Elenchus of Biblica BRILL

For over one hundred years, the International Critical Commentary series has held a special place among works on the Bible. It has sought to bring together all the relevant aids to exegesis — linguistic and textual no less than archaeological, historical, literary and theological—with a level of comprehension and quality of scholarship unmatched by any other series. No attempt has been made to secure a uniform theological or critical approach to the biblical text: contributors have been invited for their scholarly distinction, not for their adherence to any one school of thought. The first paperback editions to be published cover the heart of the New Testament, providing a wealth of

information and research in accessible and attractive format. *International Review of Biblical Studies, Volume 51 (2004-2005)*

A study of J.S. Bach's Cantata 21, the fourth cantata composed by Bach in Weimar 1714 after his elevation to the position of concert master. Bach's longest cantata to this point in his career, Cantata 21 has in recent years suffered from adverse aesthetic judgements (especially its final chorus) as the result of lack of knowledge of its compositional history. Study of the cantata in relation to the relevant theological literature of the time reveals that it is a work of unusually careful construction. In the context of its companion works of 1714, Cantata 21 emerges as a pivotal work in Bach's oeuvre.

Nora Berning grasps the narrative potential of journalistic

reportages via a set of narratological categories. Spurred by an interdisciplinary framework, she builds on transgeneric narratological research and shows that journalistic reportages can be described, analyzed, and charted with categories that originate in structuralist narratology. The author spells out minimal criteria for particular types of reportages, and challenges the argument that journalism and literature have distinct, non-overlapping communicative goals. By showing that the reportage is a hybrid text type that seeks to inform, educate, and entertain, this study advances a re-conceptualization of journalism and literature as two fields with permeable borders.

The name Friedrich Nietzsche resonates around the world. Although known primarily as a philosopher, Nietzsche began his writing career while still a boy with literary texts: poetry, prose, and dramas. The present book is the first extensive study in English of these early literary works. It understands Nietzsche in the light of his activity as a creative writer from his juvenilia through his first two years as professor of classical philology at the University of Basel, that is, through the 1872 publication of his first major work, *The Birth of Tragedy Out of the Spirit of Music*. Knowledge of Nietzsche's early literary writings further underscores the value of *The Birth of Tragedy* as a work of world literature. The present study makes available almost all of Nietzsche's early poetry and extensive excerpts from his early prose works and dramas - much of it in English for the first time - along with commentary. A final, extensive chapter on *The Birth of Tragedy* treats it as the culmination of the early literary works.

The book contains many new insights into Nietzsche and his work and essential source material for future research. All quotations from Nietzsche are given in both the original German and in English. "Schumacher looks at hope as a virtue, one opposed by vices such as despair and presumption, particularly as they are treated in existentialism and Marxism. He also explores Pieper's treatment of hope in relation to the ideas of death and immorality, and in the philosophy of history. Using the idea of hope to examine such themes as dignity, ethics, the good, and the just, Schumacher provides a valuable, wide-ranging introduction to a shaper of contemporary Christian thought against a richly drawn intellectual background."--BOOK JACKET.

It also highlights Anglo-German literary and cultural relations of the nineteenth and twentieth centuries and supplies a theoretical framework for further analysis.

*Evangelischer Lieder-Schatz, oder glossirtes grosses Württembergisches Gesang-Buch ... in sechs Theilen verfasst. Tl. 1, 2* Fortress Press

Kaum ein Thema des Glaubens ist in den letzten Jahrhunderten in der abendländischen Theologie so stiefmütterlich behandelt worden wie das des Heiligen Geistes. Mit dramatischen Folgen: Nicht nur verengte sich die Sicht der Kirche immer mehr auf die Hierarchie, der allein die Verwaltung des Geistes oblag. Auch die biblische Verortung der Kirche in der Reich-Gottes-Botschaft und -Praxis des Jesus von Nazaret ging mit der Geistvergessenheit weitgehend verloren - und damit das Dynamische und das Gesellschaftskritische der biblischen Weltansicht insgesamt. Entfernung vom Leben und Hoffen der Menschen, Verlust der prophetischen Kraft des Christentums und weitgehende Entmündigung der Laien waren die Folgen. Deshalb ist es Felix Senns dringliches Anliegen, dem sogenannten dritten Artikel des

Glaubensbekenntnisses, nämlich den Traktaten Pneumatologie, Eschatologie und Ekklesiologie, den ihnen gebührenden Platz in der Dogmatik zurückzugeben. Dabei wird in aller Kürze versucht, die Zusammenhänge von Geist Gottes, eschatologischer Hoffnung und kirchlichem Leben neu zu durchdenken.

The German church cantata of the eighteenth century was the culmination of a long tradition of Lutheran "sermon music" that used the proclamation, amplification, and interpretation of scripture to teach and persuade the listener. Bach's cantatas also served this didactic purpose and typically incorporate numerous allusions to scriptural passages or themes in their librettos.

Unfortunately, many of these passages remain obscure to the twentieth-century musician because they demand a much closer familiarity with the Bible than is common today. The Handbook to Bach's Sacred Cantata Texts identifies scriptural references for the wording, imagery, and themes that Bach's listeners would have known. In addition, the religious or literary theme of each text is summarized within the specific context of the cantata as a whole. With interlinear translations and a full complement of indexes.

**Metamorphosis** Oxford University Press

There is a growing focus on the Christian confession of God's completed kingdom, the new heaven and the new earth. This theme has time and again seduced people into elaborate fantasies that stimulated the senses. How can we talk about it meaningfully? Raymond R. Hausoul relates systematic theology to biblical theology by comparing three theologians: the Catholic theologian Karl Rahner, the Protestant Jurgen Moltmann, and the Reformed Gregory Beale. This leads to reflections on differences between matter, space, and time of the new heaven and new earth and those of our present reality. The hope for renewal and resurrection is thus linked to the prophecies of the new Jerusalem, the tree of life, and the resurrection body.

Narrative Means to Journalistic Ends University of Toronto Press

This book contributes to the current revision of Matthias Claudius's image by, illuminating the complex of ideas that lies at the core of his thought and relating them to his art and the broader concerns that were most important to him. Claudius has long had a firm place in the canon of German literature as a naive and soulful poet of folklife, nature, and religious faith. Over the past two decades, however, a growing body of scholarship has uncovered aspects of his life and work that demand reconsideration of his traditional image. This volume represents an attempt to contribute to the revision. This volume elucidates the ideas central to Claudius's thought and views them in

connection with both his work and important issues of the time. Over and against the traditional image of Claudius the study projects a more accurate and balanced, indeed, a substantially new vision of the poet and man.

The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid's *Metamorphoses*, grouped roughly on an 'ascending evolutionary scale' (invertebrates, birds, animals, and mermaids). Whilst a broad range of mythological, legendary, fairytale and folktale traditions have played an appreciable part, Ovid's *Metamorphoses* is still an important comparative analysis and reference point for nineteenth- and twentieth-century German-language narratives of transformations. Metamorphosis is most often used as an index of crisis: an existential crisis of the subject or a crisis in a society's moral, social or cultural values. Specifically selected texts for analysis include Jeremias Gotthelf's *Die schwarze Spinne*

(1842) with the terrifying metamorphoses of Christine into a black spider, the metamorphosis of Gregor Samsa in Kafka's *Die Verwandlung* (1915), ambiguous metamorphoses in E. T. A. Hoffmann's *Der goldne Topf* (1814), Hermann Hesse's *Piktors Verwandlungen* (1925), *Der Steppenwolf* (1927) and Christoph Ransmayr's *Die letzte Welt* (1988). Other mythical metamorphoses are examined in texts by Bachmann, Fouqué, Fontane, Goethe, Nietzsche, Nelly Sachs, Thomas Mann and Wagner, and these and many others confirm that metamorphosis is used historically, scientifically, for religious purposes; to highlight identity, sexuality, a dream state, or for metaphoric, metonymic or allegorical reasons.
