New Syllabus Mathematics (NSM) is a series of textbooks and workbooks designed to prepare students for the Singapore-Cambridge GCE O-level examination in Mathematics. Together with the textbook, the workbook will provide students with ample practice to apply the various skills and concepts learnt to solving problems in both examination and real-life situations. The workbook contains the following features:

REVISION NOTES Revision Notes are found at the start of each chapter. They emphasise the important concepts and formulae in the chapter.

PRACTICE QUESTIONS Practice Questions provide students with a wide range of questions for further practice. The questions are classified into three levels of difficulty. ♦ questions require

students to use specific skills and concepts in the chapter directly to solve problems. ♦ questions require students to apply their skills and concepts to solve problems. ♦ questions require students to apply various skills and concepts, including the use of problem-solving skills, to solve problems.

Revision Exercise The Revision Exercise is found after every few chapters to help students to recall and consolidate all the concepts learnt in these chapters.

Mid-Year Specimen Papers and End-Year Specimen Papers The Mid-Year Specimen Papers and End-Year Specimen Papers have been written to follow closely to the format of school ♦s Mid-Year and End-of-Year examinations. It is hoped that when students use this book, to reinforce the concepts that they

are weak in, they will eventually gain success in Mathematics.

Get the most out of your Merrill's Radiographic Atlas with the Workbook for Merrill's Atlas of Radiographic Positioning and Procedures, 13th Edition. Providing plenty of review and practice of the concepts found in the atlas, this workbook contains a wide variety of exercises — including labeling, anatomy identification, short answer, multiple-choice, matching, true and false, fill-in-the-blank, error identification, and more — that focus on the essential terminology, anatomy, and positioning information you need to pass the ARRT exam and thrive in the clinical

environment. Correlation with main Merrill's Radiographic Atlas features exercises that support the digital positioning content in the atlas. Wide variety of exercises holds user's interest and provides a variety of interaction with the content. Exercises on identifying errors on radiographs prepare users to evaluate radiographs in clinical situations. Anatomy and positioning exercises provide balanced coverage of both topics. Abundance of labeling exercises ensures users recognize anatomical structures on actual radiographs. Comprehensive self-test at the end of each chapter enable users to accurately gauge their comprehension of the material and measure their own progress. Pathology exercises helps users understand which projections will

best demonstrate various pathologies. NEW! New images reflect all the content updates in the main Merrill's text. NEW! Detailed review exercises that cover osteology, anatomy, physiology, arthrology and radiographic examinations NEW! Additional images for identifying essential projections

In *I'm Not a Large, I am a Medium!*, Roy Mackay with Cornelius Cavendish takes you on his remarkable 45 year journey as a medium. Beginning when he was only 21 Roy was performing publicly just two years later, since when he has given hundreds of demonstrations and private

readings, in Britain, Canada and internationally via Skype. He reveals what he has learnt about life after death answering many questions, and shows how he communicates with the world of Spirit. It is a world that is open to us all, he says, candidly explaining how we too can connect with it. His wide-ranging reminiscences are by turns heartwarming, surprising and awesome. He vividly describes the times when he has come to the aid of a homeowner whose home has been disturbed by a spirit sometimes with chilling effect, and helped the spirit to move peacefully into the Light. It's been an extraordinary life.
