In June of 1979, Peter
Levenda flew to
Chile—then under martial
law—to investigate claims
that a mysterious colony
and torture center in the

Andes Mountains held a
key to the relationship
between Nazi ideology
and its post-war survival
on the one hand, and
occult ideas and practices
on the other. He was
detained there briefly and
released with a warning:
“You are not welcome in
this country.” The people
who warned him were not
Chileans but Germans,
not government officials
but agents of the
assassination network
Operation Condor. They
were also Nazis, providing
a sanctuary for men like
Josef Mengele, Hans-
Ulrich Rudel, and Otto
Skorzeny. In other words:
ODESSA. Published in
1995, *Unholy Alliance* was
the first book in English
on the subject of Nazi
occultism to be based on
the captured Nazi

archives themselves, as
well as on the author's
personal investigations
and interviews, often
conducted under
dangerous conditions. The
book attracted the
attention of historians and
journalists the world over
and has been translated
into six languages. A later
edition boasts the famous
foreword by Norman
Mailer. How did occultism
come to play such an
important role in the
development of Nazi
political ideology? What
influence did such
German and Austrian
occult leaders as Lanz von
Liebenfels and Guido von
List have over the
fledgling Nazi party? What
was the Thule
Gesellschaft, and who was
its creator, Baron von
Sebottendorf? Did the

Nazi high command really believe in occultism? In astrology? In magic and reincarnation? This is a new and expanded edition of the original text, with much additional information on the rise of extremist groups in Europe, Latin America, Asia, and the United States and the esoteric beliefs that are at their foundations. It is the first book in a trilogy that includes *Ratline* and *The Hitler Legacy*. This is where it all began.

The Devil's Party

University of Chicago Press

Thee Temple ov Psychick Youth (TOPY) will be remembered for its crucial influence on youth culture throughout the 1980s, popularizing tattooing, body piercing, "acid house" raves, and other ahead-of-the-curve cultic flirtations and investigations. Its leader was Genesis P-Orridge, co-founder of *Psychick TV* and *Throbbing Gristle*, the band that created the industrial music genre. The limited signed cloth edition of *Thee Psychick Bible* quickly sold out, creating demand for any edition of this 544-page book, which will be available in a handsome Smyth-sewn paperback edition with flaps and

ribbon. According to author Genesis Breyer P-Orridge, "this is the most profound new manual on practical magick, taking it from its Crowleyan empowerment of the Individual to a next level of realization to evolve our species."

Cult and Ritual Abuse

Baker Books

To his followers, L Ron Hubbard was a war hero and spiritual leader who served his country with distinction in World War II, suffering terrible injuries in the line of duty before miraculously healing himself with his revolutionary mental techniques - Dianetics and Scientology. *RON THE WAR HERO* examines the truth behind the legend and asks some awkward questions. What if there were no injuries? What if Hubbard was not, in fact, a war hero at all? What if his time in the military was marked not by bravery but by incompetence? By hubris rather than heroism? As Scientology's own spokesman has admitted, it would mean that Scientology is based on a lie. It would mean that Hubbard's supposed recovery never happened and that his claims about the foundations of Scientology are

fraudulent. Drawing on previously unpublished documents and US government records, *RON THE WAR HERO* is a forensic and devastating portrait of the deceit at the heart of Scientology - a lie that has ruined so many lives, and persists to this day.

The Kingdom of the Cults

Nicolas-Hays, Inc.

Attack exposes Hubbard's bizarre imagination and behavior, tracing the creation of Scientology in the years following World War II to perhaps its final schism following Hubbard's death in 1986. A shocking book that reveals all: the abuses, falsehoods, paranoia, and greed of Hubbard and his pseudo-military Scientologist henchmen.

THE PSYCHICK BIBLE

Princeton University Press

This personal yet scholarly journey into the confusing and clandestine world of ritual abuse survivors sheds light on their catastrophic experiences and their efforts to heal afterward. Revised, updated, and expanded, this third edition of a classic study is one of the most authoritative and evenhanded volumes to tackle its hotly debated subject matter.

Incorporating the authors'

firsthand observations, the book provides historical, anthropological, and psychological context for contemporary reports of both ritual abuse and ritual crime. In addition to sharing patient vignettes and a history of cult and ritual abuse in society, the authors explore fascinating topics related to these practices, among them what triggers personality shifts for victims even many years after the abuse has stopped. Importantly, the book shows how ritual abuse affects society as a whole, influencing civil and criminal law, politics, legislation, social movements, social welfare, and psychological theory. It provides unique insights into the scientific study, forensic investigation, and implementation of social services for survivors of cult and ritual abuse, discusses new research and treatment strategies, and establishes the foundation for a psychological diagnosis to be called Cult and Ritual Trauma Disorder.

Giving the Devil his Due
Harper Collins

A hundred years ago, the writer and philosopher William James wrote *The Varieties of Religious Experience*, a seminal

work that has inspired generations of scholars and eccentrics alike. James's book argues that the religious spirit in man is best understood through the study of its most extreme forms. *Varieties* was a watershed effort: a bestselling portrait of history's pluralism and a defense of the spiritual quest, in all its guises, against the era's increasingly secular sentiments. Today, with all the old tensions between skeptics and believers still in place, J. C. Hallman pays homage to James's exploration of offbeat religious movements. But where James relied on the testimony and biographies of prophets and mystics, Hallman travels directly to some of America's newest and most unusual religions, trekking from Druid circles in the mossy hills of northern California to the gleaming mother church of Scientology, from lurid satanic cellars in undisclosed locations to a professional-wrestling ministry in the fundamentalist heart of Texas. Along the way, he participates in a variety of rites and reports on a broad spectrum of beliefs. Eventually Hallman adopts James as his

patron saint, spiritual adviser, and intellectual companion on the journey that will culminate in the creation of this book, a compelling combination of adventure and biography, spotted with hair-raising predicaments and rife with poignant portraits of unforgettable characters, including William James himself. *The Devil Is a Gentleman* maps the spiritual contours of modern American pluralism and examines the life and legacy of one of its most profound architects. From the Hardcover edition.

Oxford University Press

Tom Cruise and John Travolta say the Church of Scientology is a force for good. Others disagree. Award-winning journalist John Sweeney investigated the Church for more than half a decade. During that time he was intimidated, spied on and followed and the results were spectacular: Sweeney lost his temper with the Church's spokesman on camera and his infamous 'exploding tomato' clip was seen by millions around the world. In THE

CHURCH OF FEAR

Sweeney tells the full story of his experiences for the first time and paints a devastating picture of this strange organisation, from former Scientologists who tell heartbreaking stories of families torn apart and lives ruined to its current followers who say it is the solution to many of mankind's problems. This is the real story of the Church by the reporter who was brave enough to take it on.

This book claims to unravel history with an "E-Meter", describing what the author believes are the principal "incidents on the whole track to be found in any human being". These incidents include electronic implants, entities, the genetic track, between-lives incidents, the relationship of the Genetic Entity to Theta Beings, and so on. Also presented are Hubbard's theory of how bodies evolved and why human's got trapped in them as well as his descriptions of how specific incidents reveal "the true story of between-lives" and "the insidious nature of electronics in enslaving

thetans".

The Ultimate Evil Wiley-Blackwell

Scientology's long and complex journey to recognition as a religion Scientology is one of the wealthiest and most powerful new religions to emerge in the past century. To its detractors, L. Ron Hubbard's space-age mysticism is a moneymaking scam and sinister brainwashing cult. But to its adherents, it is humanity's brightest hope. Few religious movements have been subject to public scrutiny like Scientology, yet much of what is written about the church is sensationalist and inaccurate. Here for the first time is the story of Scientology's protracted and turbulent journey to recognition as a religion in the postwar American landscape. Hugh Urban tells the real story of Scientology from its cold war-era beginnings in the 1950s to its prominence today as the religion of Hollywood's celebrity elite. Urban paints a vivid portrait of Hubbard, the enigmatic founder who

once commanded his own private fleet and an intelligence apparatus rivaling that of the U.S. government. One FBI agent described him as "a mental case," but to his followers he is the man who "solved the riddle of the human mind." Urban details Scientology's decades-long war with the IRS, which ended with the church winning tax-exempt status as a religion; the rancorous cult wars of the 1970s and 1980s; as well as the latest challenges confronting Scientology, from attacks by the Internet group Anonymous to the church's efforts to suppress the online dissemination of its esoteric teachings. The Church of Scientology demonstrates how Scientology has reflected the broader anxieties and obsessions of postwar America, and raises profound questions about how religion is defined and who gets to define it. *Science of Survival* Merriam-Webster "Since time immemorial, people have preached the necessity to live by the tenets of honesty, compassion and decency that integrity is the only foundation upon which true life itself is

built. But no matter how well Man has intuitively known this, none could point the way to achieve it. Is it any wonder, then, that the very subject of ethics has become either what one can get away with or what's good for oneself alone? One can't live in a world where ethics itself is a charade and where justice has become a mockery of civilization. Here, then, is a brand-new look, a way for an individual to pull oneself up, for a society to reverse its downward slide, for Man to ascend to the heights of a dreamed-for destiny. For contained in this book are the breakthroughs that bring understanding to the subjects of right and wrong, good and bad, death and survival."

The Devil Is a

Gentleman Feral House
What is a cult? Why do they emerge? Who joins them? And why do tragedies such as Waco and Jonestown occur? This reader brings together the voices of historians, sociologists, and psychologists of religion to address these key questions about new religious movements. Looks at theoretical explanations for cults, why people join and what happens when they do.

Brings together the best work on cults by sociologists, historians, and psychologists of religion. A broad-ranging, balanced and clearly organized collection of readings. Includes coverage of topical issues, such as the 'brainwashing' controversy, and cults in cyberspace. Section introductions by the editor situate the nature, value, and relevance of the selected readings in context of current discussions.

Satanism Oxford

University Press
The definitive firsthand account of the groundbreaking research of Philip Zimbardo—the basis for the award-winning film *The Stanford Prison Experiment*. Renowned social psychologist and creator of the Stanford Prison Experiment Philip Zimbardo explores the mechanisms that make good people do bad things, how moral people can be seduced into acting immorally, and what this says about the line separating good from evil. *The Lucifer Effect* explains how—and the myriad reasons why—we are all susceptible to the lure of "the dark side." Drawing on examples from history as well as his

own trailblazing research, Zimbardo details how situational forces and group dynamics can work in concert to make monsters out of decent men and women. Here, for the first time and in detail, Zimbardo tells the full story of the Stanford Prison Experiment, the landmark study in which a group of college-student volunteers was randomly divided into "guards" and "inmates" and then placed in a mock prison environment. Within a week the study was abandoned, as ordinary college students were transformed into either brutal, sadistic guards or emotionally broken prisoners. By illuminating the psychological causes behind such disturbing metamorphoses, Zimbardo enables us to better understand a variety of harrowing phenomena, from corporate malfeasance to organized genocide to how once upstanding American soldiers came to abuse and torture Iraqi detainees in Abu Ghraib. He replaces the long-held notion of the "bad apple" with that of the "bad barrel"—the idea that the social setting and the system contaminate the individual, rather than the other way around. This is

a book that dares to hold a mirror up to mankind, showing us that we might not be who we think we are. While forcing us to reexamine what we are capable of doing when caught up in the crucible of behavioral dynamics, though, Zimbardo also offers hope. We are capable of resisting evil, he argues, and can even teach ourselves to act heroically. Like Hannah Arendt's Eichmann in Jerusalem and Steven Pinker's *The Blank Slate*, *The Lucifer Effect* is a shocking, engrossing study that will change the way we view human behavior. Praise for *The Lucifer Effect* "The Lucifer Effect will change forever the way you think about why we behave the way we do—and, in particular, about the human potential for evil. This is a disturbing book, but one that has never been more necessary."—Malcolm Gladwell "An important book . . . All politicians and social commentators . . . should read this."—*The Times* (London) "Powerful . . . an extraordinarily valuable addition to the literature of the psychology of violence or 'evil.'"—*The American Prospect* "Penetrating . . . Combining a dense but readable and often

engrossing exposition of social psychology research with an impassioned moral seriousness, Zimbardo challenges readers to look beyond glib denunciations of evil-doers and ponder our collective responsibility for the world's ills."—*Publishers Weekly* "A sprawling discussion . . . Zimbardo couples a thorough narrative of the Stanford Prison Experiment with an analysis of the social dynamics of the Abu Ghraib prison in Iraq."—*Booklist* "Zimbardo bottled evil in a laboratory. The lessons he learned show us our dark nature but also fill us with hope if we heed their counsel. *The Lucifer Effect* reads like a novel."—Anthony Pratkanis, Ph.D., professor emeritus of psychology, University of California
The Expert Witness
 Random House
 A definitive reference volume on cults, major fundamentalist religions, and non-Christian faiths includes coverage of the Jehovah's Witnesses, Mormonism, and Hinduism, outlining their major beliefs while offering advice on countercult ministry.
The Church of Fear
 Booksllc.Net

The late Anton Szandor LaVey, founder of the Church of Satan, may be the most notoriously familiar for his *Satanic Bible*, but *The Satanic Witch* best reflects the discoveries Anton made in his younger days working the carny shows and Mitt Camps. This is undiluted Gypsy lore regarding the forbidden knowledge of seduction and manipulation. *The Satanic Witch* is not designed for Barbie Dolls, but women cunning and crafty enough to employ the workable formulas within, which instantly surpass the entire catalogue of self-help tomes and New Age idiocies. The Introduction — Peggy Nadramia, High Priestess of the Church of Satan, tells us how this book changed her life. The Afterword — Blanche Barton, Anton LaVey's biographer, Chairmistress of the Council of Nine, and mother of Satan Xerxes Carnacki LaVey, Anton's third child, informs us how *The Satanic Witch* came to pass and influence the behavior of so many women.

The Lucifer Effect

Random House Trade Paperbacks

The ideal book for people who want to increase their word power. Thorough

coverage of 1,200 words and 240 roots while introducing 2,300 words. The Vocabulary Builder is organized by Greek and Latin roots for effective study with nearly 250 new words and roots. Includes quizzes after each root discussion to test progress. A great study aid for students preparing to take standardized tests.

Scientology, a History of Man Gill & Macmillan Ltd

In the beginning, the World Wide Web was exciting and open to the point of anarchy, a vast and intimidating repository of unindexed confusion. Into this creative chaos came Google with its dazzling mission—"To organize the world's information and make it universally accessible"—and its much-quoted motto, "Don't be evil." In this provocative book, Siva Vaidhyanathan examines the ways we have used and embraced Google—and the growing resistance to its expansion across the globe. He exposes the dark side of our Google fantasies, raising red flags about issues of intellectual property and the much-touted Google Book Search. He assesses

Google's global impact, particularly in China, and explains the insidious effect of Googlization on the way we think. Finally, Vaidhyanathan proposes the construction of an Internet ecosystem designed to benefit the whole world and keep one brilliant and powerful company from falling into the "evil" it pledged to avoid.

An in-depth presentation of Study Technology. Learn the reasons for academic failures, as well as how to identify the barriers to learning and vital remedies for handling each of them. This book can be studied by middle and high school students and adults to improve their ability to use what they study, and also professionals to improve their competence in the workplace. Fully illustrated.

Aleister Crowley and Western Esotericism

HarperCollins UK

David Icke's strongest book to date, *The Robots' Rebellion* reveals the alarming extent to which people of all nations are programmed by the ideas fed to them by those in power. We live in a world which is increasingly

dominated by technology but, according to Icke, it is we who are the robots. Fearlessly, he tears down the veils of hypocrisy, built up for generations by the corrupt forces of Church, State, science and commerce — and reveals the true pathos of the human condition beneath. He points, too, to the frightening influence wielded throughout the planet by a merciless and manipulative network of secret societies. The existence of long-established links between Earth-bound humanity and beings from other dimensions and planets in the Universe has been suppressed for years, says Icke, by the world's power-broking hierarchy. When ordinary people learn the real role they have to play within a rich and varied cosmic society, rebellion against those who have kept this extraordinary truth from them will, he predicts, be inevitable. The author is no stranger to controversy. Formerly best-known as a TV sports commentator and leading spokesman for the British Green Party, he is gaining increasing authority as a tireless campaigner for truth. His widely-publicised spiritual

transformation has given him the courage to speak out fearlessly against lies and deceit. Hidebound politicians, bankers, economists, educationalists, scientists and the leaders of the world's established religions are not going to welcome Icke's challenging book. But it is not intended for those who wield and abuse power. This book is for the

world's unwilling robots who, says Icke, in an upbeat conclusion, have it within themselves to rise up — and take control of their own exciting destiny. The Robots' Rebellion: Table of Contents Introduction Remember Who You Are PART ONE: The Darkness - The Takeover Bid - Collective Amnesia - The Brotherhood of Clans -
