## EVELYN MCCARTY

### Twelve Years a Slave NorthSouth (NY)

Glory be to God on high, and thanksgiving, and the voice of praise, who at one time by the mysteries of prophecy, at another by oracles from Heaven, again by the reading of the Gospel, and now by the mouth of preachers, in many ways and by divers channels, most sincerely urges and invites us to honor the Virgin Mary, the Queen of Heaven and of the Angels; that by her holy merits, most worthy of all acceptance, we, being delivered from the depths of hell, may be inscribed by her in the ranks of the angels. Mobility and Locational Disadvantage Within Australian Cities  
Springer Nature

An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column "Store-Bought Is Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. The Austrian School of Economics was founded by Carl Menger in Vienna during the last third of the nineteenth century. From that time until today, its vibrant teaching tradition has had a significant influence on the formation and further development of the modern social sciences and economics in Europe and the United States. Its research agenda was characterized by an astonishing multitude of diverse, and in some cases even contradictory, conclusions. All branches of the school shared the conviction that the subjective feelings and actions of the individual are those which drive economic activity. Based on this conviction, explanations for economic phenomena such as value, exchange, price, interest, and entrepreneurial profit were derived, and step by step expanded into a comprehensive theory of money and business cycles. Because of their subjectivist-individualistic approach, economists of the Austrian School regarded any kind of collective as unscientific in rationale. This led to fierce arguments with the Marxists, the German Historical School, and later with the promoters of planned economy and state interventionism. In the modern Austrian School of Economics, questions regarding knowledge, monetary theory, entrepreneurship, the market process, and spontaneous order placed themselves in the foreground. This book endeavors to trace the development of this multifaceted tradition, with all of its ideas, personalities, and institutions.

First published in the late 19th century, this book is truly a work of remarkable coherence, comprehensiveness and depth of understanding. Steinbrecht's reputation as a master in the art of dressage makes *The Gymnasium of the Horse* a cornerstone of equestrian literature. Originally published in German; this translation from the 10th German edition by Helen K. Gible, into English. Sections are: Rider's Seat and Aids; Purpose of Dressage; Systematic Training of the Horse; School Movements; Epilogue. Scarce title and long awaited for the many dressage enthusiasts who are familiar with the thoroughness with which Steinbrecht first addressed this topic.

In this sneaky, silly picture book for fans of Oliver Jeffers and Jon Klassen, an intrepid—but not so clever—space explorer is certain he's found the only living thing on Mars A young astronaut is absolutely sure there is life to be found on Mars. He sets off on a solitary mission, determined to prove the naysayers wrong. But

when he arrives, equipped with a package of cupcakes as a gift, he sees nothing but a nearly barren planet. Finally, he spies a single flower and packs it away to take back to Earth as proof that there is indeed life on Mars. But as he settles in for the journey home, he cracks open his cupcakes—only to discover that someone has eaten them all! Readers will love being in on the secret: Unbeknownst to the explorer, a Martian has been wandering through the illustrations the whole time—and he got himself a delicious snack along the way.

Back in the 1970s, Las Vegas was a playground, not only for the rich and famous, but for anyone with big dreams. Beneath its public glamour and glitz was the private monarchy of Elvis Presley. Most people could only imagine what it was like to be a part of Elvis's world back then, but I lived it. I have written this book without bias or self-proclamation so that I may share the story of what was with those of you who loved him then and those of you who still love and respect him today.

Presenting the latest iteration of this crucial exhibition, always a barometer of contemporary American art The 2022 Whitney Biennial is accompanied by this landmark volume. Each of the Biennial's participants is represented by a selected exhibition history, a bibliography, and imagery complemented by a personal statement or interview that foregrounds the artist's own voice. Essays by the curators and other contributors elucidate themes of the exhibition and discuss the participants. The 2022 Biennial's two curators, David Breslin and Adrienne Edwards, are known for their close collaboration with living artists. Coming after several years of seismic upheaval in and beyond the cultural, social, and political landscapes, this catalogue will offer a new take on the storied institution of the Biennial while continuing to serve—as previous editions have—as an invaluable resource on present-day

trends in contemporary art in the United States.

**Natural Value** HBR Insights

Think! Different is a different kind of self-help book: the author, Andreas Boskugel, is well-known in Europe and appreciated for his clear and direct manner. Boskugel has taken the law of attraction to its systematic and logical conclusion! This book is completely

free of otherwise typical references to moral or religious "standards" because the law of attraction - like all natural laws - isn't based on morality or religion. Consequently the author has a very different take than do others on success; for example, he doesn't idolize hard work, honesty and gratitude ad absurdum, for these are only religious and cultural based opinions and actually contradict the law of attraction. The author also forgoes otherwise typical teachings about what is right or wrong; after all, what is "right" is individually defined. Feigned pity or morality sermons are also not included in this work. This work is for those who love the integrity of the law of attraction and prefer clarity over political correctness. And it's for those who really want to get somewhere in life and who therefore question existing opinions.

It's for people who are able to think on their own instead of going with the flow. For many, it was not until reading this book that they finally understood the law of attraction, for the topics in this book are more logically organized than in other popular works, and insights are offered that can dramatically improve the lives of readers. Completely new insights about the existing laws of life can help readers become invincible masters of their own destiny. Keywords: Law of Attraction, Self-Help, Success, Wealth, Dream, Wish Fulfillment, Love, Relationship, Money
