When Mary Lennox was sent to Misselthwaite Manor to live with her uncle everybody said shewas the most disagreeable-looking child ever seen. It was true, too. She had a little thin face and alittle thin body, thin light hair and a sour expression. Her hair was yellow, and her face was yellowbecause she had been born in India and had always been ill in one way or another. Her father hadheld a position under the English Government and had always been busy and ill himself, and hermother had been a great beauty who cared only to go to parties and amuse herself with gay people.She had not wanted a little girl at all, and when Mary was born she handed her over to the care of anAyah, who was made to understand that if she wished to please the Mem Sahib she must keep thechild out of sight as much as possible. So when she was a sickly, fretful, ugly little baby she was keptout of the way, and when she became a sickly, fretful, toddling thing she was kept out of the wayalso. She never remembered seeing familiarly anything but the dark faces of her Ayah and the othernoteive servants, and as they always obeyed her and gave her her own way in everything, because theMem Sahib would be angry if she was disturbed by her crying, by the time she was six years old shewas as tyrannical and selfish a little pig as ever lived. The young English governess who came toteach her to read and write disliked her so much that she gave up her place in three months, andwhen other governesses came to try to fill it they always went away in a shorter time than the firstone. So if Mary had not chosen to really want to know how to read books she would never havelearned her letters at all.One frightfully hot morning, when

she was about nine years old, she awakened feeling very cross, and she became crosser still when she saw that the servant who stood by her bedside was not herAyah

The inspirational story of George Washington Carver and his childhood secret garden is brought to life in this picture book biography by the author-illustrator team behind *Muhammad Ali: A Champion Is Born*. When George Washington Carver was just a young child, he had a secret: a garden of his own. Here, he rolled dirt between his fingers to check if plants needed more rain or sun. He protected roots through harsh winters, so plants could be reborn in the spring. He trimmed flowers, spread soil, studied life cycles. And it was in this very place that George's love of nature sprouted into something so much more--his future. Gene Barretta's moving words and Frank Morrison's beautiful paintings tell the inspiring life and history of George Washington Carver, from a baby born into slavery to celebrated botanist, scientist, and inventor. His passion and determination are the seeds to this lasting story about triumph over hardship--a tale that begins in a secret garden. * A Texas Bluebonnet Award Book of the Year *

A Guide for Using The Secret Garden in the Classroom, Based on the Novel Written by Frances Hodgson Burnett Rosetta Books

Akademische Arbeit aus dem Jahr 2021 im Fachbereich Anglistik - Literatur, , Sprache: Deutsch, Abstract: This paper deals with the question, to what extent the "The Secret Garden" influences Mary Lennox and her cousin Colin Craven and what effects does this have on their states of mind. Life and nature are at the centre of action. Even today, the garden motif is steadily present in the literature, and it also finds a high value in children's literature. A prime example of a book in children's literature is *The Secret Garden* by Frances Hodgson Burnett, which was first published in 1911; it has been reissued on every occasion up until today. As the title suggests, the garden plays a central role in the book and seems to bring with it a mysterious aspect. The present term paper focuses on this very garden and explains how it influences the protagonists Mary Lennox and Colin Craven.

The Secret Garden Dutton Juvenile

Translated into English for the first time, *The Archeologist* is a landmark of Greek national literature, and an important document in the history of archeology and classicism. Published for the bicentennial year of the outbreak of the Greek War of Independence. A Penguin Classic The year 2021 marks the bicentennial of the outbreak of the Greek War of Independence. This historical milestone provides the impetus for a new period of intensified reflection on the past, present, and future of Greece, especially in light of recent financial and humanitarian challenges the country has found itself facing: the debt crisis that began in the last days of 2009 and the migration crisis five years later. These crises had already stirred renewed and often animated debate about Greek national identity, especially in relation to Europe, and the legacy of classical antiquity remains central to how that relationship is imagined. Where does Greece fit into the modern world and what role, if any, should its celebrated and idealized antiquity play in the country's national identity? More than a century ago, Karkavitsas's *The Archeologist* (1904) helped to articulate and frame these kinds of questions. The work is an allegory of Greek nationalism that is stylized as a folktale about Aristodemus and Dimitrakis Eumorphopoulos, two brothers and

descendants of the illustrious Eumorphopoulos line. For centuries, the family had been persecuted by the Khan family, but when the Khan dynasty starts to topple, the Eumorphopoulos family resolves to regain their ancestral lands and restore their line's ancient glory. Yet the two brothers disagree about the best path forward into the future. Aristodemus insists, to the point of mania, that they must look only to the ancient past—to the family's ancient language, texts, religion, and monuments; Dimitrakis, on the other hand, exuberantly embraces the present. The Archeologist, however, attempts to map and dramatize the tensions that were violently brewing in the Balkans at the turn of the twentieth century and which, within a decade of the work's publication, would contribute to the outbreak of World War I. Also included in this edition are a selection of "sea tales," which Karkavitsas heard from sailors during his extensive time aboard ships in the Mediterranean. Considered as indigenous to Greek literature, the four sea stories represent some of the best known of the Tales from the Prow. "The Gorgon," one of Karkavitsas's shortest sea stories, is also one of the most famous.

Return to the Secret Garden National Geographic Books Hugely successful in her own time for adult novels and plays, Frances Hodgson Burnett (1849-1924) would be astounded to find out she is remembered for a handful of books for children, but most of all for the enormously popular *Secret Garden*. This fascinating biography—the first to have the full cooperation of Burnett's descendants and relatives—examines her life with lively intelligence, sensitivity, and fascinating new, never-before-published material. Burnett's life was full of those reversals of fortune that mark her work. Following modest beginnings in mid-Victorian Manchester, she arrived in post-Civil War Tennessee at the age of fifteen with her widowed mother and two sisters. Burnett was the breadwinner of the family from the age of seventeen, eventually publishing a total of fifty-two books and writing and producing thirteen plays. She made and spent a fortune in her lifetime, was generous and profligate, yet anxious about money and obsessively hardworking. Constantly restless and inventive, Burnett's personal life was as complex as her professional one. Her first marriage to a southern doctor disintegrated as a result of her notorious flirtations and a scandalous affair, and her subsequent marriage to an English doctor turned actor suffered a similar fate. She understood the intensity and loneliness of the thoughtful child, but was herself a largely absent mother of two sons—overwhelmed by guilt when tragedy struck one of them; the other one never got over being

the model for Little Lord Fauntleroy. A woman of contrasts and paradoxes, this quintessentially British writer was equally at home in the United States, which honored her with a memorial in Central Park. Frances Hodgson Burnett reinvented for herself and for generations to come in both countries the magic and the mystery of the childhood she never had.
