René Girard shows that all desires are contagious—and the desire to be thin is no exception. In this compelling new book, Girard ties the anorexia epidemic to what he calls mimetic desire: a desire imitated from a model. Girard has long argued that, far from being spontaneous,

our most intimate desires are copied from what we see around us. In a culture obsessed with thinness, the rise of eating disorders should be no surprise. When everyone is trying to slim down, Girard asks, how can we convince anorexic patients to have a healthy outlook on eating? Mixing theoretical sophistication with irreverent common sense, Girard denounces a “culture of anorexia” and takes apart the competitive impulse that fuels the game of conspicuous non-consumption. He shows that showing off a slim physique is not enough—the real aim is to be skinnier than one’s rivals. In the race to lose the most weight, the winners are bound to be thinner and thinner. Taken to extremes, this tendency to escalation can only lead to tragic results. Featuring a foreword by neuropsychiatrist Jean-Michel Oughourlian and an introductory essay by anthropologist Mark R. Anspach, the volume concludes with an illuminating conversation between René Girard, Mark R. Anspach, and Laurence Tacou.

This is an objective and well-documented reinterpretation of the French presence in India during one of the most critical and decisive periods of Anglo-French global relations. A stimulating study based on a careful combing of not readily accessible

archival sources as well as contemporary and current printed materials, it unfolds the real nature of French objectives in India in the backdrop of French global policy after 1763. As the author extensively documents, French policy was uniquely non-imperialistic in India after the Seven Years' War. The prevailing belief that the Anglo-French confrontation in India was primarily a conflict for an Indian empire has been clearly revealed for what it always was: a myth.

Redesigning Physical Education is a bold and innovative manifesto for the fundamental redesign of physical education for the twenty-first-century world. Aiming at better outcomes for children, better working conditions for teachers, and innovative solutions to the decline of school PE, it calls for a transnational collective action project based on new research frameworks, stressing the fundamental importance of health-enhancing, life-enriching active participation for all children and young people. Action-oriented and evidence-based, the book examines the key challenges driving change, including the equity agenda, institutionalization, outcome and accountability based teaching, and physical activity requirements in schools. With a truly international scope, the text explores perspectives from the USA, Canada, Scotland, England, Wales, Ireland, New

Zealand, Australia, and Italy. This is important reading for students and academics studying and working in physical education, kinesiology, public health, and children's physical activity. It is also a valuable resource for pediatric exercise specialists, especially sport and exercise psychologists.

'A very clear account of this famous episode in history.' The Sunday Times
The Jacobite uprising - a period of turmoil following the removal of James II, in favour of his daughter, Mary II and her husband William III. The following

century would witness political plots, military conflict, acts of espionage and religious scheming to secure the throne of the United Kingdom for both James and his son, 'Bonnie Prince Charlie'. The Jacobite cause drew in allies and enemies, domestic and foreign. James, while exiled in both France and Italy, endures a life of boredom, repeated illness and loneliness as Charles breaks off contact. Funding, both Papal and French, is used up as efforts to return to rule culminate in defeat at Culloden. Frank McLynn has thoroughly researched this incredible period of history moving forward into the Hanoverian dynasty with careful assessment of all that Jacobitism stood for. Frank McLynn is a British author, biographer, historian and journalist. He is noted for critically acclaimed biographies of Napoleon Bonaparte, Robert Louis Stevenson, Carl Jung, Richard Francis Burton and Henry Morton Stanley. He is also the author of Fitzroy Maclean and Bipolar, a novel about Roald Amundsen, published by Sharpe Books. Praise for Frank McLynn: 'Frank McLynn's achievement ... is to give Charles Edward a solidarity and three-dimensional reality that he usually lacks ... His account of the risings themselves is exemplary and he offers the best case yet for the nearness to success of the '45. What is usually seen as the last shiver of an anachronistic and romantic throwback emerges as a genuine alternative to Whiggery and the Act of Settlement.' Brian Morton, TES 'A broad canvas, dealing not only with sober historical truth but with the magic spell that either seduced or repelled Fielding, Sterne, Smollett, Burns, Scott, Borrow, Buchan, Stevenson and a hundred Irish poets...' Diarmaid O'Muirthe, Irish Independent 'A readable and fresh study ... thoroughly

researched.' Esmond Wright, Contemporary Review 'Valuable in covering the wide sweep of Scotland, England, Ireland and the Continent, and bringing together many diverse strands into a coherent whole. Its wide range and taut approach make it very useful.' Rennie McOwan, The Tablet 'Packed with fascinating detail.' Denis Hills, choosing his book of the year in the Spectator 'Fitzroy Maclean has found his Boswell in Frank McLynn.' Trevor Royle, Scotland on Sunday 'Most entertaining.' Richard West 'Important, timely and balanced.'

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Today's mathematics classrooms increasingly include students for whom English is a second language. Teaching Mathematics to English Language Learners provides readers a comprehensive understanding of both

the challenges that face English language learners (ELLs) and ways in which educators might address them in the secondary mathematics classroom. Framed by a research perspective, Teaching Mathematics to English Language Learners presents practical instructional strategies for engaging learners that can be incorporated as a regular part of instruction. The authors offer context-specific strategies for everything from facilitating classroom discussions with all students, to reading and interpreting math textbooks, to tackling word problems. A fully annotated list of math web and print resources completes the volume, making this a valuable reference to help mathematics teachers meet the challenges of including all learners in effective instruction. Features and updates to this new edition include: An updated and streamlined Part 1 provides an essential overview of ELL theory in a mathematics specific context. Additional practical examples of mathematics problems and exercises make turning theory into practice easy when teaching ELLs New pedagogical elements in Part 3 include tips on harnessing new technologies, discussion questions and reflection points. New coverage of the Common Core State Standards, as well as updates to the web and print resources in Part 4.

Love and War in Afghanistan presents true stories of fourteen ordinary men and women living in Northern Afghanistan. In a quarter-century of uninterrupted war, the people of Afghanistan have endured foreign invasions, ethnic strife, a fundamentalist Islamic totalitarian regime, and the unending crossfire of rival warlord factions. The country remains an object of fascination for journalists, academics, and filmmakers from around the world. In the midst of it all it is a startlingly powerful experience to discover, here, the voices of the Afghan people themselves. Young lovers who elope against the wishes of their kin; a mullah whose wit is his only defense against his armed captors; a defector from the Soviet army; a woman who is forced to stand up to gangsters in Tajikistan—their dramatic stories emerge in their own unforgettable words. Whether in the sudden awakening of mercy in a Taliban militiaman, the lingering contempt of a woman for her husband's first wife, the pain and confusion of flight into exile, or the resourcefulness of a child who must provide for an entire family, the real focus of these narratives is the strength of solitary individuals faced daily with their own vulnerability. Men, women, orphans, widows, widowers, Tajiks, Pashtuns, Uzbeks, Turkmens, schoolteachers, mullahs, former Taliban, mujahideen, big brothers, little sisters, captive wives, lovers in flight: Love and War in Afghanistan tells their stories, putting human faces onto a country torn by war.

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test

of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original.

Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Intellectual, cultural, and film historians have long considered neorealism the founding block of post-World War II Italian cinema. Neorealism, the traditional story goes, was an Italian film

style born in the second postwar period and aimed at recovering the reality of Italy after the sugarcoated moving images of Fascism. Lasting from 1945 to the early 1950s, neorealism produced world-renowned masterpieces such as Roberto Rossellini's *Roma, città aperta* (Rome, Open City, 1945) and Vittorio De Sica's *Ladri di biciclette* (Bicycle Thieves, 1947). These films won some of the most prestigious film awards of the immediate postwar period and influenced world cinema. This collection brings together distinguished film scholars and cultural historians to complicate this nation-based approach to the history of neorealism. The traditional story notwithstanding, the meaning and the origins of the term are problematic. What does neorealism really mean, and how Italian is it? Italian filmmakers were wary of using the term and Rossellini preferred "realism." Many filmmakers confessed to having greatly borrowed from other cinemas, including French, Soviet, and American. Divided into three sections, *Global Neorealism* examines the history of this film style from the 1930s to the 1970s using a global and international perspective. The first section examines the origins of neorealism in the international debate about realist esthetics in the 1930s. The second section discusses how this debate about realism was "Italianized" and coalesced into Italian "neorealism" and explores how critics and film distributors participated in coining the term. Finally, the third section looks at neorealism's success outside of Italy and examines how film cultures in Latin America, Africa, Asia, and the United States adjusted the style to their national and regional situations.

In the third edition of *A Grammar of Akkadian*, changes have been made in the section on the nominal morpheme -ān (§20.2) and the sections on the meaning of the D stem (§24.3) and the Gt stem (§33.1(b)); these revisions reflect recent scholarship in Akkadian grammar. Other changes include minor revisions in wording in the presentation of the grammar in a few other sections; a number of new notes to some of the readings; additions to the glosses of a small number of words in the lesson vocabularies (and the Glossary and English-Akkadian word list); and updates of the resources available for the study of Akkadian, and of the bibliography. A new appendix (F) has been added, giving Hebrew and other Semitic cognates of the Akkadian words in the lesson vocabularies. The pagination of the first and second editions has for the most part been retained, apart from the insertion of the new appendix and a few minor deviations elsewhere.
