Which Equalities Matter? Bloomsbury Publishing

Muslim societies are struggling under the need for modernization and the drift towards Islamic fundamentalism. The balance between these two forces is struck differently in the various Muslim societies depending upon the constellation of groups as historical legacies. However, the tension is real. In this work, Jan-Erik Lane and Hamadi Redissi look at the underlying social consequences of religious beliefs to account for the political differences between major civilizations of the world against a background of the rise of modern capitalism. Offering a timely new appraisal of the political and social impact of Islam, this expanded second edition of Religion and Politics has been fully updated in line with new events and will be welcomed by political

scientists and historians alike. In a readable and accessible style, this thought-provoking work raises the question of whether the tenets of Islam might be reconciled with the requirements of post-modernity.

Development Cabinet & Book of Addresses of State Functionaries of the Republic of Indonesia Penerbit Buku Kompas

Education and Gender draws on international research from the USA, the UK, India, Mexico, Sub-Saharan Africa and the Caribbean, to provide a comprehensive global overview of the relationship between gender and education. Rooting constructions of gender and sexuality in specific geographical contexts, the contributors consider a range of issues. Themes discussed include the gender gap in educational attainment; pedagogical strategies; stereotyping in curricula; and education policy. Drawing on best practices worldwide, the contributors identify the current gaps and propose solutions to promote gender-just, equitable and pluralistic societies. Each chapter

includes key questions to encourage active engagement with the subject and a list of further reading to support taking the exploration further.

Regulatory Reform in Indonesia Pustaka Abadi

On social and political leadership of kyai, an informal Islamic religious leader in Indonesia.

Mystic Synthesis in Java Woodrow Wilson Center Press

"First published by Hutchinson & Co. 1964"--Page 6.

Politik Identitas dan Perebutan Hegemoni Kuasa World Bank Publications

This report examines the potential of restorative justice programmes to facilitate conflict resolution and provide appropriate protection to children. This applies to the justice system, whether children are victims, offenders or witnesses, but it also applies in a range of other contexts, including at school, in residential care units, in social welfare settings and in the community.

Almanak nasional Golongan Karya, 1983-1988 Yayasan Pelayanan Media Antiokhia (YAPAMA)

Recent decades have seen growing concern about problems of electoral integrity. The most overt malpractices used by rulers include imprisoning dissidents, harassing adversaries, coercing voters, vote-rigging counts, and even blatant disregard for the popular vote. Serious violations of human rights, undermining electoral credibility, are widely condemned by domestic observers and the international community. Recent protests about integrity have mobilized in countries as diverse as Russia, Mexico, and Egypt. Elsewhere minor irregularities are common, exemplified by inaccurate voter registers, maladministration of

polling facilities, lack of security in absentee ballots, pro-government media bias, ballot miscounts, and gerrymandering. Long-standing democracies are far from immune to these ills; past problems include the notorious hanging chads in Florida in 2000 and more recent accusations of voter fraud and voter suppression during the Obama-Romney contest. In response to these developments, there have been growing attempts to analyze flaws in electoral integrity using systematic data from cross-national time-series, forensic analysis, field experiments, case studies, and new instruments monitoring mass and elite perceptions of malpractices. This volume collects essays from international experts who evaluate the robustness, conceptual validity, and reliability of the growing body of evidence. The essays compare alternative approaches and apply these methods to evaluate the quality of elections in several areas, including in the United States, Sub-Saharan Africa, and Latin America.

Handbook of Party Politics Yayasan Pelayanan Media Antiokhia (YAPAMA)

Publisher Description

[The Drug Wars in America, 1940-1973](#) SAGE

Penulisan riset ini bermula dari bentuk keprihatinan penulis terhadap maraknya stigmatisasi dan pembelahan kelompok di masyarakat atas dasar pilihan politik. Hubungan organisasi transnasional seringkali digunakan untuk labelisasi suatu gerakan yang dianggap berlawanan dengan pemegang kekuasaan. Pembelahan kelompok politik menimbulkan fenomena kekerasan baru di tengah masyarakat, sebagaimana kekerasan verbal dan kekerasan politik. Fenomena tersebut berdampak pada tumbuhnya resistensi secara terbuka dan resistensi secara

tersembunyi melalui ekstrimisasi gerakan. Rasa keingintahuan terhadap penyebab pembelahan kelompok masyarakat sebagai bentuk perilaku politik, menjadi motivasi penulis untuk mencari tahu perkembangan politik identitas di Indonesia dalam kontestasi pemilihan politik di beberapa jenjang.

Tempo SAGE

Examines how and why the US government went from regulating illicit drug traffic and consumption to declaring war on both.

American Photo Album, Chicago SAGE

An effective response to contemporary environmental problems demands an approach that integrates political, economic and ecological issues. *Third World Political Ecology* provides an introduction to an exciting new research field that aims to develop an integrated understanding of the political economy of environmental change in the Third World. The authors review the historical development of the field, explain what is distinctive about Third World political ecology, and suggest areas for future development. Clarifying the essentially politicised condition of environmental change today, the authors explore the role of various actors - states, multilateral institutions, businesses, environmental non-governmental organisations, poverty-stricken farmers, shifting cultivators and other 'grassroots' actors - in the development of the Third World's politicised environment. *Third World Political Ecology* is the first major attempt to explain the development and characteristics of environmental problems that plague parts of Asia, Africa and Latin America. Drawing on examples from throughout the Third World, the book will be of interest to all those who wish to understand the political and economic bases of the Third World's current predicament.

Medium Term Plan (1987 - 1991) Routledge

'This thoughtful and wide-ranging review of parties and party research contains contributions from many of the foremost party scholars and is a must for all library shelves' - Richard Luther, Keele University 'The study of political parties has never been livelier and this genuinely international Handbook - theoretically rich, comparatively informed, and focused on important questions - defines the field. This volume is both an indispensable summary of what we know and the starting point for future research' - R K Carty, University of British Columbia 'Political parties are ubiquitous, but their forms and functions vary greatly from regime to regime, from continent to continent, and from era to era. The Handbook of Party Politics captures this variation and richness in impressive ways. The editors have assembled an excellent team, and the scope of the volume is vast and intriguing' - Kaare Strom, University of California, San Diego Political parties are indispensable to democracy and a central subject of research and study in political science around the world. This major new handbook is the first to comprehensively map the state-of-the-art in contemporary party politics scholarship. The Handbook is designed to: - provide an invaluable survey of the major theories and approaches in this dynamic area of study and research - give students and researchers a concise 'road map' to the core literatures in all the sub-fields of party related theorizing and research - identify the theories, approaches and topics that define the current 'cutting edge' of the field. The Handbook is comparative in overall approach but also addresses some topics to be addressed in nationally or regionally specific ways. The resulting collaboration has brought

together the world's leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today.

Tabloid Reformata Edisi 139 Mei 2011 Routledge

The benchmark first and second editions of *Comparing Democracies* represented essential guides to the global study of elections. Reflecting recent developments in the field, this timely third edition gives an indispensable state-of-the-art review of the whole field from the world's leading international scholars. With a completely new thematic introduction which explores how democracy is built and sustained, thoroughly updated chapters (many of which are also new), the third edition provides a theoretical and comparative understanding of the major topics related to elections and introduces important work on key new areas. *Comparing Democracies*, third edition will remain a must-read for students and lecturers of elections and voting behaviour, comparative politics, parties, and democracy. Contents:

Introduction: Building and Sustaining Democracy Lawrence LeDuc, Richard G. Niemi, and Pippa Norris

PART I: ELECTORAL INSTITUTIONS AND PROCESSES

Electoral Systems and Election Management Elisabeth Carter and David M. Farrell

Political Parties and Party Systems Susan E. Scarrow

Party and Campaign Finance Ingrid van Biezen

Election Campaigns Christopher Wlezien

Campaign Communications and Media Claes H. de Vreese

PART II: PUBLIC OPINION AND VOTING

Ideology, Partisanship and Democratic Development Russell J. Dalton

Political Participation André Blais

Elections and the Economy Timothy Hellwig

Women and Elections Marian Sawer

Conclusion

The Consequences of Elections G. Bingham Powell

World Development Report 1978 United Nations

This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.

Beyond Free and Fair Cambridge University Press

Kebijakan tindakan afirmatif menjadi penting karena mempercepat proses rekrutmen perempuan sebagai wakil rakyat. Kebijakan ini membutuhkan dukungan seluruh masyarakat dan wujud dukungannya dilakukan melalui mekanisme pemilihan umum. Buku yang terkait dengan kajian analisis kebijakan pemerintah untuk mahasiswa Ilmu Pemerintahan relatif langka. Untuk mengatasi kelangkaan ini, penulis memberanikan diri membukukan hasil penelitian ini menjadi buku dengan judul "Dimensi Interaksi Antar Aktor dalam Proses Implementasi Kebijakan Keterwakilan Perempuan Sebagai Calon Anggota Legislatif"

Advancing Electoral Integrity University of Notre Dame Press

An encyclopedia about various methods of qualitative research.

The Sage Encyclopedia of Qualitative Research Methods:

A-L ; Vol. 2, M-Z Index Oxford University Press

Global value chains (GVCs) powered the surge of international

trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. World Development Report 2020: Trading for Development in the Age of Global Value Chains examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

Keeping Archives Penerbit Buku Kompas

A Biography Book of Basuki Tjahaja Purnama (BTP). This book is a collection of stories about BTP from the views of 51 authors from various backgrounds. This book was conceived as a 51st birthday present for BTP. This book is the english version of *Ahok di Mata Mereka*.

SMEs in Asian Developing Countries Penerbit A-Empat

Party competition for votes in free and fair elections involves complex interactions by multiple actors in political landscapes that are continuously evolving, yet classical theoretical approaches to the subject leave many important questions

unanswered. Here Michael Laver and Ernest Sergenti offer the first comprehensive treatment of party competition using the computational techniques of agent-based modeling. This exciting new technology enables researchers to model competition between several different political parties for the support of voters with widely varying preferences on many different issues. Laver and Sergenti model party competition as a true dynamic process in which political parties rise and fall, a process where different politicians attack the same political problem in very different ways, and where today's political actors, lacking perfect information about the potential consequences of their choices, must constantly adapt their behavior to yesterday's political outcomes. *Party Competition* shows how agent-based modeling can be used to accurately reflect how political systems really work. It demonstrates that politicians who are satisfied with relatively modest vote shares often do better at winning votes than rivals who search ceaselessly for higher shares of the vote. It reveals that politicians who pay close attention to their personal preferences when setting party policy often have more success than opponents who focus solely on the preferences of voters, that some politicians have idiosyncratic "valence" advantages that enhance their electability--and much more. *Directory of Government of the Republic of Indonesia* Eastbridge Jones addresses the conditions necessary for the survival of democratic presidential systems, arguing that the electoral laws employed by such systems are intricately and inextricably linked to the longevity of democracy. Throughout the book Jones's focus is on the most realistic and feasible mechanism for facilitating the proper functioning and survival of democratic presidential

systems: electoral law reform.
