What happens when a teacher does not share a cultural background with her students? In this thoroughly engaging account, one North American teacher describes her three years teaching Haitian children in an inner-city preschool. Using classroom research, Cynthia Ballenger explores how teachers who listen closely to children from other cultures can understand the approaches to literature that these children bring with them to school. Practitioners will identify with Ballenger, who struggles to find the academic strengths of children whose parents do not read them bedtime stories or otherwise prepare them for school in ways that are familiar to her. Focusing on three areas crucial to early childhood education (classroom behaviour, concepts of print, and storybook reading), this book will challenge many widely held assumptions and cultural perspectives about the education of young children.

been updated to reflect the 8th Edition of the MLA Handbook (April 2016)* Puts inquiry at the heart of good writing We write to learn as much as we do to express what we already know. In his remarkably personal and engaging voice, Bruce Ballenger makes that powerful concept central to *The Curious Writer, Brief Edition*. *The Curious Writer, Brief Edition* doesn't read like a textbook or provide a formula for composing essays. Instead, it encourages students to suspend judgment, to ask questions, and to seek answers much like academics do. Yet it covers a wide range of genres beyond the academic essay--narrative, profile, review, ethnography, argument, and more--all with a distinctive approach and "personality" that is lacking in other texts. It also reinforces the assumption that genres are malleable with a new chapter on repurposing or "re-genre-ing." Students love that this book helps them learn to write by pursuing their own curiosity. Teachers appreciate that Ballenger gives students ample opportunity to develop the habits of mind necessary to become critical thinkers and curious writers. * The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the "increasing mobility of texts," MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following. *Curious Writer, The, MLA Update Edition, Concise Edition* Pearson

Pre-Incident Indicators of Terrorist Incidents Pearson

An inspiring picture-book biography of Louis Braille—a blind boy so determined to read that he invented his own alphabet. **Winner of a Schneider Family Book Award!** Louis Braille was just five years old when he lost his sight. He was a clever boy, determined to live like everyone else, and what he wanted more than anything was to be able to read. Even at the school for the blind in Paris, there were no books for him. And so he invented his own alphabet—a whole new system for writing that could be read by touch. A system so ingenious that it is still used by the blind community today. Award-winning writer Jen Bryant tells Braille's inspiring story with a lively and accessible text, filled with the sounds, the smells, and the touch of Louis's world. Boris Kulikov's inspired paintings help readers to understand what Louis lost, and what he was determined to gain back through books. An author's note and additional resources at the end of the book complement the simple story and offer more information for parents and teachers. Praise for *Six Dots*: "An inspiring look at a child inventor whose drive and intelligence changed the world—for the blind and sighted alike."—Kirkus Reviews "Even in a crowded field, Bryant's tightly focused work, cast in the fictionalized voice of Braille himself, is particularly distinguished."—Bulletin, starred review "This picture book biography strikes a perfect balance between the seriousness of Braille's life and the exuberance he projected out into the world." — School Library Journal, starred review

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
