There are total 1 chapters, 4 sections and 152+ MCQ with answers. This reference book provides a single source

for multiple choice questions and answers in UZBEKISTAN. It is intended for students as well as for developers and researchers in the field. This book is highly useful for faculties and students. One can use this book as a study guide, knowledge test questions bank, practice test kit, quiz book, trivia questions . . . etc. The strategy used in this book is the same as that which mothers and grandmothers have been using for ages to induce kids in the family to sip more soup (or some other nutritious drink). The children are told that some cherries (their favourite noodles or cherries) are hidden somewhere in the bowl, and that serves as an incentive for drinking the soup. In joint families, by the time the children are old enough to know the trick played by their grandma, there is

usually another group of kids ready to fall for it! They excite the kids, but the real nutrition lies not in the noodles but in the soup. The problems given in this book are like those noodles/cherries while solving all these problems are nutritious soup. Now it is your choice to drink the nutritious soups or not!!!.

In the past century, Asian nations have experienced a wave of democratisation as countries in the region have gained independence or transitioned from authoritarian military rule towards more participatory politics. At the same time, there has been an expansion of judicial power in Asia, whereby new courts or empowered old ones emerge as independent constraints on governmental authority. This is the first

book to assess the judicial review of elections in Asia. It provides important insights into how Asian courts can strategically engage with the political actors in their jurisdictions and contribute to a country's democratic discourse. Each chapter in the book sheds light on the judicial review of elections and the electoral process in a specific Asian jurisdiction, including Common Law Asia, namely Hong Kong, India, Malaysia, and Singapore, as well as jurisdictions in Civil Law Asia, namely Indonesia, Japan, the Republic of Korea, Taiwan, and Thailand. It fills a gap in the literature by addressing a central challenge to democratic governance, namely the problem of partisan self-dealing in the electoral processes. By exploring the constantly evolving role of

the courts in addressing pivotal constitutional questions, this book will be of interest to students and scholars of Asian Law, Governance and Politics. Elections often have to be held in emergency situations. The Covid-19 pandemic was one of the most serious emergency situations that the world has seen. The rapid spread of the virus presented a huge humanitarian

threat—but also an unparalleled challenge to electoral stakeholders globally seeking to protect electoral integrity during times of uncertainty. This volume identifies how the pandemic affected electoral integrity, what measures were put in place to protect elections and what worked in defending them. It brings together a comprehensive set of 26 country case studies to explore how elections were affected on the ground, what measures were put in place and what worked. These case studies are of elections which took place in the eye of the storm when practitioners and policymakers were operating under uncertainty and without the benefit of hindsight. To learn lessons in a more systematic way, this volume also provides a thematic analysis

of electoral integrity during the pandemic using crossnational studies. This provides the big picture for policymakers, practitioners and academics looking back at the crisis. The volume therefore seeks to contribute towards the future development of policy and practice. However, it does so by using academic research methods and concepts which enable greater confidence in the policy lessons, as well as contributing directly to the scholarship on democracy, democratization and elections. The volume includes 11 areas of recommendation based on the evidence collected in this volume to protect electoral integrity in any future emergency situation.

Megacities are a new phenomenon in history. The fact that many of them are in emerging countries deepens the

challenges of governing these spaces. Can these vast, complex entities, rife with inequalities and divisions, be governed effectively? For researchers, the answer has often been no. The approach developed in this work focuses on the material city and its institutions and shows that, without recourse to a big new theory, urban leaders have devised mechanisms of ordinary government. They have done so through the resolution of practical and essential problems: providing electricity, drinking water, sanitation, transportation. Three findings emerge from this book. Infrastructure networks help to structure cities and function as mechanisms of cohesion. Megacities become more governable if there is a legitimate authority capable of making choices.

Finally, anarchic urbanisation has its roots in systems of land ownership, in inadequate urban planning and in the practices of developers and local actors. In the originality of its hypotheses and the precision of the analyses carried out in the four case study cities of Shanghai, Mumbai, Cape Town and Santiago de Chile, this work is addressed to all those interested in the life of cities: politicians, local and central government officials, executives in urban companies, researchers and students.

This anthology makes a discerning attempt to bring into focus myriad dimensions of secularism and the foremost impediments to its attainment.

The scholars who contributed to this volume have underscored that the disconnect between a modern-secular state and a conservative society is detrimental to recognizing an ideal secular-democratic polity. Then there is the burden of the past centuries that independent India has to carry on its young shoulders. The political factions in India invent their own historical narratives to advance their political agenda coupled with political and economic arguments leading to social dissensions and communal hatred, the ugliest manifestation of which is communal violence that occasionally takes on the form of anti-minority pogroms. The academic critiques of the concept of secularism and its correlated premises belted in this volume shall be

of assistance not only to the scholars but also to the students of social sciences and the conscientious readers interested in knowing about the current socio-political milieu. The dynamics of Indian politics is reflected in the flexible and fluctuating relations between the centre and the states as well as in the equations within the multiparty political system. This book is one of the first to explore the participation of women in state politics in India and how women navigate the dynamic spaces and hierarchies of the

Indian political system. With the help of in-depth studies of 16 states in India, it analyses the gender profile of political parties and legislative bodies in these states; the question of women's representation which is miniscule in legislative assemblies and women voters and their voting choices. It also explores the roadblocks and barriers they face, along with a study of women's participation in informal politics. The chapters in this book underline the need for women's active participation both inside and outside the party system to make democracy more robust and meaningful. Topical, rich in empirical data, this book will be an essential read for scholars and researchers of Indian politics, gender studies, political science, sociology, public administration, and

South Asia studies.

This book looks at the study of ideas, practices and institutions in South Asian Islam, commonly identified as 'Sufism', and how they relate to politics in South Asia. While the importance of Sufism for the lives of South Asian Muslims has been repeatedly asserted, the specific role played by Sufism in contestations over social and political belonging in South Asia has not yet been fully analysed. Looking at examples from five countries in South Asia (India, Pakistan, Bangladesh, Sri Lanka, and Afghanistan), the book begins with a detailed introduction to political concerns over 'belonging' in relation to questions concerning Sufism and Islam in South Asia. This is followed with sections on Producing and Identifying Sufism; Everyday and Public Forms of Belonging;

Sufi Belonging, Local and National; and Intellectual History and Narratives of Belonging. Bringing together scholars from diverse disciplines, the book explores the connection of Islam, Sufism and the Politics of Belonging in South Asia. It is an important contribution to South Asian Studies, Islamic Studies and South Asian Religion.

The general elections held in 2014 in India — the largest democracy in the world — to elect the 16th Lok Sabha brought in dramatic results. This important volume explains not only the startling victory of the Bharatiya Janata Party (BJP) but also the equally surprising downfall of the Congress Party. It examines not why BJP won and the Congress lost, but why the scale of BJP's victory and that of Congress's defeat was so very different from the results in the years 2004 and 2009. The volume presents an in-depth analysis of the electoral results, state-wise studies, the factors leading up to these outcomes, and the road India has

travelled since then. With contributions from India's leading political scientists, psephologists, sociologists and political commentators, this book will be of great interest to scholars and researchers of Indian politics, democracy and political parties, as well as South Asian studies.
