Balance examines how the performance and reception of post-World War II Filipino and Filipino American popular music provide

crucial tools for composing Filipino identities, publics, and politics. To understand this dynamic, Balance advocates for a "disobedient listening" that reveals how Filipino musicians challenge dominant racialized U.S. imperialist tropes of Filipinos as primitive, childlike, derivative,

and mimetic. Balance disobediently listens to how the Bay Area turntablist DJ group the Invisibl Skratch Piklz bear the burden of racialized performers in the United States and defy conventions on musical ownership; to karaoke as affective labor, aesthetic expression, and pedagogical instrument; to how writer and performer Jessica Hagedorn's collaborative and improvisational authorial voice signals the importance of migration and place; and how Pinoy indie rock scenes challenge the relationship between race and musical genre by tracing the alternative routes that popular music takes. In each instance Filipino musicians, writers,

visual artists, and filmmakers work within and against the legacies of the U.S./Philippine imperial encounter, and in so doing, move beyond preoccupations with authenticity and offer new ways to reimagine tropical places.

For many, December
26 is more than the
day after Christmas.
Boxing Day is one of
the world's most
celebrated cultural
holidays. As a legacy of
British colonialism,
Boxing Day is observed
throughout Africa and
parts of the African
diaspora, but, unlike
Trinidadian Carnival
and Mardi Gras, fewer
know of Bermuda's
Gombey dancers,
Bahamian Junkanoo,
Dangriga's Jankunú
and Charikanari, St.
Croix's Crucian
Christmas Festival, and
St. Kitts's Sugar Mas.
One Grand Noise:
Boxing Day in the
Anglicized Caribbean
World delivers a highly
detailed, thought-
provoking examination
of the use of

spectacular vernacular
to metaphorically
dramatize such tropes
as "one grand noise,"
"foreday morning," and
from "back o' town." In
cultural solidarity and
an obvious critique of
Western values and
norms, revelers
engage in celebratory
sounds, often donning
masks, cross-dressing,
and dancing with
abandon along
thoroughfares usually
deemed anathema to
them. Folklorist Jerrilyn
McGregory
demonstrates how the
cultural producers in
various island locations
ritualize Boxing Day as
a part of their struggles
over identity, class,
and gender relations in
accordance with time
and space. Based on
ethnographic study
undertaken by
McGregory, One Grand
Noise explores Boxing

Day as part of a creolization process from slavery into the twenty-first century. Gregory traces the holiday from its Egyptian origins to today and includes chapters on the Gombey dancers of Bermuda, the evolution of Junkanoo/Jankunú in The Bahamas and Belize, and J'ouvert traditions in St. Croix and St. Kitts. Through her exploration of the holiday, Gregory negotiates the ways in which Boxing Day has expanded from small communal traditions into a common history of colonialism that keeps alive a collective spirit of resistance.

AM, CHRONICLING THE PAST TWENTY YEARS OF RAPPER EMINEM'S LIFE, BASED ON EXCLUSIVE INTERVIEWS WITH THE ARTIST, HIS FRIENDS, AND ASSOCIATES "A passionate look at the Detroit rapper's music .

. . . an expert and thoughtful

assessment." - Booklist

In 1999, a former dishwasher from Detroit named Marshall Bruce Mathers III became the most controversial and polarizing musical artist in the world. He was an outlier, a white artist creating viable art in a black medium, telling stories with such verbal dexterity, nimble wit, and shocking honesty that his music and persona resonated universally. In short, Eminem changed the landscape

of pop culture as we knew it. In 2006, at the height of his fame and one of the biggest-selling artists in music history, Eminem all but disappeared. Beset by nonstop controversy, bewildering international fame, a debilitating drug problem, and personal tragedy, he became reclusive, withdrawing to his Detroit-area compound. He struggled with weight gain and an addiction to prescription pills that nearly took his life. Over the next five years, Eminem got sober, relapsed, then finally got and stayed clean with the help of his unlikely friend and supporter, Elton John. He then triumphantly returned to a very different landscape, yet continued his streak of number one

albums and multiplatinum singles. Not Afraid picks up where rock journalist Anthony Bozza's bestselling *Whatever You Say I Am* left off. Capturing Eminem's toughest years in his own words, as well the insights of his closest friends and creative collaborators, this book chronicles the musical, personal, and spiritual growth of one of hip-hop's most enduring and enigmatic figures.

For fans, Boxer is a profound personal meditation. Life decisions have been based on it. Relationships have been created and dissolved by it. For the band that recorded it, Boxer symbolizes a do-or-die moment; a final, give-it-everything-you've-got effort to make it work. Released in May 2007, The National's fourth full-length is the album that saved them. It's where the Ohio-via-Brooklyn five-piece found the sound, success, and spiritual growth to become one

of the most critically acclaimed bands of their time. Obsessively researched and featuring intimate interviews with the fighters who were there in the ring, Ryan Pinkard captures a transformative chapter in The National's story, revealing how their breakthrough album is deeply intertwined with their personal lives, the New York indie rock renaissance of the early aughts, and a generational experience in America. *Nonmotor Parkinson's: The Hidden Face*

long history, but it has only recently begun to attract focused attention. By walking alongside participants, researchers have been able to observe, experience, and make sense of a broad range of everyday practices. At the same time, the idea of talking and walking with participants has enabled research to be informed by the landscapes in which it takes place. By sharing conversations in place, and at the participants' pace, sociologists are beginning to develop both a feel for, and a theoretical understanding of, the transient, embodied and multisensual aspects of walking. The result, as this collection demonstrates, is an understanding of the social world evermore

congruent with people's lived experiences of it. This interdisciplinary collection comprises a unique journey through a variety of walking methodologies. The collection highlights a range of possibilities for enfolding sound, smell, emotion, movement and memory into our accounts, illustrating the sensuousness, skill, pitfalls and rewards of walking as a research practice. Each chapter draws on original empirical research to present ways of walking and to discuss the conceptual, practical and technical issues that walking entails. Alongside feet on the ground, the devices and technologies that make up hybrid research mobilities are brought

to attention. The collection is bookended by two short pedestrian essays that take the reader on illustrative urban walks, suggesting routes through the city, as well as ways in which the reader might make their own path through walking methods. An innovative title, *Walking Through Social Research* will be of interest to undergraduate and postgraduate students, researchers and academics who are interested in Sociology, Geography, Cultural Studies, Urban Studies and Qualitative Research Methods. *Walking Through Social Research* Open Book Publishers

Boxing is one of the oldest and most exciting of sports: its bruising and bloody confrontations have permeated Western culture since 3000 BC. During that period, there has hardly been a time in which young men, and sometimes women, did not raise their gloved or naked fists to one other. Throughout this history, potters, sculptors, painters, poets, novelists, cartoonists, song-writers, photographers and film-makers have been there to record and make sense of it all. In her encyclopaedic investigation, Kasia

Boddy sheds new light on an elemental sports and struggle for dominance whose weapons are nothing more than fists. Boddy examines the shifting social, political and cultural resonances of this most visceral of sports, and shows how from Daniel Mendoza to Mike Tyson, boxers have embodied and enacted our anxieties about race, ethnicity, gender and sexuality. Looking afresh at everything from neoclassical sculpture to hip-hop lyrics, *Boxing* explores the way in which the history of boxing has intersected with the history of mass media, from cinema to radio to pay-per-view. The book also offers an intriguing new perspective on the work of such diverse figures as Henry

Fielding, Spike Lee, Charlie Chaplin, Philip Roth, James Joyce, Mae West, Bertolt Brecht, and Charles Dickens. An all-encompassing study, *Boxing* ultimately reveals to us just how and why boxing has mattered so much to so many.

The method and plan of this dictionary of Jamaican English are basically the same as those of the Oxford English Dictionary, but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655. It contains information about the Caribbean and its dialects, and about Creole languages and general linguistic processes. Entries give the pronunciation, part-of-speech and usage of labels, spelling variants, etymologies and dated citations, as well as definitions. Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries.

Boxing is infused with ideas about masculinity, power, race and social class, and as such is an ideal lens through which social scientists can examine key modern

themes. In addition, its inherent contradictions of extreme violence and beauty and of discipline and excess have long been a source of inspiration for writers and film makers. Essential reading for anyone interested in the sociology of sport and cultural representations of gender, *Boxing, Masculinity and Identity* brings together ethnographic research with material from film, literature and journalism. Through this combination of theoretical insight and cultural awareness, Woodward explores the social constructs around boxing and our experience and understanding of central issues including: masculinity

mind, body and the construction of identity spectacle and performance: tensions between the public and private person boxing on film: the role of cultural representations in building identities methodologies: issues of authenticity and 'truth' in social science.

Music in Evolution and Evolution in Music by Steven Jan is a comprehensive account of the relationships between evolutionary theory and music. Examining the 'evolutionary algorithm' that drives biological and musical-cultural evolution, the book provides a distinctive commentary on how musicality and music can shed light

on our understanding of Darwin's famous theory, and vice-versa. Comprised of seven chapters, with several musical examples, figures and definitions of terms, this original and accessible book is a valuable resource for anyone interested in the relationships between music and evolutionary thought. Jan guides the reader through key evolutionary ideas and the development of human musicality, before exploring cultural evolution, evolutionary ideas in musical scholarship, animal vocalisations, music generated through technology, and the nature of consciousness as an evolutionary phenomenon. A unique examination of how evolutionary thought

intersects with music, *Music in Evolution and Evolution in Music* is essential to our understanding of how and why music arose in our species and why it is such a significant presence in our lives.
