Zimbabwe has had a chaotic foreign direct investment (FDI) regime. This has created the need for a detailed volume on the most important developments around the protection and treatment of FDI, at not only a domestic level, but also at bilateral, regional and international levels. The author argues that while Zimbabwe has now harmonised, previously scattered legislation under the Zimbabwe Investment and Development Agency Act [Chapter 14:37] and taken measures to reverse (to varying degrees) controversial policies such as the land reform programme and the Indigestion and Economic Empowerment Policy, scepticism still prevails over the investor-friendliness of the FDI regime in Zimbabwe.

Commonwealth Caribbean Business Law breaks away from the

traditional English approach of treating business law primarily as the law of contract and agency. The book takes a panoramic view of the foundation of various legal systems with a subsequent examination of different areas of legal liability that may affect business activities. These areas include contract law, agency, tort law, criminal law, and internet law as significant challenges confronting the business sector. The book primarily targets the development of business law in several Caribbean Commonwealth jurisdictions but also, where appropriate, embraces the jurisprudence of other Commonwealth nations such as the United Kingdom, Canada and Australia. With respect to internet law, the proliferation of judicial pronouncements emerging from the United States provided the platform for the only non-Commonwealth treatment of a topic. The approach of the book is to use excerpts from judgments so as to allow students, particularly the non-legal student, to understand legal principles as espoused by the judiciary without the filtering bias of authors.

A timely and apposite treatise on Papua New Guinea's economic environment, this book explores business organizations law and various aspects of commercial law in Papua New Guinea in a readable and informative style. Business and commerce is the twin engine that propels the economy of a modern nation. They ensure steady economic growth and development. In an age of globalization, they assume even greater importance than at any other time in human history. A nation risks being marginalized or left behind in the race for a share of the world economic market

unless it ensures the stability of its business and commercial sector. Trade regulation, good governance and democratic institutions go hand in hand in guaranteeing political and social equilibrium. As such the laws designed to facilitate trade and commerce are a vital component of the political and social equation. This is a valuable book for law students, legal practitioners, accountants and business executives, not only within Papua New Guinea, but also in Australia and throughout the South Pacific.
