This important novel, first published in Russian in 1978, reveals a master of the Stalinist era. The Year of Terror, 1937. Zybin, an exiled intellectual and archaeologist in the far province of Alma-Ata, finds himself wrongly accused of a crime during the darkest days of Stalin's reign. Soon, he and his colleagues are caught up in an ambitious Cheka investigator's

attempts to set up a show trial to rival those taking place in Moscow. Vivid, courageous and defiant, The Faculty of Useless Knowledge is the crowning achievement by the author of The Keeper of Antiquities and The Dark Lady and draws heavily on autobiographical experience. A masterpiece of anti-totalitarian literature, it stands alongside the works of Solzhenitsyn and Bulgakov in illuminating the chaos, absurdity and bureaucratic labyrinths of Soviet Russia.

Journal des débats et des décrets (Nr.

74-105, 1792) Lulu.com
First Published in 1998.

This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come... It is

therefore confidently recommended for addition to reference libraries, be they academic or public.

Conscience is the writer's production tool. If he has

not got that, he has not got anything. All the artistic fabric crumbles and frays at the first touch.- Iurii Dombrovskii Iurii Dombrovskii (1909-1978) was a Soviet writer of immense courage and integrity, whose life and literary career were repeatedly disrupted by unjust arrests and long periods of imprisonment. Born and educated in Moscow, he was first detained in 1932, and spent a total of twenty-three years in exile in Alma-Ata and in Siberian labour camps. Even after his rehabilitation in 1956 he was never free from surveillance and harassment by Soviet authorities. Only able to publish infrequently, he was forced to eke out a meagre existence yet produced original works of high quality. This book is the first full-length monograph on Iurii Dombrovskii, widely acclaimed in recent years as a writer of major importance and interest, following the publication in Russia and the West of his last novel *The Faculty of Unnecessary Things*. The book is based on a thorough study of published materials by and about Dombrovskii and on research into

unpublished archive sources, to which no previous Western scholar has had access. Iurii Dombrovskii: Freedom under Totalitarianism provides a detailed overview of the writer, and lays the foundations for further research. Peter Doyle gives the most substantive account of Dombrovskii's biography yet written, along with detailed interpretive studies of his main prose works, an assessment of his little known poetry, and a comprehensive bibliography.
