Check with the seller prior to purchase. -- Written for today's nurse, **PRINCIPLES OF PEDIATRIC NURSING: CARING FOR CHILDREN**, 5/e explores the conditions and nursing

interventions for health conditions affecting children, adolescents and their families. Emphasizing research and evidence-based practice, it organizes material by body system instead of developmental stage, allowing faculty to teach pediatrics in integrated courses/short courses without redundancy. This edition includes a new chapter on genetic and genomic influences, more emphasis on culturally competent care, and new features that emphasize clinical reasoning and health promotion. Designed to help students bridge the gap between classroom and clinical situations, the book emphasizes health promotion and maintenance, growth and development, and family-centered care.

A Down-to-Earth Approach
James Henslin shares the
excitement of sociology in
Essentials of Sociology: A
Down-to-Earth Approach,
11/e. With his acclaimed
"down-to-earth" approach
and personal writing style,
the author highlights the
sociology of everyday life
and its relevance to
students' lives. With wit,
personal reflection, and
illuminating examples,
Henslin stimulates
students' sociological
imagination so they can
better perceive how the
pieces of society fit
together. In addition to
this trademark down-to-
earth approach, other
distinctive features
include: comparative
perspectives, the
globalization of
capitalism, and visual
presentations of
sociology. MySocLab is an
integral part of the
Henslin learning program.

Engaging activities and
assessments provide a
teaching a learning
system that helps
students see the world
through a sociological
lens. With MySocLab,
students can develop
critical thinking skills
through writing, explore
real-world data through
the new Social Explorer,
and watch the latest
entries in the Core
Concept Video Series.

BONUS! The Women's Health Companion, packaged with every copy of the book, is a \$29.00 value that's absolutely FREE when you purchase the ENHANCED, REVISED, REPRINT. It's a complete guide to the role of the nurse in promoting women's health. From class to clinical through NCLEX to practice, it presents all of the information nursing students need to know

and shows them how to apply it in both traditional and community settings. There are even teaching and learning resources for this content online at DavisPlus. The perfect balance of maternal and childnursing care in a new textbook conceivedand written to be a combination textbook!An extensive review by nursing educatorsensures that it offers just the right depthand breadth of coverage for students intoday's maternity/pediatric courses.Its unique emphasis on optimizing outcomes,evidence-based practice, and researchsupports the goal of caring for women,families and children not only in traditionalhospital settings, but also wherever theylive, work, study, or play. Clear, concise,and easy to follow, the content is organizedaround four major themes, holisticcare, critical thinking, validating practice,and tools for care that help students tolearn and apply the material. Nursing Care of Children F A Davis Company A better way to learn maternal and newborn nursing! This unique presentation provides

tightly focused maternal-newborn coverage in a highly structured text Maternal & Child Health Nursing Elsevier Health Sciences Master content and apply knowledge from Maternal Child Nursing Care, 6th Edition with this corresponding Study Guide. In addition to reviewing content from the text, it encourages you to think critically and use the text more effectively. This comprehensive workbook is filled with case-based activities, as well as review questions that provide you with plenty of opportunities to assess your knowledge. Updated content throughout corresponds to new features and chapters of the text. Reviewing Key Concepts and Content questions in various formats give you ample opportunities to assess your knowledge and comprehension of information covered in the text. Activities, including matching, fill-in-the-blank, true/false, short answer, and multiple choice, help you identify the core content of the chapter and test your understanding upon completion of reading the chapter. Learning Key Terms matching and fill-

in-the-blank questions let you test your ability to define all key terms highlighted in the corresponding textbook chapter. Thinking Critically case-based activities require you to apply the concepts found in the chapters to solve problems, make decisions concerning care management, and provide responses to patient questions and concerns. Answer key at the end of the book includes answers to all questions. NEW! Updated content throughout corresponds to new features and chapters of the text. **Maternal and Child Nursing Care** Pearson Higher Ed Nursing care for pregnant women and children is a family-centered process, and Maternal and Child Nursing Care, 3e, is a text that addresses the needs of families across the continuum, from conception through adolescence. The themes that shape this book—nursing care in the community, client education, critical thinking, and evidence-based practice in nursing—will prepare students for the responsibility of managing care for families with diverse healthcare needs, and to

work collaboratively with families and other health professionals to enhance care. Principles of Pediatric Nursing Prentice Hall Maternal Child Nursing Care - E-Book *Maternal Child Nursing Care* Elsevier Health Sciences Community-based nursing programs in operation around the country. * Community-based nursing care & home care are described in key sections of the text to help students understand how therapeutic care of maternal-newborn conditions is given in the community. * Fifteen new Critical Pathways have been added to address nursing care for women with complications & high risk newborns. The total number of Critical Pathways in this edition is eighteen. * Full-color format enhances visual learning of anatomic & physiologic processes & highlights key information. Dramatic photographs & personal reflections of childbearing women bring students closer to the childbearing experience. * A free student tutorial disk, packaged with each new textbook, includes 250 NCLEX-style questions with complete rationales

for all possible answers.

Maternal Critical Care Pearson
 Written by the foremost experts in maternity and pediatric nursing, *Maternal Child Nursing Care, 5th Edition* offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking

case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic

management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

 Pearson Higher Ed
 For courses in maternal-child nursing, care of women and children, and women's health, for both 4-year BSN-level courses and selected ADN-level (2-year) programs. This is a family-focused text that provides comprehensive coverage of maternal-newborn nursing and women's health with special attention to evidence-based practice, cultural competence, critical thinking, professionalism, patient education, and home/community care. Accurate, readable, personal, and engaging, it reflects a deep understanding of pregnancy and birth as normal life processes, and of family members as partners in care. This edition includes a deeper discussion of childbirth at risk; four new nursing care plans; updated coverage of contraception, complementary/alternative therapies, and much

more. New features include Professionalism in Practice and Health Promotion Education boxes, Clinical Judgment case studies, and Critical Thinking questions. This edition also pays special attention to aligning with the AACN's Essentials of Baccalaureate Education for Professional Nursing Practice.

A Textbook of Children's and Young People's Nursing E-Book Prentice Hall

MATERNAL-CHILD NURSING CARE, 2ND EDITION covers the essential content for the maternity and pediatric nursing courses combined in one affordable text. The inclusion of expert authors, contributors, and reviewers ensures delivery of accurate and up-to-date content in both maternity and pediatric areas. The authors are also noted for their clear writing style that makes content easy to read and understand. The following are the key features retained for the second edition: Nursing Care Plans, Nurse Alerts, Guidelines, Emergency Treatment, Home Care, Cultural Awareness, Family Focus, Patient Teaching and Critical Thinking Exercises. The second edition will also

include a new full-color design, greater emphasis on community care and research throughout. - Expert authors ensure delivery of accurate and up-to-date maternity and pediatric content - Authors' clear writing style makes content easy to read and understand - Focus on the family throughout emphasizes the influence of family in health and illness - Nursing Care Plans, including rationales for interventions, provide students with an overview and specific guidelines for delivering effective nursing care - Nurse Alerts point out critical information that students should not overlook when treating patients - Guidelines boxes outline nursing procedures in an easy-to-follow fashion - Emergency boxes highlight emergency procedures in a step-by-step format to help students understand how to perform them - Home Care boxes detail important information to help prepare students to deliver care to patients and families in the home setting - Atraumatic Care boxes (in the pediatric section) teach students to provide competent care without creating undue physical or psychological

stress to the patient - Critical Thinking boxes provide students with case scenarios that depict real life situations to help them choose the best intervention and make good clinical judgements - Patient Teaching boxes (in the maternity section) highlight content students can share with patients and families to help them meet or exceed expected outcomes - Cultural Considerations boxes provide students with information to help them deliver culturally competent care - Family Focus boxes highlight the needs or concerns of families that students should consider when family-centered care is provided - NEW Chapter 3, Community and Home Care, provides a basis for understanding community aspects of maternity care - Unit 2, Reproductive Years, provides students with a thorough understanding of health promotion and prevention, common health concerns, contraception, infertility, and abortion related to the care of women throughout the childbearing years - Two NEW chapters, Pre-Existing Conditions (13) and Gestational Conditions (14) focus on

the care and treatment of pregnant women with conditions she had prior to becoming pregnant and those she acquired during pregnancy - NEW Chapter 21, Assessment and Care During the Fourth Trimester focuses on nursing care management of the physical and psychosocial needs of the mother and on discharge teaching during the fourth trimester (postpartum) - NEW Chapter 22, Transition to Parenthood, focuses on assisting parents in adapting to parenthood, and includes practical suggestions for the first weeks at home after the birth - NEW Chapter 29, Community-Based Care of the Child and Family, provides students with an understanding of how to provide care for patients outside of the acute care setting - An inviting full-color design with over 1,000 colorful photographs and line drawings has been added to enhance the overall visual appeal of the text - Community Focus boxes have been added throughout to highlight information on how to provide care in community settings (Includes a FREE MERLIN website at: www.harcourthealth.com/)

Saunders Company
The new edition of Nursing Care Planning Made Incredibly Easy is the resource every student needs to master the art of care planning, including concept mapping. Starting with a review of the nursing process, this comprehensive resource provides the foundations needed to write practical, effective care plans for patients. It takes a step-by-step approach to the care planning process and builds the critical thinking skills needed to individualize care in the clinical setting. Special tips and information sections included throughout the book help students incorporate evidence-based standards and rationales into their nursing interventions.
Maternal & Child Nursing Care Student Access Code Card

Pearson
Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.
Contemporary Maternal-Newborn Nursing Care
Elsevier Health Sciences
The second edition of Nursing Care of Children and Young People with Long Term Conditions remains the only nursing-specific text on the care of paediatric patients with chronic illness. Written to meet the needs of nursing students and professionals alike, this comprehensive volume provides authoritative and up-to-date information on the context, theory, and practice of delivering holistic care to children and families in a range of health and social care settings. Contributions

from a team of experienced academics, educators, and practitioners offer valuable insight into the impact of chronic illness on children and parents, the practical implications of meeting their physical, psychological, and social needs, empowering them to be 'experts' in their care, and many more vital aspects of long-term paediatric care. This edition features new and revised content reflecting contemporary guidelines and evidence-based practice, including updated clinical case studies and a new chapter examining the impact of

having a sibling with a long-term condition. Emphasising a multi-disciplinary approach to managing chronic illness, this important resource: Provides numerous case studies and activities illustrating the application of theoretical principles and current evidence in nursing practice Investigates the genetic basis of chronic illness and the differing onsets of long-term conditions Discusses current political, economic, and social policies that are influencing healthcare for children and bringing challenges to managers and practitioners Examines both classic and

contemporary theories of grief, loss, coping, and adaptation Explores ethical, legal, and professional aspects of nursing children and young people with chronic illness Addresses evolving nursing roles, the importance of acute emergency care, and the planning and delivery of effective transition from child to adult services Nursing Care of Children and Young People with Long Term Conditions is required reading for student and registered children's nurses, as well as for practitioners in related health and social care disciplines.
