The first text on bloodletting therapy for Western practitioners of Chinese medicine, this authoritative text explores the theory and function of bloodletting, and provides detailed instruction on its clinical use. Bloodletting therapy, which works to remove internal and external disruptions to the system through the withdrawal of small quantities of blood, has numerous benefits, especially concerning the treatment of complex or chronic disease. Yet the technique is often met with alarm in the West and side-lined in favour of less controversial treatments such as fine-needle acupuncture, and moxibustion. This book provides a concise overview of its theory, historical and contemporary relevance, and clinical guidance. With detailed reference to the classic texts, the author clarifies the fundamental Chinese medical theory related to blood and the network vessels, and provides an in-depth discussion of the benefits of and practice guidelines for bloodletting. The book includes a chapter on the classical acupuncture techniques of Tung Ching Chang whose work is attracting increasing attention in the West. Through the exploration of classic texts and contemporary standards, the book provides everything needed to gain a comprehensive understanding of the technique and to encourage its use as a viable treatment option in the West. It will be an invaluable addition to the resources available for acupuncturists, as well as students and practitioners of Chinese medicine more generally, including those interested in all Chinese approaches to health.

An essential guide to building transformative movements to address the challenges of our time, from one of the country's leading organizers and a co-creator of Black Lives Matter "Excellent and provocative . . . a gateway [to] urgent debates."—Keeanga-Yamahtta Taylor, *The New Yorker* NAMED ONE OF THE BEST BOOK OF THE YEAR BY Time • Marie Claire • Kirkus Reviews In 2013, Alicia Garza wrote what she called "a love letter to Black people" on Facebook, in the aftermath of the acquittal of the man who murdered seventeen-year-old Trayvon Martin. Garza wrote: Black people. I love you. I love us. Our lives matter. With the speed and networking capacities of social media, #BlackLivesMatter became the hashtag heard 'round the world. But Garza knew even then that hashtags don't start movements—people do. Long before #BlackLivesMatter became a rallying cry for this

generation, Garza had spent the better part of two decades learning and unlearning some hard lessons about organizing. The lessons she offers are different from the "rules for radicals" that animated earlier generations of activists, and diverge from the charismatic, patriarchal model of the American civil rights movement. She reflects instead on how making room amongst the woke for those who are still awakening can inspire and activate more people to fight for the world we all deserve. This is the story of one woman's lessons through years of bringing people together to create change. Most of all, it is a new paradigm for change for a new generation of changemakers, from the mind and heart behind one of the most important movements of our time.
