"A Simple, Life-Changing Prayer is a valuable and thoughtful book, and a very practical one, which can be put with confidence into the hands of anyone who wishes to learn to pray the Examen and to find the presence and action of God in their lives." —Andrea Kelly, Thinking Faith Sometimes we can experience prayer as formal, dry, and repetitious. But what might happen if we discovered a simple prayer that changed all that? In A Simple, Life-Changing Prayer, Jim Manney introduces Christians to a 500-year-old form of prayer that dramatically altered his perception of prayer and the way he prayed. The prayer is the Examen, which St. Ignatius Loyola developed for the purpose of nurturing a reflective habit of mind that is constantly attuned to God's presence. What makes the prayer so powerful is its capacity to dispel any notion that God is somewhere "up there," detached from our day-to-day tasks and concerns. Instead, the examen leads us into a relationship with a God who desires to be personally caught up in the lives of those whom he created.

From athletes praising God to pastors using sport metaphors in the pulpit, the association between sport and religion in North America is often considered incidental. Yet religion and sport have been tightly intertwined for millennia and continue to inform, shape, and critique one another. Moreover, sport, rather than being a solely secular activity, is one of the most important sites for debates over gender, race, capitalism, the media, and civil religion. Traditionally, scholarly writings on religion and sport have focused on the question of whether sport is a religion, using historical, philosophical, theological, and sociological insights to argue this matter. While these efforts sought to answer an important question, contemporary issues related to sports were neglected, such as globalization, commercialization, feminism, masculinity, critical race theory, and the ethics of doping. This volume contains lively, up-to-date essays from leading figures in the field to fill this scholarly gap. It treats religion as an indispensable prism through which to view sports, and vice versa. This book is ideal for students approaching the topic of religion and sport. It will also be of interest to

scholars studying sociology of religion, sociology of sport, religion and race, religion and gender, religion and politics, and sport in general.

This book explores the concept of diffused religion as it is found in contemporary society, resulting from a vast process of religious socialisation that continues to pervade our cultural reality. It provides a critical engagement with a framework of non-institutional religion that is based on values largely shared in society by being diffused through primary and secondary socialisation. Cipriani also contends that these very values which give form to diffused religion can also be seen in themselves as their own kind of religion. As a result, they go beyond secularisation and favour the religious continuum extending around the world of diffused religions. This work will be of great interest to scholars in the Sociology of Religion and to anyone wanting to learn more about the social aspects of religion.
