1922-1932 CUA Press
An essential guide to a

librarianship based not on books and artifacts but on knowledge and learning. Libraries have existed for millennia, but today the library field is searching for solid footing in an increasingly fragmented (and increasingly digital) information environment. What is librarianship when it is unmoored from cataloging, books, buildings, and committees? In *The Atlas of New Librarianship*, R. David Lankes offers a guide to this new landscape for practitioners. He

describes a new librarianship based not on books and artifacts but on knowledge and learning; and he suggests a new mission for librarians: to improve society through facilitating knowledge creation in their communities. The vision for a new librarianship must go beyond finding library-related uses for information technology and the Internet; it must provide a durable foundation for the field. Lankes recasts librarianship and library practice using the

fundamental concept that knowledge is created through conversation. New librarians approach their work as facilitators of conversation; they seek to enrich, capture, store, and disseminate the conversations of their communities. To help librarians navigate this new terrain, Lankes offers a map, a visual representation of the field that can guide explorations of it; more than 140 Agreements, statements about librarianship that range from relevant theories to

examples of practice; and Threads, arrangements of Agreements to explain key ideas, covering such topics as conceptual foundations and skills and values. Agreement Supplements at the end of the book offer expanded discussions. Although it touches on theory as well as practice, the Atlas is meant to be a tool: textbook, conversation guide, platform for social networking, and call to action. Copublished with the Association of College & Research Libraries.

Dante and the Empire

John Wiley & Sons
This new edition has been updated to include the following: The use of biomarkers (organic compounds in the geospherical record with carbon skeletons) reflecting the upsurge in geoporphyrin research primarily due to MS, yeast RNA nucleic acid studies: reversed-phase HPLC of amino acids; brewing industry applications (HPLC evaluation of carotenoids in orange juice and of "debittered" citrus); HPTLC of carbohydrates; synthesis

of a sweetening agent from citrus peels, synthesis and degradation of alkaloids and of sterols, GC/MS uses with sterols, petroleum products, and aromatic constituents of wine and grape juice, flash chromatography of essential oils, optical purity of enantiomers affecting flavors, fragrances, and pheromones, as well as studies of lattice inclusion compounds $1H$ - and $13C$ -NMR, MS, IR and UV data are presented for most natural products. Biomarkers—organic

compounds in the geospherical record with carbon skeletons—reflecting the upsurge in geoporphylin research primarily due to MS Yeast RNA nucleic acid studies Reversed-phase HPLC of amino acids, citrus juice components, and HPLC in brewing industry application HPTLC of carbohydrates ¹H- and ¹³C-NMR: Sweetness evaluation and synthesis of a sweetening agent from citrus peels; seed oil sesamol; alkaloids (strychnine, piperine, caffeine); and

sterol analyses GC/MS: sterols, petroleum studies, aromatic constituents of wine and grapejuice Flash chromatography of essential oils Optical purity of enantiomers affecting flavors, fragrances, and pheromones Materials science studies of lattice inclusion compounds Archaeological Footwear Routledge Najemy offers a new interpretation of Florentine politics from the first attempt to institute a guild-based

republic at the end of the thirteenth century to the advent of the consensus politics of civic humanism in the generation around 1400. The leading themes are: the role of the guilds in politics; the significance of the corporate ideology they advanced and the institutions implementing them; and the evolution of a new kind of republicanism that was both elitist and broadly based. Originally published in 1982. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in

digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

 Cities and Solidarities
 charts the ways in which the study of individuals and places can revitalise our understanding of urban communities as dynamic interconnections of solidarities in medieval and early modern Europe. This volume sheds new light on the socio-economic conditions, the formal and informal institutions, and the strategies of individual town dwellers that explain the similarities and differences in the

organisation and functioning of urban communities in pre-modern Europe. It considers how communities within cities and towns are constructed and reconstructed, how interactions amongst members of differing groups created social and economic institutions, and how urban communities reflected a sense of social cohesion. In answering these questions, the contributions combine theoretical frameworks with new digital

methodologies in order to provoke further discussion into the fundamental nature of urban society in this key period of change. The essays in this collection demonstrate the complexities of urban societies in pre-modern Europe, and will make fascinating reading for students and scholars of medieval and early modern urban history.

Le civiltà d'Italia nel loro sviluppo storico
 Manchester University Press
 Come la tassidermia, la pellicceria tratta la

lavorazione delle pelli al fine di conservarli nel tempo. Gli scopi di questa conservazione sono tanti. Il principale scopo che descriverò io è sempre quello di studio. Un altro fine è l'uso ornamentale come tappeti e pellicce per indumenti. In questo libro tratterò i metodi e le tecniche di concia a livello dilettantistico. La differenza della lavorazione nelle pelli per tassidermia e da pellicceria, consiste in due fattori fondamentali. Nella tassidermia la pelle degli

animali si deve mantenere morbida dall'uscita dalla concia e durante tutta la lavorazione di montaggio. Successivamente, con l'asciugatura dell'esemplare, la pelle si irrigidisce, favorendo la stabilità dell'esemplare nella posizione stabilita. In pellicceria invece, la pelle dovrà mantenersi morbida anche dopo l'asciugatura. Questo libro è stato scritto con un linguaggio semplice per essere accessibile a tutti. In allegato alla scrittura di questo libro ci

sono 26 filmati per una durata totale di 92 minuti. Sociology and Estrangement U of Minnesota Press
Conflict is defined here broadly and inclusively as an element of social life and social relations. Its study encompasses the law, not just disputes concerning property, but wider issues of criminality, coercion and violence, status, sex, sexuality and gender, as well as the phases and manifestations of conflict and the behaviors brought to bear on it. It engages,

too, with the nature of the transformation spanning the Carolingian period, and its implications for the meanings of power, violence, and peace.

Conflict in Medieval Europe represents the 'American school' of the study of medieval conflict and social order. Framed by two substantial historiographical and conceptual surveys of the field, it brings together two generations of scholars: the pioneers, who continue to expand the research agenda; and younger colleagues, who

represent the best emerging work on this subject. The book therefore both marks the trajectory of conflict studies in the United States and presents a set of original, highly individual contributions across a shifting conceptual range, indicative of a major transition in the field.

The Jungle Book. Ediz. a Colori Elsevier

This is a collection of original essays on the settlement of disputes in the early middle ages, a subject of central

importance for social and political history. Case material, from the evidence of charters, is used to reveal the realities of the settlement process in the behaviour and interactions of people - instead of the prescriptive and idealised models of law-codes and edicts. The book is not therefore a technical study of charters evidence. The geographical range across Europe is unusually wide, which allows comparison across differing societies. Frankish material is

inevitably prominent, but the contributors have sought to integrate Celtic, Greek, Italian and Spanish material into the mainstream of the subject. Above all, the book aims to 'demystify' the study of early medieval law, and to present a radical reappraisal of established assumptions about law and society.

Poema Epico Di

Giambattista Casti North-Holland

A classic study of modern philosophy's founder, translated into English for the first time.

Il maestro degli adulti periodico ad uso delle scuole serali, domenicali e

reggimentali del Regno d'Italia Stichting Promotie Archeologie Fragments of Modernity, first published in 1985, provides a critical introduction to the work of three of the most original German thinkers of the early twentieth century. In their different ways, all three illuminated the experience of the modern urban life, whether in mid nineteenth-century Paris, Berlin at the turn of the twentieth century or later as the vanguard city of the Weimar Republic. They related the new

modes of experiencing the world to the maturation of the money economy (Simmel), the process of rationalization of capital (Kracauer) and the fantasy world of commodity fetishism (Benjamin). In each case they focus on those fragments of social experience that could best capture the sense of modernity. *The Atlas of New Librarianship* Univ of North Carolina Press Winner of the Howard R. Marraro Prize for Italian History from the American

Historical Association Nobles were slaughtered and their castles looted or destroyed, bodies were dismembered and corpses fed to animals—the Udine carnival massacre of 1511 was the most extensive and damaging popular revolt in Renaissance Italy (and the basis for the story of Romeo and Juliet). Mad Blood Stirring is a gripping account and analysis of this event, as well as the social structures and historical conflicts preceding it and the subtle shifts in the mentality of revenge it

introduced. This new reader's edition offers students and general readers an abridged version of this classic work which shifts the focus from specialized scholarly analysis to the book's main theme: the role of vendetta in city and family politics. Uncovering the many connections between the carnival motifs, hunting practices, and vendetta rituals, Muir finds that the Udine massacre occurred because, at that point in Renaissance history, violent revenge and

allegiance to factions provided the best alternative to failed political institutions. But the carnival massacre also marked a crossroads: the old mentality of vendetta was soon supplanted by the emerging sense that the direct expression of anger should be suppressed—to be replaced by duels. *Dolce Vita Style* Roma : Centro editoriale internazionale
The contributors to this volume cross disciplinary and theoretical boundaries to read the

words, metaphors, images, signs, poetic illusions, and identities with which medieval men and women used space and place to add meaning to the world.

Political Descartes Legare Street Press

This groundbreaking study explores the role of those involved in various aspects of the care, comfort and appearance of the body in seventeenth and early eighteenth-century Italy, bringing to light the strong cultural affinities and social ties between

barber-surgeons and the apparently distant trades of jeweller, tailor, wigmaker and upholsterer. Drawing on contemporary understandings of the body, the author shows that shared concerns about health and well-being permeated the professional cultures of these medical and non-medical occupations. At the same time the detailed analysis of the life-course, career patterns and family experience of 'artisans of the body' offers

unprecedented insight into the world of the urban middling sorts. The book is essential reading for scholars and students of gender, family and urban history in the early modern age, and will equally appeal to historians of the body and of the medical occupations.

Medieval Public Justice
Routledge

The best-selling text has been completely revised and revitalised in this fifth edition, with the authors once again encouraging general practitioners,

medical students, general physicians and early stage dermatology specialist trainees and interns to relish the unique challenge of diagnosing and treating skin conditions. Clinical Dermatology, 5th edition contains over 400 high quality pictures and diagrams combined with colourful phrases to illustrate and entertain as it teaches. The book has established a reputation as a 'way of learning' and as an accessible guide to the subject for the aspiring specialist.

Readers are guided through the maze that too often lies between the presenting skin complaint and its final diagnosis and treatment. The authors have skilfully crafted an easily read text with enough detail to clarify the subject, but not enough to obscure it. This fifth edition contains new chapters on non-invasive physical treatment and dermoscopy, and new material on cosmetic dermatology, surgical dermatology, the skin and the psyche, and dermatoses of non-

Caucasian skin. The text throughout the book has been updated in line with developments in the science and practice of dermatology. "...brilliantly succeeds in enticing you to look further. The writing is clear, and the joint British-American authorship avoids any parochial views." From a review of a previous edition in BMJ "...a very well-presented book...an excellent aid for teaching. I recommend this book highly to individuals and departments." From a

review of a previous edition in J Derm Treatment "... provides a good overview of the structure and function of the skin as well as a good foundation for learning dermatology...well organized and includes a chapter dedicated to skin signs of systemic disease which is not covered in the other dermatology primers." From a review of a previous edition in JAMA

Catalogo dei libri in commercio JHU Press

The fantastic creative energy of the 1960s took

off with a burst of black and white: *La Dolce Vita* by Federico Fellini. An instant cult film, it became a great classic of modernity and continues to affect generation after generation, legendary yet always contemporary. *Dolce Vita Style* draws on the history that inspired the film in the theatrical Rome of the 50's and sums up the innumerable influences that this cult film has had on so many of those in the worlds of movies, popular music, society, life, and fashion. Image by image, this book

retraces the astonishing itinerary of a work that is a supreme emblem and a source of inexhaustible style.

Fragments of Modernity
(Routledge Revivals)

Legare Street Press

Arthur Mitzman's critical study of three major German sociologists - the nineteenth-century pioneers Ferdinand Tonnies, Werner Sombart, and Robert Michels - is rooted in the context of German social and intellectual history. Mitzman shows how Tbnnies's interest in

community and Michels's critique of socialist bureaucracy were both intimately connected with their allegiance to an older, more communitarian and decentralized Germany that was being irreparably destroyed by Prussian domination. Sombart's analysis of modern capitalism and his evolution from supporter of revisionist socialism to bitter critic of modernity are similarly related, by the author, to his increasing estrangement from German society. With

the brilliance of analysis that distinguished his study of Max Weber - The Iron Cage - Arthur Mitzman's book has revised long-held ideas about the beginnings of sociology: Far from originating as an antiseptic development of scientific objectivity, it

grew out of a passionate commitment to humanist values within a social order apparently determined to destroy them.

Parties and Political Life in the Medieval West Univ of North Carolina Press

In a series of essays based on surviving documents of actual court

practices from Perugia and Bologna, as well as laws, statutes, and theoretical works from the 12th and 13th centuries, Massimo Vallerani offers important historical insights into the establishment of a trial-based public justice system.
