This information-packed, two-volume set offers readers a single source for insight into the evolution of business functions and opportunities created by technologies related to Web 2.0. Every day, business leaders read about the shift in essential business practices and consumer-buying behavior brought about by the Internet. This two-volume set introduces readers to these shifts and shows them the way forward.

Enterprise 2.0: How Technology, eCommerce, and Web 2.0 Are

Transforming Business Virtually considers two levels of impact for organizations embracing Enterprise 2.0—macro and micro. Volume one considers the strategic components of the Enterprise, with emphasis on the specific tools available; applications in the organization such as content management, public relations, and cloud computing; and guidelines for protecting the organization, including legal best practices. Volume two considers the behavioral components of the Enterprise, including human resource implications and consumer behavior related to social media. The managerial implications of Enterprise 2.0 are also explored, with a focus on the use of virtual teams, recruiting with social media, and organizational behavior in a

virtual environment, among other topics.

Parade of Programs Hal Leonard Corporation

Winner 2023 Will Eisner Award - Best U.S. Edition of International Material. In this exceptional noir tour de force from writer Juan Díaz Canales and artist Juanjo Guarnido, the hotly anticipated worldwide bestseller returns to American shores after a seven-year hiatus with a brand-new two-part storyline! Following its chart-topping 2021 release in Europe and now translated for English-language readers by the team of Brandon Kander and Diana Schutz, this volume features feline private eye John Blacksad as he tangles with the unions, the mob, and mid-century construction magnate Lewis Solomon, who plans to pave New York City's green space, come hell or high

water. From soaring heights to terrifying depths, Blacksad must steer the right course between the lofty world of Shakespearean theater and the seedy nether regions of the city. Towering above it all is the foreboding figure of Solomon, who will let nothing thwart his dream of power. With three prestigious prizes from the Angoulême International Comics Festival as well as multiple Eisner and Harvey awards, the Blacksad series of graphic albums is a global success story, now published in thirty-nine different countries. Writer Juan Díaz Canales and artist Juanjo Guarnido have crafted a master class in comics storytelling for a worldwide audience. “A tour de force! Don’t miss this!”—Neal Adams “Grade A!”—Entertainment Weekly “Brilliant art and an unusual

display of anthropomorphic realism.”—Will Eisner “Ranks among the very best cartooning I’ve ever seen in comics.”—iFanboy

Explicit English Teaching Routledge

Class-tested and coherent, this textbook teaches classical and web information retrieval, including web search and the related areas of text classification and text clustering from basic concepts. It gives an up-to-date treatment of all aspects of the design and implementation of systems for gathering, indexing, and searching documents; methods for evaluating systems; and an introduction to the use of machine learning methods on text collections. All the important ideas are explained using examples and figures, making it perfect for introductory courses in information retrieval for advanced undergraduates and graduate

students in computer science. Based on feedback from extensive classroom experience, the book has been carefully structured in order to make teaching more natural and effective. Slides and additional exercises (with solutions for lecturers) are also available through the book's supporting website to help course instructors prepare their lectures.
