In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-

awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us

all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989. The challenges and complexity we face today are of a different order of magnitude. We enjoy far

greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit.

**Who Was Helen Keller?**  
EduGorilla Community Pvt. Ltd.

This test booklet has some unique qualities. It allows the students to get an idea of the kinds of passages and the level of questioning. But the uniqueness does not end there. The booklet also provides teachers and parents with the

instruments that will improve the ability of the children to complete the state tests. Know that teachers and parents can begin by allowing their fourth-grade children to work on passages intended for third graders and move forward and vice versa. Other grades can do the same. Everyone has the opportunity to look at the passages and questions presented to the other grades. Note carefully the approaches to the questions, because there is a specific vocabulary

used in the questions. There is a wealth of writing exercises that require the students to think deeply. Building stamina is very important. Length of passages and level of difficulty are considered. Each grade is presented with one mini-test and three full length tests. The parents and the teachers can actually simulate the real test and give themselves time to identify the children's weaknesses and strengths. Therefore, they can work on these weaknesses and reinforce

concepts at the same time. At the end of every test there are additional questions designed to challenge the children and encourage the teachers and the parents to create their own questions from the passages. There is a teacher's edition that identifies the answers to all questions and the types of questions. For example, there may be questions that require the students to know main idea, author's purpose, compare and contrast and so on. These are indicated in the teacher's edition.

There are writing exercises for the students to do. Useful hints relating to the kinds of responses are also presented in the teacher's edition. A suggested rubric is also included. This book is inclusive of all, including Special Needs Students who must write the same tests as other students, and whose grades and progress impact the general performance of the school.
