Islamic philosophy and Sufism evolved as distinct yet interweaving strands of Islamic thought and practice. Despite differences, they have shared a concern with the perfection of the soul through the development of character. In The Polished Mirror, Cyrus Ali Zargar studies the ways in which, through teaching and storytelling, pre-modern Muslims lived, negotiated, and cultivated virtues. Examining the writings of philosophers, ascetics, poets, and saints, he locates virtue ethics within a dynamic moral tradition. Innovative, engaging, and approachable, this work – the first in the English language to explore Islamic ethics in the fascinating context of narrative – will be a valuable resource for both students and scholars. <i>Strangers from a Different Shore</i> Hachette UK		The renowned British primatologist continues the “engrossing account” of her time among the chimpanzees of Gombe, Tanzania (Publishers Weekly). In her classic, In the Shadow of Man, Jane Goodall wrote of her first ten years at Gombe. In Through a Window she continues the story, painting a more complete and vivid portrait of our closest relatives. On the shores of Lake Tanganyika, Gombe is a community where the principal residents are chimpanzees. Through Goodall’s eyes we watch young Figan’s relentless rise to power and old Mike’s crushing defeat. We learn how one mother rears her children to succeed and another dooms hers to failure. We witness horrifying murders, touching moments of affection, joyous births, and wrenching deaths. As Goodall compellingly tells the story of this intimately intertwined community, we are shown human emotions stripped to their essence. In the mirror of chimpanzee life, we see ourselves reflected. “A humbling and exalting book . . . Ranks with the great scientific achievements of the twentieth century.” —The Washington Post “[An] absolutely smashing account . . . Thrilling, affectionate, intelligent—a classic.” —Kirkus Reviews, starred review
Christopher Shaw met Jon Cody in 1972 when he moved to Stony Creek, New York, a remote hamlet in the southern Adirondacks. Their close and at times rocky friendship lasted until Cody’s death in 2015. In this sprawling, at times piercingly honest and direct memoir, Shaw recounts how Cody, the older one-armed dope dealer and fine leather craftsman, exasperated, supported, and goaded him, and how he found only late in their time together how Cody held the key to one of Shaw’s biggest childhood mysteries. What starts reading like a quaint regional narrative soon takes a number of surprising turns. It all takes place in the Adirondack backcountry and tourist meccas, enlivened by scenes from its wilds and its barrooms, and by the often confused expressions of love between men.		<i>Children of Eden</i> Open Road Media

<i>Dirichlet Branes and Mirror Symmetry</i> Algonquin Books		This “lucidly argued, historically grounded . . . and timely book” reexamines the relationship between black cultures, jazz music, and critical theory (Alexander G. Weheliye, Northwestern University). A sustained engagement with the work of Theodor Adorno, Jazz As Critique looks to jazz for ways of understanding the inadequacies of contemporary life. While Adorno’s writings on jazz are notoriously dismissive, he has faith in the critical potential of some musical traditions. Music, he suggests, can provide insight into the controlling, destructive nature of modern society while offering a glimpse of more empathetic and less violent ways of being together in the world. Taking Adorno down a new path, Okiji calls attention to an alternative sociality made manifest in
		jazz. In response to writing that tends to portray it as a mirror of American individualism and democracy, she makes the case for jazz as a model of “gathering in difference.” Noting that this mode of subjectivity emerged in response to the distinctive history of black America, she reveals that the music cannot but call the integrity of the world into question.

From paddy wagon to rush hour, New York City has given us a number of our popular words and phrases, along the way fashioning a recognizable dialect all its own. Often imitated and just as often ridiculed, New York English has its own identity, imbued with the rich cultural history of (as New Yorkers tell it) the greatest city in the world. How did this unique language community develop, and how has it shaped the city as we know it today? In *You Talkin' to Me?*, E.J. White explores the hidden history of English in New York City -- a history that encompasses social class, immigration, culture, economics, and, of course, real estate. She tells entertaining stories of New York's most famous characters, streets, and cultural institutions, from Broadway to the newspaper office to the department store, illuminating a new dimension of the city's landscape. Full of little-known facts -- *C-3PO* was originally written to have a New York accent; *West Side Story* was originally going to be *East Side Story*, about Jewish and Christian New Yorkers; and "confidence man" started in reference to a specific New York City criminal --the book will delight lovers of

language and history alike. The history of English in New York is deeply intertwined with the story of a famous city trying to develop its own identity. White's account engages issues of class and social difference; the invisible barriers that separate insiders from outsiders; the war between children who fit in and their parents who do not; and the struggle of being both an immigrant to the city and a New Yorker. Following language from *The Bowery to The Bronx*, *You Talkin' to Me?* offers a fascinating account of how language moves and changes-and a new way of understanding the language history, not only of New York, but of the United States.

NEW YORK TIMES BESTSELLER • Award-winning actor Alan Alda tells the fascinating story of his quest to learn how to communicate better, and to teach others to do the same. With his trademark humor and candor, he explores how to develop empathy as the key factor. "Invaluable."—Deborah Tannen, #1 New York Times bestselling author of *You're the Only One I Can Tell* and *You Just Don't Understand* Alan Alda has been on a decades-long journey to discover new ways to help people communicate and relate to one another more effectively. *If I Understood You, Would I Have This*

Look on My Face? is the warm, witty, and informative chronicle of how Alda found inspiration in everything from cutting-edge science to classic acting methods. His search began when he was host of PBS's *Scientific American Frontiers*, where he interviewed thousands of scientists and developed a knack for helping them communicate complex ideas in ways a wide audience could understand—and Alda wondered if those techniques held a clue to better communication for the rest of us. In his wry and wise voice, Alda reflects on moments of miscommunication in his own life, when an absence of understanding resulted in problems both big and small. He guides us through his discoveries, showing how communication can be improved through learning to relate to the other person: listening with our eyes, looking for clues in another's face, using the power of a compelling story, avoiding jargon, and reading another person so well that you become "in sync" with them, and know what they are thinking and feeling—especially when you're talking about the hard stuff. Drawing on improvisation training, theater, and storytelling techniques from a life of acting, and with insights from recent scientific studies, Alda describes ways we can build empathy, nurture our innate mind-reading abilities, and improve the way we relate and talk with others. Exploring empathy-boosting games and exercises, *If I Understood You* is a funny, thought-provoking guide that can be used by all of us, in every aspect of our lives—with our friends, lovers, and families, with our doctors, in business settings, and beyond. "Alda uses his trademark humor and a well-honed ability to get to the point, to help us all learn how to leverage the better communicator inside each of us."—*Forbes* "Alda, with his laudable curiosity, has learned something you and I can use right now."—Charlie Rose

Beyond Words Little, Brown

From the internationally acclaimed author of the Wallander crime series, a dramatic new standalone novel set in turn-of-the-century Sweden and Mozambique, whose indomitable female protagonist is awoken from naiveté by her exposure to racism, and by her own unexpected inner strengths. Cold and poverty define Hanna Renström's childhood in remote northern Sweden, and in 1905, at 19, she boards a ship for Australia in hope of a better life. But none of her hopes—or fears—prepares her for the life she will lead. After 2 brief marriages, she finds herself a widow twice over, and the owner of a bordello in Portuguese East Africa, a world where colonialism and white supremacy rule, where she is isolated within society by her profession and her sex, and, among the bordello's black prostitutes, by her colour. As Hanna's story unfurls over the next several years, we watch her in this "treacherous paradise," as she wrestles with a constant, wrenching loneliness and with the racism she's meant to unthinkingly adopt. And as her life becomes increasingly intertwined with the prostitutes, she moves inexorably toward the moment when she will make a decision that defies every expectation society has of her, and, more importantly, those she has of herself.
