Three mysteries in the CWA Gold Dagger-winning series by a "master of the bizarre" (Louis Untermeyer). Scotland Yard detective James Pibble is known for accepting any case, no matter how strange. Taking him to every corner of England, his job throws him into the most curious circumstances. The Glass-Sided Ants' Nest: Detective Pibble is on the case when the revered elder of a New Guinea tribe is bludgeoned to death. All the suspects—including a real estate agent, a professional escort, and an anthropologist who married into the tribe—have alibis. And Pibble's only clue is an Edwardian penny. The Old English Peep Show: Pibble's next case takes him to the World of Old England, a country house run as a theme park. When one of the servants at the estate hangs himself, Detective Pibble discovers not a suicide, but a bizarre set of circumstances that add up to foul play. The Sinful Stones: Nobel Prize-winning scientist and one of the first builders of the atomic bomb Sir Francis Francis summons Detective Pibble to an isolated island to find his stolen memoir. But is Francis senile? Was the manuscript really stolen? What's the real reason he sent for Pibble? And why does the island's religious sect want Francis to stay so much?

Winner of the CWA Gold Dagger for best crime novel of the year: Peter Dickinson targets England's upper classes in this murderous and strikingly original theme-park mystery Tourists are waiting in line for entry into the world of Old England, a graceful, elegant country house run as a theme park, complete with wrought-iron gates, pet lions, and maids in white caps greeting visitors with a bob and a curtsy. But this fantasy world turns very real when one of the servants takes his own life. Why did the loyal and faithful Arthur Deakin hang himself in the pantry without leaving even a note? Dispatched to find out, Scotland Yard superintendent James Pibble wonders why the local police weren't called in on a seemingly run-of-the-mill suicide. But as Pibble will soon find, life at the Herryngs estate of twin brothers Ralph and Richard Clavering is anything but ordinary. Sir Ralph, a retired general, and Sir Richard, a former admiral who now writes about animals being driven out of their native habitats, are war heroes who have gone from charmingly eccentric to dangerously certifiable. Sir Ralph's only daughter is desperate to shield the family from scandal. A disappearance, a man-eating lion, and an old dueling ground add up to foul play as Pibble uncovers a viper's nest of evil behind an upper-crust facade that could claim his life next. The Old English Peep Show is the 2nd book in the James Pibble Mysteries, but you may enjoy reading the series in any order.

David Arbus will be graduating from high school in the spring of 1975. His divorced parents offer two options: embrace his mother's Hasidic sect or go into his father's line of work, running a porn theater in the heart of New York's Times Square. He joins the family business. What else would a healthy seventeen-year-old with an interest in photography do? But he didn't think it would mean giving up his mother and sister altogether. Peep Show is the bittersweet story of a young man torn between a mother trying to erase her past and a father struggling to maintain his dignity in a less-than-savory business. As David peeps through the spaces in the screen that divides the men and the women in Hasidic homes, we can't help but think of his father's Imperial Theatre, where other men are looking at other women through the peepholes. As entertaining as it is moving, Peep Show looks at the elaborate ensembles, rituals, assumed names, and fierce loyalties of two secret worlds, stripping away the curtains of both.

She's finally old enough to learn all his big brother owly wisdom: First, owls say hooo. Second, they always say hooo. Lastly, they ONLY say hooo! But why would Peep say hooo when she could say schweeepy peep or dingity dong? Why would she speak when she could sing? As she explores the breathtaking Parisian cityscape, Peep discovers so many inspiring sights and sounds—the ring of cathedral bells, the slap of waves on stone—that she can't help but be swept up in the magic of it all. Hoot doesn't understand Peep's awe, until he takes a pause to listen . . . and realizes that you're never too old to learn a little something new. From the beloved author/illustrator of the classic picture book Red Sled, this gorgeous read aloud celebrates the wonder found in little things—and in the hearts of dreamers, young and old.

From John O'Groats to Land's End Acc Art Books

A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull, pages that could fold out, pop-up scenes, and even mechanical toys mounted on pages. Analyzing books for young children published between 1835 and 1914, *Playing with the Book* studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is, particularly in relation to children's literature and child readers. Novelty books promised (or threatened) to make reading a physical as well as intellectual activity, requiring the child to pull a tab or lift a flap to continue the story. These books changed the relationship between pictures, words, and format in both productive and troubling ways. Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the

nineteenth century. She discovers that children ripped, tore, and colored in their novelty books—despite these books' explicit instructions against such behaviors. Richly illustrated with images of these ingenious constructions, *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight, thus reconfiguring our understanding of the phenomenology of reading.
