris Barton and new illustrator Louis Thomas comes a fun, rhythmic picture book about finding the music that is perfect for you! A boy who loves to make noise gets to pick only one instrument (at his parents urging) in a music store, but there is too much to choose from! There's triangles and sousaphones! There's guitars and harpsichords! Bagpipes and cellos and trombones! How can he find the one that is just right for him out of all those options?

Radio Frequency Identification (RFID) tagging is now used by the department of defense and many of the world's largest retailers including Wal-Mart. As RFID continues to infiltrate industries worldwide, organizations must harness a clear understanding of this technology in order to maximize its potential and protect against the potential risks it poses. The RFID Handbook provides an overview of RFID technology, its associated security and

privacy risks, and recommended practices that will enable organizations to realize productivity improvements while also protecting sensitive information and the privacy of individuals. Expert contributors present a host of applications including RFID enabled automated receiving, triage with RFID for massive incidents, RFID and NFC in relation to mobile phones, and RFID technologies for communication robots and a privacy preserving video surveillance system. The unprecedented coverage also includes detailed descriptions of adaptive splitting protocols as well as tree-based and probabilistic anti-collision protocols. Drawing on its distinguished editors and world-renowned contributors, this one-of-a-kind handbook serves as the ultimate reference on RFID, from basic research concepts to future applications.
