Story of Lazarus Beginner's Bible

The book does not contain the opinions of the Author, nor quotations from other writers, but is based solely on the Scriptures, chapter and verse being given for every statement. The book is "Timely" in these days of Apostasy and denial of THE FAITH. -from the Foreword The Reverend Clarence Larkin was one of the most widely influential Christian fundamentalists of the early twentieth century, and his writings remain key to appreciating the conservative religious thought that today enjoys widespread popularity. This 1920 work outlines the fundamental doctrines of Christianity as revealed by the Bible, from "The Mystery of Godliness" to "Election and Free-will." Numerous charts and illustrations explain "The Five Great World-Wide Kingdoms," "The Threefold Nature of Man," "The Satanic Trinity," and more. Also available from Cosimo Classics: Larkin's The Spirit World, The Second Coming of Christ, and The Book of Revelation.

What are the most popular names of the Ambo people in Namibia? Why do so many Ambos have Finnish first names? What do the African names of these people mean? Why is the namesake so important in Ambo culture? How did the nation's long struggle for independence affect personal naming, and what are the latest name-giving trends in Namibia? This study analyses the changes in the personal naming system of the Ambo people in Namibia over the past 120 years, starting with 1883, when the first Ambos received biblical and European names on baptism.

The central factors in this process were the German and South African colonisation and European missionary work on the one hand, and the rise of African nationalism on the other. Eventually, this clash between African and European naming practices led to a new, dynamic naming system which includes elements of both African and European origin. "Within the field of onomastics, i.e. the scientific study of names, this study is a remarkable and extremely important one. ... I suspect that it will become a major and standard reference work in the future, not only regarding Ambo anthroponymy, but anthroponymy in general, particularly where cultures interact." Professor S. J. Neethling, University of the Western Cape, South Africa
