Hearing, Sound, and the Auditory in Ancient Greece represents the first wide-ranging philosophical study of the role of sound and hearing in the ancient Greek world. Because our modern western

culture is a particularly visual one, we can overlook the significance of the auditory which was so central to the Greeks. The fifteen chapters of this edited volume explore "hearing" as being philosophically significant across numerous texts and figures in ancient Greek philosophy. Through close analysis of the philosophy of such figures as Homer, Heraclitus, Pythagoreans, Sophocles, Empedocles, Socrates, Plato, Aristotle, Hearing, Sound, and Auditory in Ancient Greece presents new and unique research from philosophers and classicists that aims to redirect us to the ways in which sound, hearing, listening, voice, and even silence shaped and reflected the worldview of ancient Greece.

This collection of short stories, anecdotes, and poems was likely compiled during the 13th century. Tales of romantic love—including courtship, marriage, and illicit affairs—unify the collection and make it an essential primary source for literary and social history, since official Chinese history sources did not usually discuss family conflict or sexual matters. This volume, the first complete translation of *The Drunken Man's Talk* (Xinbian zuiweng tanlu) in any language, includes an introduction that explores the literary significance of the work as well as annotations explaining the symbolism and allusions found in the stories.

Over the past few decades, the book series *Linguistische Arbeiten* [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we

invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.

Oscar Wilde was already one of the best known literary figures in Britain when he was persuaded to turn his extraordinary talents to the theatre. Between 1891 and 1895 he produced a sequence of distinctive plays which spearheaded the dramatic renaissance of the 1890s and retain their power today. The social comedies, *Lady Windermere's Fan*, *A Woman of No Importance*, and *An Ideal Husband*, offer a moving as well as witty dissection of society and its morals, with

a sharp focus on sexual politics. By contrast, the experimental, symbolist *Salome*, written originally in French, was banned for public performance by the English censor. His final dramatic triumph was his 'trivial' comedy for serious people, *The Importance of Being Earnest* arguably the greatest farcical comedy in English. Under the General Editorship of Dr Michael Cordner of the University of York, the texts of the plays have been newly edited and are presented with modernized spelling and punctuation. In addition, there is a scholarly introduction and detailed annotation. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's

commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Examining prisons from the perspectives of sociology, theology, history, and biblical exegesis, Griffith argues that the church has taken a woefully wrong turn by aligning itself with the traditional justice system. He shows how prisons are clearly ineffective at deterring crime and rehabilitating offenders and maintains that Christians should be even more concerned with how the prison fails in principle than how it fails in practice.
