From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters? *The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. THE DISAPPEARING SPOON masterfully fuses science with the classic lore of invention, investigation, and discovery--from the Big Bang through the end of time. *Though solid at room temperature, gallium is a moldable metal that melts at 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their utensils disappear.

It doesn't matter how many jobs we create - if we fail to prepare the people that get them. Education is the responsibility of a society. We face some tough questions today. Are we teaching the right things and are we starting early enough? How do we measure outcomes? Must our young people mortgage their future to pay for a college degree? Are we investing enough to train our workers? It's time that we tackle the challenge that faces our workforce. It's time to strategize, work together, take action, and solve the problem that threatens the hope of a prosperous future for so many.

The Wheel of Time is now an original series on Prime Video, starring Rosamund Pike as Moiraine! In *The Shadow Rising*, the fourth novel in Robert Jordan's #1 New York Times bestselling epic fantasy series, *The Wheel of Time®*, Rand al'Thor now wields the sword Callandor. He is both the Champion of Light and the Dragon Reborn. Now, he seeks answers to another prophecy that lies with the warrior people known as the Aiel to put him on the path of learning how to wield the One Power. Accompanied by Moiraine Damodred, Rand arrives at the Aiel Waste and is granted permission by the Wise Ones to enter the sacred city of Rhuidean. After passing through a doorway ter'angreal, Moiraine gains foresight while the Aiel await Rand's return, either with both arms marked by dragon symbols, validating his identity as He Who Comes With the Dawn, the Chief of Chiefs of all the Aiel—or to never emerge at all. Since its debut in 1990, *The Wheel of Time®* has captivated millions of readers around the globe with its scope, originality, and compelling characters. The last six books in series were all instant #1 New York Times bestsellers, and *The Eye of the World* was

An incisive biography of the prolific photo-essayist W. Eugene Smith Famously unabashed, W. Eugene Smith was photography's most celebrated humanist. As a photo essayist at Life magazine in the 1940s and '50s, he established himself as an intimate chronicler of human culture. His photographs of war and disaster, villages and metropolises, doctors and midwives, revolutionized the role of images in journalism, transforming

photography for decades to come. When Smith died in 1978, he left behind eighteen dollars in the bank and forty-four thousand pounds of archives. He was only fifty-nine, but he was flat worn-out. His death certificate read "stroke," but, as was said of the immortal jazzman Charlie Parker, Smith died of "everything," from drug and alcohol benders to weeklong work sessions with no sleep. Lured by the intoxicating trail of people that emerged from Smith's stupefying archive, Sam Stephenson began a quest to trace his footsteps. In *Gene Smith's Sink*, Stephenson merges traditional biography with rhythmic digressions to revive Smith's life and legacy. Traveling across twenty-nine states, Japan, and the Pacific, Stephenson profiles a lively cast of characters, including the playwright Tennessee Williams, to whom Smith likened himself; the avant-garde filmmaker Stan Brakhage, with whom he once shared a Swiss chalet; the artist Mary Frank, who was married to his friend Robert Frank; the jazz pianists Thelonious Monk and Sonny Clark, whose music was taped by Smith in his loft; and a series of obscure caregivers who helped keep Smith on his feet. The distillation of twenty years of research, *Gene Smith's Sink* is an unprecedented look into the photographer's potent legacy and the subjects around him.

Before Breakfast at Tiffany's Audrey Hepburn was still a little-known actress with few film roles to speak of; after it - indeed, because of it - she was one of the world's most famous fashion, style and screen icons. It was this film that matched her with Hubert de Givenchy's "little black dress". Meanwhile, Truman Capote's original novel is itself a modern classic selling huge numbers every year, and its high-living author of perennial interest. Now, this little book tells the story of how it all happened: how Audrey got the role (for which at first she wasn't considered, and which she at first didn't want); how long it took to get the script right; how it made Blake Edwards' name as a director

after too many trashy films had failed to; and how Henry Mancini's soundtrack with its memorable signature tune 'Moon River' completed the irresistible package. This is the story of how one shy, uncertain, inexperienced young actress was persuaded to take on a role she at first thought too hard-edged and amoral - and how it made Audrey Hepburn into gamine, elusive Holly Golightly in the little black dress - and a star for the rest of her life. *Acp Pac Preset Sam 2010 W/mtrexcel Word Ppt* Course Technology Ptr

This book highlights the problems that have developed as students lack either the social or cultural capital to take the opportunity of Higher Education through conventional routes. This might be due to leaving school early, lacking entry qualifications or wanting to further their education and prospects after entering the workplace. Foundation courses help to widen participation and create a route towards higher education. This book offers tried and tested practical solutions, from the notion of widening participation, to recruitment of students and to ways of helping them to make the most of themselves and develop the skills they need to progress on degree courses of their choice.
