NAD OUP India
When Namita is ten, her mother takes her to Dhondutai, a respected Mumbai music teacher from the great Jaipur Gharana. Dhondutai has dedicated herself to music and her antecedents are rich. She is the only remaining student of the legendary Alladiya Khan, the founder of the gharana and of its most famous singer, the tempestuous songbird, Kesarbai Kerkar. Namita begins to learn singing from Dhondutai, at first reluctantly and then, as the years pass, with growing passion. Dhondutai sees in her a second Kesar, but does Namita have the dedication to give herself to

music—or will there always be too many late nights and cigarettes? Beautifully written, full of anecdotes, gossip and legend, *The Music Room* is perhaps the most intimate book to be written about Indian classical music yet. **The Andhra Pradesh Gazette** Рипол Классик Shri Mataji writes that “India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it.” This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children.

“The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form.” **Sangeet Aarohee - An Essential Study of Hindustani Classical Music** Nimbus Publishing (CN)

This book presents a comprehensive overview of the basics of Hindustani music and the associated signal analysis and

technological developments. It begins with an in-depth introduction to musical signal analysis and its current applications, and then moves on to a detailed discussion of the features involved in understanding the musical meaning of the signal in the context of Hindustani music. The components consist of tones, shruti, scales, pitch duration and stability, raga, gharana and musical instruments. The book covers the various technological developments in this field, supplemented with a number of case studies and their analysis. The book offers new music researchers essential insights into the use of the automatic concept for finding and testing the musical features for their applications. Intended primarily for postgraduate and PhD students working in the area of scientific research on Hindustani music, as well as other genres where the concepts are applicable, it is also a valuable resource for professionals and researchers in musical signal processing.

This book is perhaps the first comprehensive guide to understanding all the aspects and finer nuances of Hindustani classical music. It is aimed at the serious listener, that is, someone who may not have had any formal lessons himself in this performing art, but who, nevertheless, has picked up an initial interest in listening to classical music, and is, therefore, seeking to know more about its underlying

structure, system and traditions. By explaining in a straightforward and extremely readable style, the basic features of Indian music, how time and melody are structured, the main principles of raga delineation and development, and the various genres and styles of vocal as well as instrumental performances, the book aims to enhance the serious listener's understanding of Hindustani music, and heighten his appreciation of this art form. This book includes a glossary of musical terms, a select discography and a select bibliography.

While the rest of the world has taken great strides in mainstreaming the differently abled into the larger contours of their society, life continues to be an uphill struggle for the differently-abled in India. They continue to be burdened with their 'handicapped' status and live a life on the fringes, largely forgotten by a society which is galloping ahead at a fast pace. Born 'different' from the rest of us, they have been put in a position of disadvantage in a world where being 'normal' is at such a premium. Written by the bestselling author of *Legacy and Leading Ladies*, Sudha Menon, and the MD of SAP Labs India, V.R. Ferose, Gifted celebrates the journeys of these very Indians who are neither CEOs nor part of any influential power clubs, but special in their own way. These are stories that can inspire even the most 'abled' among us.

This book, elucidates the basic steps called Adavus of Bharata Natyam in the traditional Pandanallur

style, as taught by the revered Gurus Sri Meenakshi Sundaram Pillai and Sri Muthukumara Pillai, to Sri T.K Narayan and Smt. Jayalakshmi Narayan, parents of the author. It is an honest attempt to explain the various steps with unerring and accurate execution technique. The book offers a visual representation of the Adavus with the help of stick diagrams in a sequential manner so that the beginners and practitioners can understand the finer points of each movement. The author has developed simple schematics to show the various moves, such as jump, stretch, turn, hit etc. The author endeavours to illustrate Adavus in a precise manner in this book. Classification and categorization of each step is the salient feature of this work. Gayathri Keshavan makes a humble effort to pass on the knowledge of this ancient and sacred art to the present and future generations of Bharata Natyam dancers.

This book has been specially created for any guitarist who wants to learn note reading, be they beginners or more advanced players who have neglected this part of their musicianship. It starts with the very basics of written music and progressively introduces notes on each string one at a time until all notes in the "open position" (first five frets) of the guitar have been mastered, and up to 8th note rhythm subdivisions have been learned and applied. Also covered are sharps, flats, key signatures, accidentals, repeats and more. Each step includes

practical exercises, handy tips and tricks and a simple repertoire for students to put their reading skills into practice. Spiral open so it lays flat no matter what page you're on.

The Tabla of Lucknow
