500 Ways to Learn English Notion Press
Language learning, which is a conscious process, is the product of either a formal learning situation or a self-study programme (Kramina, 2000: 27). Language learning begins at birth and continues throughout life. People learn languages as they use it to communicate their thoughts, feelings, and experiences establish relationships with family members and friends, and strive to make sense and order of their world. By learning and

incorporating new language structures into their repertoire and using them in a variety of contexts, people develop language fluency and proficiency. Opportunities to learn language occur first at home and it extends as children move into the larger community. Schools provide environments where students continue to develop language knowledge, skills and strategies to achieve personal, social, and academic goals. 'Languages learning made easy' is a great contribution made by the present author. It is a huge compilation of languages related rules, structures, and, pictorial presentations. It is a self-study guide for many who aspire to communicate in many

languages. One language serves as scaffolding for another language while learning the grammatical rules and structures. Therefore, learners can acquire languages at ease and progress stage by stage with determination. The material also covers several topics related to daily life and living environments. Having gained the basic knowledge of the words related to everyday life, learners would be able to communicate with others without any hesitation. Therefore, it is highly recommended that learners who wish to become multi-linguists must own a copy of it and immerse in joyful learning.

Kittel's Kannada-English Dictionary

Paradise Lost S. Chand Publishing

In today's competitive world, Spoken English is considered as a passport for success in life. The craze for learning spoken English has led to the growth of coaching institutes all over the country. Much as they may profess and advertise, it is not really possible to learn any language in 30 days. A person who genuinely wants to learn the language needs to spend two to three hours every day for at least five or six months before he or she would feel confident to communicate in English. The prime objective of this book is to encourage students to learn English as a tool of communication and to enable them to

understand the language thoroughly. The book basically takes off from the learner's point of view and guides them through cooperative learning methods in order to help master the effective communication skills in English. The book has been divided into four convenient units of Grammar, Pronunciation, Conversation and Vocabulary. Each chapter covers one main area of learning English - explained with examples. Carefully selected and graded exercises have also been included throughout the book to give readers ample practice and a complete understanding of the subject. In short, the book follows the

modern functional approach to the study of English. So readers,

it is definitely a one-stop solution for speaking English!
