This richly illustrated catalogue examines the power of photography and its mobilisation within

systems of knowledge and representation across Southeast Asian societies. Rather than just thinking about what photographs show, *Living Pictures* explores what photographs do, acknowledging that photographs have lives—they move and they act—and in the process, they affect the world around them. This groundbreaking catalogue accompanies the world's first-ever survey of the medium's histories across Southeast Asia, from its earliest beginnings in the

19th century until its diverse contemporary manifestations. It traces the creation, circulation and consumption of photography and how these processes have shaped the visual regimes of the region, through essays by the *Living Pictures* curators, interviews with artists and photographers featured in the exhibition, comprehensive plates including never-before-published images, and new research by leading international scholars focusing on the

interdisciplinary intersections between photography and art history, archaeology and cultural theory. [Visual Education](#) Taylor & Francis

This innovative text's

critical examination foregrounds the prime reason why so many people participate in or watch sport – pleasure. Although there has been a "turn" to emotions and affect within academia over the last two decades, it has been somewhat remiss that pleasure, as an integral aspect of human life, has not received greater attention from sociologists of sport, exercise and physical education. This book addresses this issue via an unabashed examination of sport and

the moving body via a "pleasure lens." It provides new insights about the production of various identities, power relations and social issues, and the dialectical links between the socio-cultural and the body. Taking a wide-sweeping view of pleasure - dignified and debauched, distinguished and mundane - it examines topics as diverse as aging, health, fandom, running, extreme sports, biopolitics, consumerism, feminism, sex and sexuality. In drawing from

diverse theoretical approaches and original empirical research, the text reveals the social and political significance of pleasure and provides a more rounded, dynamic and sensual account of sport.

Their work, both celebrated and controversial, depicts stories from the Buddha's lives in otherworldly landscapes punctuated with sly references to this-worldly politics and popular culture. Schooled in international art trends, the artists reverse an

Orientalist narrative of the Asian Other, telling their own stories to diverse audiences and subsuming Western spaces into a Buddhist worldview."--BOOK JACKET.

Bibliographic Guide to Art and Architecture

Hippocrene Books
In the new mega-anthology from best-selling editor Russ Kick, more than fifty writers, reporters, and researchers invade the inner sanctum for an unrestrained look at the wild and wooly world of organized belief. Richard

Dawkins shows us the strange, scary properties of religion; Neil Gaiman turns a biblical atrocity story into a comic (that almost sent a publisher to prison); Erik Davis looks at what happens when religion and California collide; Mike Dash eyes stigmatics; Douglas Rushkoff exposes the trouble with Judaism; Paul Krassner reveals his "Confessions of an Atheist"; and best-selling lexicographer Jonathon Green interprets the language of religious prejudice. Among the

dozens of other articles and essays, you'll find: a sweeping look at classical composers and Great American Songbook writers who were unbelievers, such as Irving Berlin, creator of "God Bless America"; the definitive explanation of why America is not a Christian nation; the bizarre, Catholic-fundamentalist books by Mel Gibson's father; eye-popping photos of bizarre religious objects and ceremonies, including snake-handlers and pot-smoking children; the

thinly veiled anti-Semitism in the Left Behind novels; an extract from the rare, suppressed book *The Sex Life of Brigham Young*; and rarely seen anti-religious writings from Mark Twain and H.G. Wells. Further topics include exorcisms, religious curses, Wicca, the Church of John Coltrane, crimes by clergy, death without God, Christian sex manuals, the "ex-gay" movement, failed prophecies, bizarre theology, religious bowling, atheist rock and roll, "how to be a good

Christian," an entertaining look at the best (and worst) books on religion, and much more.

Making Merit, Making Art

Univ. Press of Mississippi
 The book that helped spark the retro craze for fifties architecture and introduced the term googie to the world is back! First published by Chronicle in 1986, this key survey of mid-century coffee shop and commercial architecture is still the standard work on the subject Googie Redux is a thoroughly revised and expanded edition of the classic and perennial top-selling book that rekindled the craze for 1950s coffee shop and commercial architecture.

Long derided by critics as popular folly, the style - so named after John Lautner's eccentric Los Angeles coffee shop - was emblematic of Southern California's car-oriented architecture. By the time of the first edition's debut, these buildings were being demolished by the score. Alan Hess' 1985 Chronicle book did much not only to educate, legitimize, and popularize the style that characterized this endangered architecture, but it helped spark a resurgence of interest into

midcentury modern design. Completely revised and significantly expanded in both text and images (some of them recently unearthed for this edition), this redesigned package features is still an entertaining and informative look at the rise, fall, and resurgence of the commercial architecture that changed the American landscape. Includes a greatly expanded guided tour of the iconic buildings in Southern California.

"In *Graphic Wit*, the first book offering a

comprehensive survey of humor in graphic design, Heller and Anderson focus on that special instinct for playfulness inherent in all design, and show the many forms it can take in a skilled graphic artist's hands. Loaded with examples of successful design humor in such varied forms as book and record jackets, logos, posters, typography, and advertising, *Graphic Wit* examines the approaches designers can use for comic effect, including repetition, alteration of scale, and juxtaposition,

as well as such specific mechanisms as visual puns, parody, nostalgia, wordplay, and typeplay. Case studies of successful ad campaigns reveal how humor can be used for maximum effectiveness and memorability, and in-depth interviews with 14 design luminaries, including Paul Rand, Paula Scher, and Stephen Doyle, provide insight into the play principle, making humor pay off financially, and the challenges involved in humorous design."--back cover.
