Chemically Induced Magnetic Polarization JHU Press

"The story of Wal-Mart Stores is the stuff of legends: in 1945 a poor boy from a poor state opens a variety store in a small town in rural Arkansas and, through hard work, ingenuity, and a commitment to providing customers with low-priced, high-quality merchandise, goes on to create the largest retail operation in the United States. In just 30 years Sam Walton and his Wal-Mart Stores transformed

mass merchandising and revolutionized the shopping habits and expectations of American consumers. Moreover, Walton himself - a modest, simple man devoted to family, community, and his employees and customers - so inspired the American people that he was awarded the Medal of Freedom. Upon his death in 1992 Walton left his family a fortune estimated at \$23.5 billion; that same year Wal-Mart Stores attained net sales of \$43.9 billion and had 1,720 Wal-Mart units operating in 39 states." "This fascinating history of a man and his enterprise is adroitly chronicled by Sandra S. Vance and Roy V. Scott in *Wal-Mart*, the first scholarly study of Wal-Mart Stores and Sam Walton's remarkable

career. Organizing their material chronologically, the authors trace Walton's evolving entrepreneurial style and mounting achievements, consistently linking the character of the man to the innovations he produced - starting with a tiny Ben Franklin variety store in 1945 and progressing to Walton's 5 & 10, Walton's Family Centers, and finally Wal-Mart Stores in the ensuing decades. Readers gain a wealth of insights into the history of American retailing and reach a solid understanding of the elements contributing to Wal-Mart's success: the steadfast dedication to customer service, the sophisticated mechanisms for keeping overhead low, the company policies designed to engender loyalty from employees

and customers alike. Given particular emphasis are the factors that led to Wal-Mart's 1990-91 victory over its chief rivals, K mart and Sears, in becoming the nation's leading retailer; also highlighted is the issue of Wal-Mart's impact on the communities it serves and the small businesses therein." "Wal-Mart will hold the interest of students and scholars, of retailing executives and general readers, from first page to last."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved The Civilization of France, an Introduction Oxford University Press, USA This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. Panchayati Raj in Karnataka Today

Macmillan Reference USA Harp uses the familiar figure of Bibendum and the promotional campaigns designed around him to analyze the cultural assumptions of "belle-epoque" France, including representations of gender, race and class. He also considers Michelin's efforts to promote automobile tourism in France and Europe through its famous "Red Guide" (first introduced in 1900), noting that, in the aftermath of World War I, the company sold tour guides to the battlefields of the Western Front and favourably positioned France's participation in the war as purely defensive and unavoidable. Throughout this period, the company

successfully identified the name of Michelin with many aspects of French society, from cuisine and local culture to nationalism and colonialism.

Routledge

Combining superb investigative reporting with incisive analysis, Jerry Mashaw and David Harfst provide a compelling account of the attempt to regulate auto safety in America. Their penetrating look inside the National Highway Traffic Safety Administration (NHTSA) spans two decades and reveals the complexities of regulating risk in a free society. Hoping to stem the tide of rising automobile deaths and injuries, Congress passed the National Traffic and Motor Vehicle Safety Act in 1966. From that point on, automakers would build cars under the watchful eyes of the federal regulators at NHTSA. Curiously, however, the agency abandoned its safety mission of setting, monitoring, and enforcing performance standards in favor of the largely symbolic act of recalling defective autos. Mashaw and Harfst argue that the

regulatory shift from rules to recalls was neither a response to a new vision of the public interest nor a result of pressure by the auto industry or other interest groups. Instead, the culprit was the legal environment surrounding NHTSA and other regulatory agencies such as the EPA, OSHA, and the Consumer Product Safety Commission. The authors show how NHTSA's decisions as well as its organization, processes, and personnel were reoriented in order to comply with the demands of a legal culture that proved surprisingly resistant to regulatory pressures. This broad-gauged view of NHTSA has much to say about political idealism and personal ambition, scientific commitment and professional competition, long-range vision and political opportunism. A fascinating illustration of America's ambivalence over whether government is a source of--or solution to--social ills, *The Struggle for Auto Safety* offers important lessons about the design and management of effective health and safety regulatory agencies today.

Jewish achievement in the sciences? Celebrated.

Jews in literature?

Lionized. But until now, there's been no record of the massive contributions of Jews in Rock n' Roll.

Jews Who Rock features 100 top Jewish rockers,

from Bob Dylan to Adam Horowitz, Courtney Love (yes, she's half Jewish) to John Zorn, with a concise page of essential data and a biography of each one. Includes the complete lyrics to "The Chanukah Song" by Adam Sandler

Bathymetrical Survey of the Scottish Fresh-water Lochs University of Chicago Press

Voters in India are more vigilant in monitoring government at the local than at the national level. In state assembly elections voters reward incumbents for local income growth, and punish them for a rise in inequality, over their entire term in office. But in national elections voters behave myopically, rewarding growth in national income and a fall in inflation and inequality only in the year preceding the election.

Nouveau Larousse illustré United Nations Publications

This book explores the problematic relationship between education, social justice and the State, against the background of comparative education research. The book critiques the status quo of stratified school systems, and the unequal distribution of cultural capital and value added

schooling. The authors address one of today's most pressing questions: Are social, economic and cultural divisions between the nations, between school sectors, between schools and between students growing or declining?

Redesigning Physical Education University of Chicago Press

An examination of long-term trends in capital formation and financing in the U.S., this study is organized primarily around the principal capital-using sectors of the economy: agriculture, mining and manufacturing, public utilities, non-farm residential real estate, and government. The analysis summarizes major trends in real capital formation and financing, and the factors that determined the trends. Originally published in 1961. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and

hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Absorption and Theatricality Routledge

With this widely acclaimed work, Michael Fried revised the way in which eighteenth-century French painting and criticism are viewed and understood. Analyzing paintings produced between 1753 and 1781 and the comments of a number of critics who wrote about them, especially Dennis Diderot, Fried discovers a new emphasis in the art of the time, based not on subject matter or style but on values and effects.

Religious History of Modern France Princeton University Press

The world has changed radically since 1989, when the General Assembly declared the period from 1990 to 1999 as the United Nations Decade of International Law. During that time, the international community claimed some major achievements as reflected by the adoption of conventions and treaties. This publication presents

a collection of essays from legal advisers of States and international organizations, all of whom are among those committed to promoting respect for international law. Their contribution provides a practical perspective on international law, viewed from the standpoint of those involved in its formation, application and administration.

Relations des Jésuites contenant ce qui s'est passé de plus remarquable dans les missions des pères de la Compagnie de Jésus dans la Nouvelle-France
Redesigning Physical Education is a bold and innovative manifesto for the fundamental redesign of physical education for the twenty-first-century world. Aiming at better outcomes for children, better working conditions for teachers, and innovative solutions to the decline of school PE, it calls for a transnational collective action project based on new research frameworks, stressing the fundamental importance of health-enhancing, life-enriching active participation for all children and young

people. Action-oriented and evidence-based, the book examines the key challenges driving change, including the equity agenda, institutionalization, outcome and accountability based teaching, and physical activity requirements in schools. With a truly international scope, the text explores perspectives from the USA, Canada, Scotland, England, Wales, Ireland, New Zealand, Australia, and Italy. This is important reading for students and academics studying and working in physical education, kinesiology, public health, and children's physical activity. It is also a valuable resource for pediatric exercise specialists, especially sport and exercise psychologists.
