Diary of an 8-Bit Warrior: Crafting

Alliances Random House Books for Young Readers

The mysterious Herobrine somehow enters our Human world. Well, he really had no choice but to come to our world... But maybe Herobrine isn't that much different to you and me. Being a twelve-year-old kid, Herobrine enrolled into a Human school... and he is nervous. Being the new kid at school is hard, especially if the normal Humans you interact with are all scared of you. How will Herobrine get through his first few days of school? What kind of trouble will he get himself into?

Overworld in Flames Simon and Schuster

A massive war in Minecraft's past will determine the fate of the present! One hundred years in Minecraft's past, foiled

by a time-traveling Gameknight999, the evil virus Herobrine has gone mad with rage. Now determined to wipe every NPC alive off the server as punishment for meddling with his plans, he crafts a new monster king to lead a devastating aerial assault. Gameknight, his true identity still a secret, is stunned when a vicious ghastron army, commanded by a terrifying monster that the User-that-is-not-a-user remembers all too well, arrives at the village he's protecting and unleashes wave after wave of unthinkable terror. With his army overpowered and outnumbered, Gameknight realizes they have no chance of defeating Herobrine and this new army out in the open Overworld. If he's to save Minecraft from complete annihilation (which would destroy everyone in the present day as

well) he'll need to turn the tables on his greatest nemesis. As the forces of darkness slowly close in around them, one question remains: Will he defeat this enemy before the future of Minecraft is changed forever? Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national

bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

If he is able to escape the game and get online, Herobrine will infect millions of computer

systems and turn machines and weapons on their masters, threatening all of humanity. After facing Herobrine in battle and nearly dying, Gameknight realizes he's going to need much more help to defeat this seemingly invincible enemy. His NPC friends tell him of the ancient Oracle residing in the oldest jungle temple in Minecraft who knows the secret to defeating this terrible threat. The path to the temple is fraught with danger, with zombies, spiders, and creepers lying in wait behind every tree and bush. Gameknight will enlist the help of his friends on his quest, but will they reach the Oracle in time to stop Herobrine? Minecraft: Blockopedia Simon and Schuster

The final battle to defeat Herobrine will take Gameknight999 over land and under water! Herobrine is rallying all the monsters of Minecraft to one server in hopes of eliminating Gameknight999 and his friends once and for all. They destroy every village they find, threatening to continue until the User-that-is-not-a-user surrenders.

Gameknight has just two things: the Oracle's command to seek out the lost ocean monument and an impenetrable riddle: "Look to the lowliest and most insignificant of creatures, for that is where your salvation will lie." Haunted

by this seemingly useless clue, Gameknight searches for the mysterious underwater lair where the Book of Wisdom is hidden, which he is told holds the secret to the riddle and the key to defeating Herobrine. But at every turn lies a massive army of monsters. With no map to guide them, Gameknight and his friends will fight for their lives to reach the deep ocean destination, and a terrifying creature awaits them there. The Mystery of Herobrine series comes to an explosive conclusion on the shores of Minecraft, where one false move could spell the end for Gameknight999 and company! Invasion of the Overworld Simon and Schuster

Dan is playing Minecraft with his friends, like he always does, when a strange figure, white from head-to-toe,

approaches him in the game and drops a book at his feet. Cautiously, Dan reads the book: it's an invitation, to a school. A school for only the very best Minecraft players in the country. It has to be a trick. It's probably just a joke from one of his friends. Dan is thinking just that, when there's a knock at the door. A strange woman, dressed in all white, has arrived at Dan's front door. She introduces herself to his bewildered mom and dad with her angelic voice. Her name is Ms. Fennerby and she's a teacher at Herobrine Middle School, an academy for children gifted in the game of Minecraft. Dan has been selected as one of the builders and designers of his generation. It all seems too good to be true. And maybe it is... Herobrine Middle School is a thrilling middle school

adventure filled with real emotions, page-turning excitement and characters that will jump off the page and make you laugh. It is Spy Kids and Harry Potter and The Hunger Games, all set to the backdrop of the mysterious world of Minecraft. Perfect for readers age eight to fourteen with a story that will excite all lovers of Minecraft. Excerpt "DAAANNNNN! It's dinner time!" the voice echoed up the stairs. "I'll be right down!" Dan yelled back. "I've just got to save the world!" Dan's mom, who was making a racket in the kitchen that made Dan think she was throwing every pot on the ground, didn't respond. That was okay. Dan didn't want to have to explain anyways. He was saving the world. Well... a world. The Minecraft world that he and a couple friends had

been working on for over a year. They had magnificent houses and had built huge statues of their avatars in the game. Dan's pride and joy was built on the server too: The Cow Cannon 2000. The Cow Cannon 2000 did... well it did exactly what you would expect it to. It fired cows at blinding speed into the far away expanses of Minecraft. It fired them so far that Dan and his friends had never found any remains of the cows or the mine carts that they were fired in. The best part is that the machine worked automatically. It lured cows to the machine and then fired them off as soon as they got close enough. Dan was incredibly proud of it. A work of art, he told himself. And, really, everything had been perfect in that huge-housed, massive-statued, cow-raining world, until

the griefers had shown up. Somehow, a bunch of older kids had found the server and at first it was fine. They built their own stuff. That was fine. But soon they were bored of that and started destroying anything and everything they could find. Dan had urged his friends to just not react. The griefers would get bored, he thought, and leave them alone. But they didn't get bored. So, it was time to take more drastic measures. The griefers' next target was Platinum Plateau where Dan's friends' houses were built, along with the Cow Cannon 2000. Dan wasn't going to let the griefers anywhere near it. He had spent the last week building a series of "secret" entrances to the plateau via mine cart. The idea was that the griefers would find the "secret" entrances and

not be able to resist riding the mine carts into the centre of the plateau to surprise Dan and friends. But little did they know that the mine cart would take them right to the Cow Cannon 2000, and before they knew it, BAM! They'd be taking a free flight, courtesy of Dan airlines. What are you waiting for? Get reading!
