It was my first day as a brand new high school teacher. But I got dumped that morning. Via text. And then one of my students hit on me. And the rest of the day was a complete mess. The beautifully single Mr. Drake McCain found me in my classroom, feeling sorry for myself. And not sixty seconds later he had me laughing and electricity racing through my blood. My family is broken and complicated. I literally don't know my biological father's name. My mother is absent and my half-brother barely knows who she is. But Drake? He's not complicated. He's sweet and kind and

insanely adorable, and comes from a wonderful family. He is everything I want. The chemistry between us? It's there in spades. I keep telling myself that I should be feeling really awful and depressed since I just got dumped a few days ago. But I keep getting this ridiculous smile on my face every time Drake is around and it's kind of hard to keep telling myself that. I'm Kaylee Ray. I believe in fairytales and happily ever after's, and maybe the search for Prince Charming is over. Cue reality check.

In this collection of taxidermy art, you'll find a winged monkey with a fez and a martini glass, a jewel-encrusted piglet, a bionic fawn, and a polar bear balancing on a floating refrigerator. Author Robert Marbury makes for a friendly (and often funny) guide, addressing the three big questions people have about taxidermy art: What is it all about? Can I see some examples? and How can I make my own? He takes readers through a brief history of taxidermy (and what sets artistic taxidermy apart) and presents stunning pieces from the most influential artists in the field. Rounding out the book are illustrated how-to lessons to get readers started on their own work, with sources for taxidermy materials and resources for the budding taxidermist.

Revisit the thrilling Sam Owens series,
with book two in the series from New York
Times bestselling author J.T. Ellison. Dr.
Samantha Owens is starting over: new
city, new job, new man, new life. But
before she's even unpacked her office at
Georgetown University's forensic
pathology department, she's called to
consult on a case that's rocked the capital
and the country. An unknown pathogen
released into the Washington Metro has
caused nationwide panic. Three people
died—just three. Amid the media frenzy
and Homeland Security alarm bells, Sam
painstakingly dissects the lives of those
three victims and makes an unsettling
conclusion. This is no textbook terrorist,
but an assassin whose motive is deeply
personal and far from understandable.
Xander Whitfield, a former army ranger
and Sam's new boyfriend, knows about
seeing the world in shades of gray. About
feeling compelled to do the wrong thing
for the right reasons. Only his disturbing
kinship with a killer can lead Sam to the
truth...and once more into the line of fire.
