Jesus Come Revive America answers the question, “Where are all the Christians” and moves beyond the apparent decline of morality in the country to a call of action for Christians to emerge with boldness, courage, and prayer for awakening. The author also emphasizes that the most important decision a person will make in their entire life is to follow Jesus. That one decision determines their future. That one decision will determine if they spend eternity in heaven or in hell. She considers questions such as: • Are we living in a world of wickedness that is worse than Sodom and Gomorrah? • Why has there been such a decline in common sense and morality over the past decade? • Is there one sin worse than all other sins that will prohibit a person from going to heaven? This book is a user-friendly approach to reading the Bible, understanding historical events, and practically implementing the Bible’s teachings in today’s world. It incorporates archeology, anthropology, geography, history, philosophy, sociology, and theology to help Americans prepare for the next Great Awakening. The author wrote the book with much prayer for divine wisdom to emerge on the pages for each reader. Dr. Debra J. Dean, a faithful follower of Jesus, expands on the lives of regular people like Esther and Gideon, along with the Apostle Paul and Jesus Christ, to highlight how they were bold and courageous. In doing so, she reveals how we can apply the same zeal for God today as we prepare for revival and learn to live a holy lifestyle. The author is also a co-founder of His Kingdom Matters ministry, whose vision is that we will unite as a community of believers to support and equip one another while fulfilling the Great Commission (Matthew 28:16-20) and the Greatest Commandment (Matthew 22:36-40). In doing so, a spiritual revival will spread like wildfire across the globe like never before seen as souls are saved and lives are touched by Kingdom members in practical and miraculous ways. Under pressure and support from the federal government, states have increasingly turned to indicators based on student test scores to evaluate teachers and schools, as well as students themselves. The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests, such as in mathematics or English/language arts with a focus on grades 4-8. Teachers in these subject areas, however, constitute less than thirty percent of the teacher workforce in a district. Comparatively little has been written about the measurement of achievement in the other grades and subjects. This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas, with particular attention to their use in the evaluation of teachers and schools in all. It addresses traditional end-of-course tests, as well as alternative measures such as portfolios, exhibitions, and student learning objectives. In each case, issues related to design and development, psychometric considerations, and validity challenges are covered from both a generic and a content-specific perspective. The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research-based applications of educational measurement and assessment. Edited by leading experts, these books are comprehensive and practical resources on the latest developments in the field. The NCME series editorial board is comprised of Michael J. Kolen, Chair; Robert L. Brennan; Wayne Camara; Edward H. Haertel; Suzanne Lane; and Rebecca Zwick.

Winner of the Bancroft Prize In twenty-first-century America, some cities are flourishing and others are struggling, but they all must contend with deteriorating infrastructure, economic inequality, and unaffordable housing. Cities have limited tools to address these problems, and many must rely on the private market to support the public good. It wasn’t always this way. For almost three decades after World War II, even as national policies promoted suburban sprawl, the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs. In *Saving America’s Cities*, the prizewinning historian Lizabeth Cohen follows the career of Edward J. Logue, whose shifting approach to the urban crisis tracked the changing balance between government-funded public programs and private interests that would culminate in the neoliberal rush to privatize efforts to solve entrenched social problems. A Yale-trained lawyer, rival of Robert Moses, and sometime critic of Jane Jacobs, Logue saw renewing cities as an extension of the liberal New Deal. He worked to revive a declining New Haven, became the architect of the “New Boston” of the 1960s, and, later, led New York State’s Urban Development Corporation, which built entire new towns, including Roosevelt Island in New York City. Logue’s era of urban renewal has a complicated legacy: Neighborhoods were demolished and residents dislocated, but there were also genuine successes and progressive goals. *Saving America’s Cities* is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness, opening up possibilities for our own time.
