STEPHENSON GARZA

The Human Tradition in Modern Europe, 1750 to the Present S. Chand Publishing
Drawing on Council of Europe material and his long experience of teaching and observing history in schools, the author attempts a definition of 'Europe', asks whether Europeans have anything in common and what is new about the 'New Europe'. In particular, he asks why young Europeans should learn history at all. If so, what kind and how? For what, and whose, purposes? And who decides what pupils learn? Teaching History in the New Europe was prompted by an influential symposium entitled 'History Teaching in the New Europe'. It will be invaluable to all those who are concerned with teaching history, as well as having an interest in European history and culture.

First published over thirty years ago, *War in European History* is a brilliantly written survey of the changing ways that war has been waged in Europe, from the Norse invasions to the present day. Far more than a simple military history, the book serves as a succinct and enlightening overview of the development of European society as a whole over the last millennium. From the Norsemen and the world of the medieval knights, through to the industrialized mass warfare of the twentieth century, Michael Howard illuminates the way in which warfare has shaped the history of the Continent, its effect on social and political institutions, and the ways in which technological and social change have in turn shaped the way in which wars are fought. This new edition includes a fully updated further reading and a new final chapter bringing the story into the twenty-first century, including the invasion of Iraq and the so-called 'War against Terror'.

Schaum's Outline of Modern European History John Wiley & Sons

This engaging and humanizing text traces the development of Europe since the mid-eighteenth century through the lives of people of the time. Capturing key moments, themes, and events in the continent's turbulent modern past, the book explores how ordinary Europeans both shaped their societies and were affected by larger historical processes. By focusing on the lives of individual actors, both famous and obscure, students can gain a sense for how the well-known revolutions, wars, and social transformations of the modern era were experienced in private homes, work places, political forums, and on battlefields throughout the region. Fittingly, the book opens with the French Revolution and concludes with the fall of the Berlin Wall and the collapse of Eastern European communism. Throughout, the contributors use compelling biographies to examine many of the major events and developments in European history, including the age of reaction and revolutions in the early nineteenth century; industrialization; Victorianism; new imperialism; fin de siècle culture; the first and second World Wars; the Russian Revolution; Italian fascism, Nazism, the Holocaust, and decolonization; Americanization; and the 1968 youth revolts. Contributions by: Karin Breuer, Helen Harden Chenut, John Cox, Stephen P. Frank, Cora Granata, Maura E. Hametz, Michael Kilburn, Cheryl A. Koos, Robert A. McLain, Karen Petrone, Paolo Scrivano, Alyssa Goldstein Sepinwall, Matthew G. Stanard, Michele M. Strong, and Patricia Tilburg

This AP* European History student's companion is filled with vocab, activities and assignments that follow the McKay, Hill, Buckler, Crowston, Wiesner-Hanks & Perry 11th edition of *A History of Western Society* for each chapter. Its activities can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook, physical or online. Teachers can copy at will, and parents can use the book as a student consumable. The activities in this workbook challenge students to apply the concepts, brainstorm examples, diagram each chapter, and think things through with the authors.
