**5th Grade Jumbo Reading Success Workbook** Carson-Dellosa Publishing

The Conscious Teacher is about all kinds of strategies and techniques educators might employ to become more effective teachers. In an accessible, conversational style, Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike. She begins with her personal story of not being able to read all through elementary school. Her early failures convinced her she was dumb. At first, she struggled, but when she still failed, she adopted an avoidance strategy that served her well until junior high. An experience in the seventh grade flipped a switch and started her on a journey to becoming an

outstanding student and, later, to applying the lessons she learned as a child to her own teaching. What makes The Conscious Teacher unique are the inspirational lessons that are unlike what most teachers get in their teacher-education courses or student teaching. Ms. Nichols Poulos points out, for example, that from the very first day, it is important that students learn they will be treated with dignity and respect no matter what. And especially helpful are the steps Ms. Nichols Poulos employs to set up a behavior management plan that works. She explains the strategic steps she takes before school starts—how essential it is to get to know each student before they walk into

class on that first day. She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute. And she emphasizes the importance of the parent-student-teacher team and includes many examples of how to communicate with—and involve—parents, even those who may be difficult. Foundational to her program are reading and writing. Among other things, she lays out the steps for students—even as early as fourth grade—to write five paragraph essays and their own student-authored books, and to research and write reports that include bibliographies. When she differentiated

curriculum to support all students' needs, she found their learning accelerated. All teachers will appreciate her ideas about how to teach the basics of math, as well as advanced math concepts. And her ideas for teaching the arts are inspirational, as she describes in detail how her fourth graders performed Shakespeare's Hamlet, Macbeth, King Lear, Julius Caesar, and A Midsummer Night's Dream. She also shows how to integrate social studies with literature and writing. Her experiences taught her that young students are much more capable than many people realize. The Conscious Teacher is an indispensable guide for all new teachers. Many of the ideas Ms.

Nichols Poulos provides will also be an eye-opener for parents and experienced teachers as well. The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling.

“This remarkable book is a testament to teachers who not only respect and advocate for children on a daily basis but who are the necessary guardians of the spirit. Every citizen who cares about the future of our children ought to read this.”—Eric Carle, author of *The Very Hungry Caterpillar* and other classic works for children “Kozol’s love for his students is as joyful and genuine as his critiques of the system are severe. He doesn’t pull punches.”—The Washington Post In these affectionate letters to Francesca, a first grade teacher at an inner-city school in Boston, Jonathan Kozol

vividly describes his repeated visits to her classroom while, under Francesca’s likably irreverent questioning, he also reveals his own most personal stories of the years that he has spent in public schools. *Letters to a Young Teacher* reignites a number of the controversial issues Jonathan has powerfully addressed in his bestselling *The Shame of the Nation* and *On Being a Teacher*: the mania of high-stakes testing that turns many classrooms into test-prep factories where spontaneity and critical intelligence are no longer valued, the invasion of our public schools by predatory private corporations, and the inequalities of urban schools that are once again almost as

segregated as they were a century ago. But most of all, these letters are rich with the happiness of teaching children, the curiosity and jubilant excitement children bring into the classroom at an early age, and their ability to overcome their insecurities when they are in the hands of an adoring and hard-working teacher.
