The New Yorker critic examines the books that reveal and record our world in a new essay collection. Joan Acocella, “one of our finest cultural critics” (Edward Hirsch), has the rare ability to examine literature and unearth the lives contained within it—its authors, its subjects, and the communities from which it has sprung. In her hands, arts criticism becomes a celebration and an investigation, and her essays pulse with unadulterated enthusiasm. As Kathryn Harrison wrote in The New York Times Book Review, “Hers is a vision that allows art its mystery but not its pretensions, to which she is acutely sensitive. What better instincts could a critic have?” The Bloodied Nightgown and Other Essays gathers twenty-four essays from the past decade and a half of Acocella’s career, as well as an introduction that frames her simple preoccupations: “life and art.” In agile,

inspired prose, the New Yorker staff writer moves from J. R. R. Tolkien’s translation of Beowulf to the life of Richard Pryor, from surveying profanity to untangling the book of Job. Her appetite (and reading list) knows no bounds. This collection is a joy and a revelation, a library in itself, and Acocella is our dream companion among its shelves. Includes 25 black-and-white images

Lines of the Nation radically recasts the history of the Indian railways, which have long been regarded as vectors of modernity and economic prosperity. From the design of carriages to the architecture of stations, employment hierarchies, and the construction of employee housing, Laura Bear explores the new public spaces and social relationships created by the railway bureaucracy. She then traces their influence on the formation of contemporary Indian nationalism, personal sentiments, and popular memory. Her probing study challenges

entrenched beliefs concerning the institutions of modernity and capitalism by showing that these rework older idioms of social distinction and are legitimized by forms of intimate, affective politics. Drawing on historical and ethnographic research in the company town at Kharagpur and at the Eastern Railway headquarters in Kolkata (Calcutta), Bear focuses on how political and domestic practices among workers became entangled with the moralities and archival technologies of the railway bureaucracy and illuminates the impact of this history today. The bureaucracy has played a pivotal role in the creation of idioms of family history, kinship, and ethics, and its special categorization of Anglo-Indian workers still resonates. Anglo-Indians were formed as a separate railway caste by Raj-era racial employment and housing policies, and other railway workers continue to see them as remnants of the colonial past and as a polluting influence. The experiences of Anglo-Indians, who are at the core of the ethnography, reveal the consequences of attempts to make political communities legitimate in family lines and sentiments. Their situation also compels us to rethink the importance of documentary practices and nationalism to all family histories and senses of relatedness. This interdisciplinary anthropological history throws new light not only on the imperial and national past of South Asia but also on the moral life of present technologies and economic institutions.

This book offers an interdisciplinary perspective on femicide, using Israel as an illuminating case study, given its diverse communities and common-law-based legal system. Utilizing analytical alongside practical perspectives, the book offers a novel crimino-legal approach to femicide. In addition to its interdisciplinary novelty, the book presents originality in going beyond the more usual focus on the central victims and the common legal tools. Here, the authors extend the analysis to secondary victims of femicide and examine the

applicability of second-tiered relevant legal tools, mostly tort law, as a means for gaining justice for the victims. This explorative journey culminates with the authors' definition of femicide as a quintessential "crime of distinct nature". In the context of current international pledges to better understand and consequently better fight femicide, this work allows readers to comprehend the phenomenon and the ways to abolish it. The book will be an invaluable resource for academics, researchers and policy makers working in the areas of criminal law, tort law, family law, criminology and gender studies, as well as for legal theorists and criminologists seeking integration of both disciplines.

She was a talented new photographer, with an impressive figure and beautiful face. She was the goddess of all men, but also the abandoned wife of a mother. The news had turned her from the Cinderella that everyone envied to the hundreds of millions of abandoned wives. But why was the ex-husband who had so cruelly abandoned her still pestering her? He would always try to prevent her from falling in love and even shamelessly live in her house, brazenly saying that he wanted to chase after his wife's tempo. Furthermore, she was slandering him because she was poisoned and would not be able to get rid of him once she was exposed to the poison.

An essay collection that offers "a fascinating glimpse of post-apartheid South Africa" from the bestselling author of *My Traitor's Heart* (The Sunday Times). The *Lion Sleeps Tonight* is Rian Malan's remarkable chronicle of South Africa's halting steps and missteps, taken as blacks and whites try to build a new country. In the title story, Malan investigates the provenance of the world-famous song, recorded by Pete Seeger and REM among many others, which Malan traces back to a Zulu singer named Solomon Linda. He follows the trial of Winnie Mandela; he writes about the last Afrikaner, an old Boer woman who settled on the slopes of Mount Meru; he plunges into President Mbeki's AIDS policies of the 1990s; and finally he tells the story of the Alcock brothers (sons of Neil and Creina whose heartbreaking story was told in *My Traitor's Heart*), two white South Africans raised among the Zulu and fluent in their language and customs. The twenty-one essays collected here, combined with Malan's sardonic interstitial commentary, offer a brilliantly observed portrait of contemporary South Africa; "a grimly realistic picture of a nation clinging desperately to hope" (The Guardian). *Be "The Other Woman" in Your Man's Life* Chiron Publications

A woman's dream of being trapped in a black nightgown reveals a dread that

dominates her psyche and blocks her development as a self. In her story and others, Jungian analyst Nathan Schwartz-Salant reveals how the same complex characterizes our society as a whole. This archetypal pattern is the Fusional Complex. The Fusional Complex is like the Renaissance alchemists' prima materia, said to be vile and worthless, ubiquitous and easily discarded, and yet essential for the creation of that most highly prized goal of the alchemical opus: the lapis, a symbol of the self. Like the prima materia, the Fusional Complex is found everywhere--in addiction and codependency, in masochistic submissions that sacrifice essence and potential, in the dark corners of relationships that are fixed in old patterns and simmer in contempt and resentment, and in the array of the character disorders. Because it generally goes unseen, however, these disorders do not transform. Through the theory of the Fusional Complex, and with the non-ordinary perception that detects it, we can learn to make transformative discoveries that are rarely possible through usual analytic procedures. And through the cultural and individual examples of *The Black Nightgown*, we will see that the Fusional Complex is the doorway through which any new form of consciousness and associated self--the structure that bestows a sense of identity and order within human life--must pass.

*A Good Indian Wife: A Novel* Open Road + Grove/Atlantic

It's widely assumed that Britain in the 1950s experienced a return to traditional gender roles. Popular cinema has typically been seen to represent this era through the dominant image of the 'happy housewife'. "Femininity in the Frame" is a sharply observant account of how British cinema engaged with femininity and women's roles during this important period. Written in a lively and accessible manner, it challenges received understandings, arguing that the period was marked by social unease and anxiety about gender roles and femininity, with much British cinema producing ambiguous messages about feminine identities and the role of women. Through analysing marginalized figures, such as prostitutes, criminals and femmes fatales, and addressing central themes, notably sexuality, marriage and female friendship, Melanie Bell examines how British popular cinema imagined and constructed femininity in this era of rapid social and cultural change. She draws together sources ranging from official reports to film reviews, with case studies of films across genres, including "The Perfect Woman", "Young Wives' Tale", "The Weak and the Wicked" and "A Town Like Alice", to show how new ideas and understandings of femininity were seeping into the cultural imagery at this time. She demonstrates how such films expressed proto-feminist ideas and how they ultimately explored new forms of

femininity in a manner that has not until now been recognised.
