Body of Power, Spirit of Resistance Wm. B. Eerdmans Publishing

The Rise of the Prophetic Voice is an educational and revolutionary book that deals with biblical truths about the prophetic and its practical operation in our time. This book is a rare tool of the Holy Spirit, dedicated to shedding light about the prophetic to the body of Christ and to raising an end-time army of prophets for the Lord. The prophetic is the oldest and most documented ministry in the Bible, yet it is the least known in today's generation. No other ministry is known to be more effective in the Kingdom of God than the prophetic. The Bible, the most sacred book we have in the Kingdom of God, is a prophetic book; the birth of our Lord and Saviour Jesus Christ was a fulfilment of a prophetic word. God is restoring the prophetic in the church and calling all his sons and daughters to be prophetic. The world today glorifies individualism and independence from God as a pathway to freedom, rendering the very essence of God irrelevant. However, the well-informed, Spirit-led and powerful revelations in \* Rise of the Prophetic Voice \* demonstrate God's unfailing power and establishes his supremacy amongst men once again. This book will give you the biblical foundation of the prophetic, help you to discover your calling or gift in it and ignite in you its fire. Beyond all doubts, I believe this book will revolutionise the lives of its readers and restore the glory of the mighty God in the world.

The growth of Bantu Churches has been a marked feature of religious development in South Africa. In his study, Dr. Sundkler traces the development of the Bantu Churches, which seceded from the Missions or split amongst themselves. The author gives a account of the life and aspirations of these purely Bantu churches and of their leaders. Dr. Sundkler's study is concentrated on the contact which took place in these churches between the old heritage of the people and the new message of the Christian Gospel.

**The Moral Traditions of Abundant Life** Routledge

"South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. Beyond memory: recording the history, moments and memories of South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book -astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries"--Publisher's description.

When American evangelicals flocked to Latin America, Africa, Asia, and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism, their experiences abroad led them to engage more deeply in foreign policy activism at home. Lauren Frances Turek tracks these trends and illuminates the complex and significant ways in which religion shaped America's role in the late-Cold War world. In *To Bring the Good News to All Nations*, she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s, assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes, and considers how those same groups promoted the imposition of economic and diplomatic sanctions on those nations that stifled evangelism. Using archival materials from both religious and government sources, *To Bring the Good News to All Nations* links the development of evangelical foreign policy lobbying to the overseas missionary agenda. Turek's case studies—Guatemala, South Africa, and the Soviet Union—reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s. Evangelical policy work also reshaped the lives of Christians overseas and contributed to a reorientation of U.S. human rights policy. Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored, yet repressive, regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians, such as the Soviet Union. This advocacy shifted the definitions and priorities of U.S. human rights policies with lasting repercussions that can be traced into the twenty-first century.

This explosive, award-winning novella of growing up in colonial Rhodesia (now Zimbabwe), told in exquisite, imaginative prose, touches the readers nerve through the authors harrowing portrait of lives disrupted by white settlers, a young disillusioned black man, and individual suffering in the 1960s and 1970s. Marecheras raw, piercing writings secured his place in African literature as a stylistic innovator and rebel commentator of the ghetto condition. While *The House of Hunger* is the centerpiece of this collection, readers are also treated to a series of short sketches in which Marechera, with angry humor, further navigates themes of madness, violence, despair, and survival.

Have you ever come across someone who alienated himself from his family because of a so-called spiritual experience? Can you explain why a "godly dream" would make someone amputate the hands of his own sister? Have you ever had a dream where someone wanted to have an affair with you? If you answered yes to any of these questions you could be dealing with a familiar spirit. They

are a category of evil spirits whose activities have remained largely undetected because of the lack of information concerning them. As a result some Christians have become victims of these shadowy spirits with disastrous consequences. Through deception they can destroy marriages, families, and even churches. This book will reveal the nature and activities of familiar spirits by using the Scriptures, visions, and personal experience. It will help you understand, identify, and defeat them in the name of Jesus.

The author and every male member of his immediate family served in the Vietnam war. In 1988, his older brother, Elmo, died from Agent Orange-related cancers linked to his service as a Swift Boat commander during the Vietnam war. In a bitter irony, it was the actions of his father, Admiral Elmo R. Zumwalt, Jr., in ordering the spraying of Agent Orange when he commanded all US naval forces in Vietnam that sealed his brother's fate. People react differently to grief. For the author, it turned to animosity, directed against not only the war but also the enemy against whom we had fought. In 1994, traveling to Vietnam for the first time since the war, he met with Vietnamese leaders to discuss the Agent Orange issue. In doing so, it provided him with the opportunity to learn about the conflict from the perspective of those who had fought it on the other side of the battlefield. As these former enemy veterans began sharing their personal stories of hardship and tragedy—one of which was not too dissimilar from the author's own—he was struck by a stark realization. As difficult and tragic as the war had been for Americans who served, it had taken as much, if not greater, a toll on the Vietnamese. In war, there are never winners—and Vietnam was no exception. Returning to Vietnam more than 50 times to interview hundreds of North Vietnamese Army (NVA) and Viet Cong (VC) veterans, in addition to Vietnamese civilians, the author obtained a better understanding as to the extent of our former enemy's suffering during that war. The result was a metamorphosis, which changed his attitude towards a former foe. "Bare Feet, Iron Will" became the vehicle by which he shares what this metamorphosis taught him. In "Bare Feet, Iron Will" are stories of intrigue, of patience, of ingenuity, of dedication and, most importantly, about a people with no option other than victory. These stories, share unique insights about the war. Intriguing insights evolving into odd coincidences—such as what led a Vietnamese veteran to write a novel, praised by Western critics, about the war; an interview where the author would learn the interviewee had tried to assassinate his father; the earlier-than-realized first American casualty of the Vietnam conflict and what that incident would portend for US involvement. About Vietnam's allies—including China, a country with which Vietnam has fought in almost every century and how China sought at times to give the appearance of helping North Vietnam while not doing so and North Korea, which pressured to send pilots to fight the Americans, only to have Hanoi send the Koreans home, trying to hide their participation by burying North Korean pilots in an obscure cemetery. More than a generation after the war in Vietnam ended, many Americans are still haunted by its memory. More than thirty-four years after the fall of Saigon, it is time to better understand the enemy we fought and the role their "iron will" played. And with that understanding, hopefully many may find the healing they seek.

Religionen werden zunehmend als relevante Partner in der internationalen

Entwicklungszusammenarbeit betrachtet. Häufig wird dabei auf die besonderen Kapazitäten von Religionen verwiesen. Jedoch ist bisher wenig erforscht, worin die besonderen Kapazitäten von religiösen Entwicklungsorganisationen tatsächlich bestehen und wie sie diese einbringen. Welche Ressourcen setzen religiöse NGOs in der Entwicklungszusammenarbeit ein? Wie unterscheiden sie sich von anderen Entwicklungsorganisationen? Macht ihr Engagement einen wesentlichen Unterschied in der Entwicklungszusammenarbeit? Die Beiträge in diesem Band gehen diesen Fragen mittels empirischer Fallstudien und theoretischer Analysen nach. Dabei wenden sie sich unterschiedlichen Religionen und deren Entwicklungszusammenarbeit in verschiedenen Weltregionen zu und kartieren jüngste Transformationen innerhalb von Religionen. This study developed out of the personal experience of daily life that I and my family had in the years 1932-1942 among the Biak speaking people of the Radja Ampat area (Sorong), West New

Guinea. Our family had become integrated into the community as far as possible, and we used the Biak language every day. Three of the movements described in this book took place in that area, so that I was able to study them under the favorable conditions of direct participation and observation. The first edition of the book in 1954 (in Dutch) was the writer's doctoral thesis (Ph. D.), written under the guidance of the late Professor J. P. B. de Josselin de Jong. I am very grateful to the Royal Institute of Linguistics and Anthropology, Leiden, for publishing the revised English edition in its Translation Series. The Biak material deserves more readers than the Dutch edition was able to reach.
